Press Release

BlackRock announces updated voting rights disclosures

Frankfurt, 30 September 2014 – Today, certain BlackRock group entities are filing with the Bundesanstalt für Finanzdienstleistungsaufsicht (BaFin) and relevant issuers updated voting rights disclosures and financial instrument holdings.

The statements do not reflect a change in BlackRock's current holdings of voting rights. The statements simply update information currently in the market regarding BlackRock's holdings in the issuers referenced. Further, the statements do not signify any change in investment strategies pursued.

The filings are the result of a review of the way BlackRock has interpreted its voting rights disclosure obligations under German law in close collaboration with BaFin. The review has concluded that various BlackRock group entities will amend their voting rights attributions as well as their financial instruments holdings since individual disclosures made in the past were not correct or had been omitted.

BlackRock entities are filing a statement representing their holdings as of settlement date 25 September 2014. Given both the number of issuers and the technical complexity involved in making corrections, the agreed approach to update the disclosures without delay has been taken to ensure the highest level of transparency possible.
