ORDER SETTING STATUS
CONFERENCE ON STATE LAW
CLAIMS

CONTESTED CASE NAME: *In re San Pedro Riparian National Conservation Area*

HSR INVOLVED: San Pedro River Watershed Hydrographic Survey Report.

DESCRIPTIVE SUMMARY: Proceedings initiated to adjudicate claims for rights asserted by the United States to appropriable water under state law for the San Pedro Riparian National Conservation Area and status conference scheduled for **December 3, 2021 at 2:00 p.m.**

NUMBER OF PAGES: 9 + Attachments

DATE OF FILING: October 11, 2021.

By a Case Management Order dated September 26, 2006, the Special Master consolidated sixteen contested cases to adjudicate the objections filed to the Watershed File Reports that investigated land believed to include the San Pedro Riparian National

1 Conservation Area (“SPRNCA”). The Watershed File Reports (“WFRs”) are attached as
2 Attachment A and listed in Table 1 below. Thereafter, the Special Master designated multiple
3 issues for briefing relevant to the United States’ claims for federal reserved water rights. On
4 May 29, 2013, the Special Master designated three principle issues to be resolved based on
5 evidence to be presented at a hearing set to determine the quantification of the United States’
6 federal reserved water rights. The claims based on federal reserved water rights in WFRs have
7 been tried and are currently in the process of being decided.
8

9 In addition to claims based on federal reserved water rights, the WFRs included claims
10 for water use based on state law. The purpose of this stage of the proceedings is to resolve the
11 objections to the WFRs and adjudicate the United States’ claims for rights under state law for
12 water use in the San Pedro Riparian National Conservation Area. The types of claims and uses
13 investigated include water for domestic, fish, industrial, irrigation, mining, municipal,
14 recreational, stockpond, stock watering, and wildlife. At the conclusion of its investigation,
15 ADWR identified wildlife, stockpond, stock watering, domestic, irrigation, and discontinued
16 irrigation uses on the land included within the boundaries of the WFRs.
17

18 In May 2012, ADWR issued a report titled “Concerning Federal Reserved Water Rights
19 Claims for SPRNCA.” Within that report is a chapter that reviews land ownership information
20 for SPRNCA that was presented by the Bureau of Land Management (“BLM”) with its Third
21 Amended SOC concerning its federal claims to water. Appendix F to ADWR’s May 2012 report
22 contains maps prepared by ADWR that show the boundaries of SPRNCA and both BLM and
23 privately owned parcels within those boundaries. Table 1 lists the landowners of the land
24 included within the boundaries of the 16 WFRs and also identifies the Statements of Claimant
25 that have been assigned to BLM.

The mailing list for this case is included as Attachment B and has been augmented by the inclusion of the current landowners as determined by the Cochise County Assessor of the land in the WFRs included in Table 1. Union Pacific Railroad Company, successor in interest to Southern Pacific Transportation Company, provided notice to the Court that it did not wish to pursue claims in the case. See Minute Entry filed January 30, 2007. Thus, it has not been added to the mailing list.

Table 2 below shows six WFRs that contain privately owned land within the boundaries of a WFR consolidated with SPRNCA, the associated parcel numbers, owners according to the Cochise County Assessor, and the corresponding map number included in the May 2012 ADWR report.

Only the claims asserted by the United States shall be adjudicated in this consolidated contested case. As an initial step in the adjudication of the rights under state law, the potential water rights classified by ADWR as stock and wildlife watering and stockpond uses have been identified. In 1994, the Special Master issued a Memorandum of Decision, Findings of Fact, and Conclusions of Law for Group 1 Cases involving Stockwatering, Stockponds, and Domestic Uses, dated November 14, 1994, amended February 23, 1995, approved and modified September 27, 2002 (“Decision”). The Decision established the procedures for adjudicating *de minimis* water rights for claims in the San Pedro watershed. This procedure applies to the water rights for stockponds and stock watering. Proposed water right abstracts have been prepared for the *de minimis* water rights for stock and wildlife watering and stockponds analyzed by the WFRs in accordance with the Decision and are attached as Attachment C. No proposed abstracts were

1 prepared for potential water rights found by ADWR that lacked either a statement of claimant or
2 a pre-filing document to establish a legal right to the water use.

12 the United States does not intend to pursue;
