

ADOPTED RULES WITH PREAMBLE TO BE SUBMITTED TO THE *TEXAS REGISTER*. THIS DOCUMENT WILL NOT HAVE ANY SUBSTANTIVE CHANGES BUT IS SUBJECT TO FORMATTING CHANGES AS REQUIRED BY THE *TEXAS REGISTER*.

The Texas Workforce Commission (Commission) adopts amendments to Chapter 800 General Administration, Subchapter A, General Provisions, §800.2, Subchapter B, Allocations and Funding, §§800.51-800.54, §§800.57-800.58, §800.63, §§800.71-800.75, Chapter 847 Project RIO Employment Activities and Support Services, §847.1; new §§800.65- 800.67; and the repeal of §§800.61- 800.62 without changes to the proposed text as published in the June 4, 2004 issue of the *Texas Register* (29 TexReg 5557). The text will not be republished. The Commission adopts §800.66 with changes to the proposed text as published in the June 4, 2004 issue of the *Texas Register* (29 TexReg 5557).

Purpose

The purposes of the changes are to fulfill statutory requirements embodied in Texas Labor Code §301.001, as amended, establishing the Texas Workforce Commission to operate an integrated workforce development system in this state, in particular through the consolidation of job training, employment, and employment-related programs; to standardize, simplify, and make more consistent the procedure of determining allocations on the basis of the universe of need; to streamline and achieve administrative efficiency and effectiveness in granting allocated funds, in order to foster the integration of workforce development programs, minimize administrative burdens and costs, and maximize the proportion of funding available for services; and delete various obsolete provisions, add to various provisions to make references more accurate and complete, and make various technical corrections.

Background

Texas Labor Code §301.001, as amended, establishes the Texas Workforce Commission to operate an integrated workforce development system in this state, in particular through the consolidation of job training, employment, and employment-related programs. Texas Labor Code §302.002 directs the executive director to consolidate the administrative and programmatic functions of the programs under the authority of the Commission to achieve efficient and effective delivery of services, and also to contract with local workforce development boards for program planning and service delivery. In order to achieve most effectively an integrated workforce development system—wherein disparate and distinct programs are blended into a functionally unified whole—the Commission intends to make allocations that support integrated and consolidated workforce programs, to administer grants of allocated funds simplifying (to the maximum extent feasible) the current incongruent and confounding array of disparate federal and state programmatic requirements, funding periods, and other impediments, and to advocate and enhance achievement of integrated and consolidated workforce development by workforce development boards. By standardizing, simplifying, and making more consistent the procedure of determining allocations on the basis of need, the Commission is helping to promote the integration and consolidation of workforce

development programs. By streamlining and achieving administrative efficiency and effectiveness in granting allocated funds—including administering consolidated workforce development grants according to a unified program year, and utilizing enhanced grant closeout procedures—the Commission will facilitate a more effective use of the cash draw system, accelerate the contracting process, and accomplish greater efficiency in contracting, thereby setting the stage for decreased Agency and Board administrative costs.

The Commission amends Section 800.2 by adding definitions for Employment Services, Project Reintegration of Offenders (RIO), Trade Act Services, and Veterans' Employment and Training; adds Employment Services, Project RIO, Trade Act Services, Veterans' Employment and Training, WIA Alternative Funding for Statewide Activities, and WIA Alternative Funding for One-Stop Enhancements, and strikes now-obsolete Welfare-to-Work for Program Year definitions; changes Program Year definitions to October 1- September 30 in order to facilitate the consolidation of allocations and to help achieve administrative efficiencies. The definition of Allocation and Food Stamp Employment and Training is simplified and clarified. "Core Outcome" Measures is replaced with "Formal" Measures (although the definition remains unchanged), and within the definition of "Performance Standard," reference to "Core Outcome" Measures is replaced with "Formal" Measures, in order to update the rules with current terminology. The definition of Local Workforce Development Area is unchanged but moved, in order to be listed in alphabetical order.

Section 800.51 broadens the scope and purpose of Subchapter B. Allocations, in concert with Texas Labor Code §301.001 and §302.002, emphasizing that the Texas Workforce Commission was established to operate an integrated workforce development system in this state, in particular through the consolidation of job training, employment, and employment-related programs. This section also clarifies that the scope and purpose of Subchapter B are enhanced by Agency procedures of contracting with Boards for allocations to promote the greatest practicable degree of administrative economy, streamlining, and effectiveness.

