"Unity" Surfacing Systems™

Interlocking, Unitary Rubberized Safety Surfacing, Flooring & Pavers

Our product(s) size, weight, durability, longevity, fall protection rating (the highest in the industry), and ability to have an integrated interlocking design (for rooftop applications), with bolt-down capabilities (for playground use) can be effectively and easily secured on site to eliminate the potential for wind up-lift, vandalism, separation, curling, peeling and maintenance issues.