Section 800.52 adds definitions of accrued expenditures, contract closeout settlement package, contract period, deobligation, equal base amount, hold harmless/stop gain, and WIA formula allocated funds. This section also modifies current definitions of monthly expenditure report and obligation, and strikes the now-obsolete definition of two-parent family participation rate. Definitions are being added or modified in order to provide increased clarity in the rules. The rationale for the modification of the definition of obligation (together with a new provision proposed for inclusion in Section 800.72 dealing with contract closeout settlement package) is to provide the maximum time in which funds may be expended and obligations liquidated, consistent with contract closeout requirements. An equal base amount in allocations is included to acknowledge that despite the wide variance in the characteristics of Texas workforce areas, each Board is similarly required to utilize infrastructure and other resources in order to provide one-stop services.

The Commission amends Sections 800.53 and 800.54 in order to standardize, simplify, and make more consistent the procedure of determining allocations on the basis of need for Choices and Food Stamp Employment and Training. These sections also include technical edits not intended to effect substantive changes.

Section 800.57 adds provisions articulating that the hold harmless/stop gain procedure will be applied in the allocations for Employment Service (the hold harmless/stop gain procedure has been utilized for such allocations each year, but formerly not articulated in the rules). A provision is added that no more than ten percent of the funds expended as part of the workforce area's allocation shall be used for administrative costs, to provide consistency among the various allocations.

Section 800.58 strikes the listing of Welfare-to-Work funds reserved by the Governor, to be included in child care allocated funds, because the program has expired. A provision is added, articulating that the hold harmless/stop gain procedure will be applied in the allocations for Child Care (the hold harmless/stop gain procedure has been utilized for such allocations each year, but formerly not articulated in the rules). This section also includes minor editing not intended to effect substantive changes.

Sections 800.61 and 800.62 strike provisions covering now obsolete programs, Welfare-to-Work and School-to-Careers.

Section 800.63 clarifies one of the factors for dislocated worker allocations to make it consistent with WIA statute, and also provides details regarding the allocation of WIA Alternative Funding for Statewide Activities and WIA Alternative Funding for One-Stop Enhancements. A provision is added that no more than ten percent of the funds expended as part of the workforce area's allocation shall be used for administrative costs; this is a consistent provision for allocations and represents no change for the WIA program. A provision covering the availability of funds is stricken because it is unnecessary, as it is already adequately addressed in federal statute, and a provision is added, stating that the hold harmless/stop gain procedure will be applied in the WIA formula allocations for Adult and Youth employment and training activities (the hold harmless/stop gain procedure has been utilized for such allocations each year, but formerly not articulated in the rules).

The Commission amends Sections 800.65, 800.66, and 800.67 by adding new provisions setting forth the details regarding allocations for Project RIO, Trade Act Services, and Veterans' Employment and Training, following the same standardizing and simplifying characteristics of the Choices and Food Stamp Employment and Training allocation amendments noted above. Project RIO, Trade Act Services, and Veterans' Employment and Training are allocated in order to fulfill the statutory requirement for the Commission to operate an integrated workforce development system in this state, in particular through the consolidation of job training, employment, and employment-related programs. A nonsubstantive change has been made in Section 800.66, to add clarity.

Section 800.71 adds Employment Services, Project RIO, Trade Act Services, Veterans' Employment and Training, and WIA Alternative Funding for Statewide Activities and WIA Alternative Funding for One Stop Enhancements as subject to general deobligation and reallocation provisions.

Section 800.72 clarifies that Board reporting requirements include accrued expenditures and obligations, and also provides that Board contract closeout settlement packages shall be submitted on or before 60 days following the end of the contract period, and the Commission may suspend payments, advances, or reimbursements to Boards in the cash draw system if financial reports are not submitted in a timely fashion. While these requirements have been in effect, they have not been formerly articulated in the rules. This section provides - that the executive director may approve a Board's request to extend the deadline for submitting a financial report or a contract closeout settlement package, if the request is received on a timely basis with sufficient justification.

Section 800.73 adds Employment Services and new allocations (Project RIO, Trade Act Services, Veterans' Employment and Training, and WIA Alternative Funding for Statewide Activities and WIA Alternative Funding for One-Stop Enhancements) and revises allocation expenditure targets, in order to simplify and streamline this procedure. Expenditure targets as of the end of the third month and ninth month of the program year are established for each allocation; however, for Trade Act Services, expenditure targets are established as of the end of the third month, sixth month, and ninth month.

Section 800.74 provides that Employment Services, Project RIO, Trade Act Services, Veterans' Employment and Training, and WIA Alternative Funding for Statewide Activities and WIA Alternative Funding for One-Stop Enhancements are subject to deobligation of all or part of the difference between a Board's actual accrued expenditure level and the target expenditure level.

Section 800.75 provides that the Commission may reallocate selected funds from Employment Services, Project RIO, Trade Act Services, Veterans' Employment and Training, and WIA Alternative Funding for Statewide Activities and WIA Alternative Funding for One-Stop Enhancements.

Section 847.1(c) is amended by striking the last sentence, thereby eliminating inconsistencies with the proposed allocation factors for Project RIO, and also providing clear direction that the Commission intends to accomplish funding integration for Project RIO.

Coordination Activities: In the development of these rules for publication and public comment the Commission sought the involvement of each of Texas' twenty-eight Boards. The Commission provided policy concepts to the Boards for consideration and review pursuant to Texas Labor Code §302.064 and the Commission's Resolution Regarding Board Coordination in Policy Development, adopted September 24, 2002. Prior to and during this rulemaking process, the Commission considered the Boards' contributions.

During preliminary discussions regarding policy concepts covering these proposed amendments with the Texas Association of Workforce Boards in Austin on April 16, 2004 and in a telephone conference call on April 23, 2004, some concerns were expressed about the notion of proposed “equal base amounts” to be included in allocations, while others expressed support. And, while options discussed included the possibility of equal base amounts equivalent to 1/4th of 1 percent or 18% of 1 percent of selected allocations (i.e., Choices, Food Stamp Employment and Training, Project RIO, Trade Act Services, Veterans’ Employment and Training, and WIA Alternative Funding for Statewide Activities and WIA Alternative Funding for One-Stop Enhancements) for each of the 28 workforce areas, the equal base amount was proposed in these rule amendments to be 1/10th of 1 percent for each of the 28 workforce areas, to be included in those allocations. This modest equal base amount was proposed, and is included in these adopted rules, in recognition of the infrastructure costs and other needs of every workforce board to provide one-stop services, whether the workforce area is urban and intensely populated or rural and sparsely populated.

Similarly, concerns were raised by one Board that allocations, while predominantly need-based, do not make provisions for differences in the cost of living. While it is true that allocations do not include allowances for costs of living, there is neither statutory guidance to do so, nor any clear methodological approach for doing so effectively or fairly.

Clearly, Texas workforce areas have what one might conclude are vast differences. Geographically, the largest Texas workforce area is 30 times the size of the smallest. The most populated Texas workforce area has 33 times the population of the least populated workforce area. No formula adjustment is capable of fairly or accurately equalizing or mitigating cost-of-living or cost-to-serve differences that may exist. Indeed, a nominal 1/10th of one percent equal base amount formally recognizes the challenges of vastly differing workforce boards in operating an integrated and effective workforce development system, but the rest must be left to local decision-making and control, and the effective partnerships created by the Commission and workforce boards across the state.

A public hearing on these proposed rules was held on June 8, 2004.

During the public comment period, comments were received from the following: the Alamo Workforce Development, Inc.; Lower Rio Grande Valley Workforce Development Board; North Texas Workforce Development Board, Inc.; Permian Basin Workforce Development Board; and the West Central Texas Workforce Development Board.

The majority of the comments supported the changes to the rules, other comments were seeking clarification and guidance regarding the implementation of the rules. The comment summaries are as follows:

Comment: Three commenters supported the rule changes.

The commenters stated that they approved the changes to the rules concerning the distribution of allocations. The commenters expressed appreciation about the Commission's efforts in bringing balance to small workforce boards and recognizing that rural and urban workforce boards alike are contracted to provide the same services.

Response: The Commission appreciates the support of the rules changes and agrees that the changes will bring a balance in funding for all workforce boards.

Comment: Two commenters who supported the rule changes endorsed strongly the concept of a base allocation formula and a 90% hold harmless provision as proposed, concluding that the proposed rules will build consistency to the allocation formulas and ensure greater stability in funding from one contract period to the next.

Response: The Commission appreciates the support of the rules changes and agrees that the changes will assure consistency in allocations and enhance administrative simplification and efficiency between the agency and workforce boards throughout the state.

Sections 800.2 Definitions or 800.51 Scope and Purposes (Subchapter B – Allocations)

Comment: One commenter expressed concern about being contractually obligated to meet a performance measure for September 2005 prior to having the performance measure adopted by the Legislative Budget Board.

Response: The Commission does not agree with the commenter's concern. The Commission receives annual performance targets in the General Appropriations Act, and generally includes corresponding annual performance targets in workforce board contracts, not monthly performance targets. September 2005 will be included in the annual performance target for FY 2005, as program years (for programs excluding Workforce Investment Act formula funds) will be from October 1 through September 30. Agency staff will coordinate with and otherwise assist appropriate workforce board staff to ensure that the transition to an October 1 through September 30 program year is accomplished successfully.

Section 800.52 Definitions

Comment: One commenter expressed concern that TWC had informed her via a conference call that contract would run from October 1st of each year and must be expended by December 1st of the subsequent year, and that this information was not included in the rule changes.

Response: The Commission agrees that no such information was included in the rule changes, but does not agree with the commenter's concern. The length of future contracts has not been specified by the Commission in this rule. The Commission intends to facilitate greater flexibility, efficiency, and effectiveness in workforce board contracting. Section 800.52 of the adopted rule changes the old definition of obligation

and adds the definitions of contract period and contract closeout settlement package. These definitions will facilitate a procedure wherein workforce board contracts may be for a longer period than a program year, unless prohibited by a federal grantor agency. Section 800.72 adds a new provision that requires the workforce board to submit the contract closeout settlement package to the Agency no later than 60 days following the end of the contract period. The particular details of workforce board contracts beyond these provisions are not addressed specifically in the adopted rules.

Comment: One commenter stated that the proposed definition of contract period would eliminate a Board's ability to carry over funding to the next fiscal year.

Response: The Commission disagrees with the commenter. The Commission intends in these adopted rules to facilitate greater flexibility, efficiency, and effectiveness in workforce board contracting. Such flexibility in workforce board contracting may include simplifying and streamlining the ability of a workforce board to carry over funding, if the Commission considers it appropriate, reasonable, and consistent with federal grant requirements and program regulations. Details regarding the contract period and related requirements for program funding will be set forth in the workforce board contract.

Comment: One commenter was concerned about how TWC would extend the current fiscal year 2004 Child Care contracts until September 30th. The commenter asked if the Boards would receive a one-month contract or an extension of its 2004 contract.

Response: The Commission will extend the workforce boards' fiscal year 2004 contracts and provide each Board with an appropriate level of funding to ensure that there are no disruptions in services and that performance levels are maintained.

Section 800.66 Trade Act Services

Comment: One commenter questioned how the Board's administrative cost limit would be applied to the Trade Act Services Allocation since separate grants are awarded to the agency for Trade Act services and administration. The commenter asked for clarification.

Response: The Commission agrees that further clarification is needed, and has added language that sets forth that no more than ten percent of the funds expended for training, services, and other allowable program activities under Trade Act Services may be used for administrative costs.

These amendments are adopted under Texas Labor Code, Title 4, §301.0015 and §302.002(d), which provide the Texas Workforce Commission with the authority to adopt, amend, or repeal such rules as it deems necessary for the effective administration of the Commission.

The rules affect Title 4, Texas Labor Code and Chapters 31, 33, and 44 of the Texas Human Resources Code.

SUBCHAPTER B. ALLOCATIONS

§800.51. SCOPE AND PURPOSE

- (a) The purpose of this rule is to interpret Texas Labor Code, §302.062 , relating to the allocation of available funds for workforce training and services from the Texas Workforce Commission to workforce areas, as well as Texas Labor Code, §301.001 and §302.002, which establish the Texas Workforce Commission to operate an integrated workforce development system in this state, in particular through the consolidation of job training, employment, and employment-related programs, and direct the Executive Director to consolidate the administrative and programmatic functions under the authority of the Commission, to achieve efficient and effective delivery of services. It is the intent of the Commission to allocate funds to workforce areas for the purpose of meeting or exceeding statewide performance measures as set forth in the state General Appropriations Act and consistent with the authority reflected in Texas Labor Code Section 302.004, satisfying federal program requirements, and operating an integrated workforce development system. This subchapter sets forth the funding to be allocated to workforce areas and the methods and procedures to be followed, in order to accomplish the consolidation and integration of workforce development programs. The Commission is committed, whenever possible, to allocating an amount of funds available for workforce training and services greater than the minimum level set by law.

- (b) Funds allocated or reallocated under this subchapter will only be made available under the terms of a properly executed contract between the Commission and a certified workforce board with an approved plan.
- (c) The allocation formulas described in this subchapter will only be applicable for allocations and executed contracts for a complete program year. For contract periods of less than a complete program year, the allocated amounts will be negotiated between the Commission and the Board, based upon the remaining months of the program year.
- (d) Subsections (a)-(c) of this section shall apply to all sections contained in this subchapter unless a section specifically states otherwise.
- (e) Funds available to the Commission that are not otherwise allocated or reallocated under this subchapter, may be used by the Commission for purposes authorized by state and federal laws and regulations.
- (f) Notwithstanding any other provision of the rules contained in this part, the level of funding allocated to a workforce area may be determined, modified or reallocated by the Commission for one or more of the following reasons:
 - (1) to ensure full utilization of the funding;
 - (2) to ensure compliance with State and federal requirements applicable to the State;
 - (3) to meet the State's federal participation rates;
 - (4) to respond to caseload changes; or
 - (5) to respond to unforeseen demographic or economic changes.

- (b) At least 80% of the Choices funds, will be allocated to the workforce areas on the basis of:
- (1) the relative proportion of the total number of all families with Choices work requirements residing within the workforce area during the most recent calendar year to the statewide total number of all families with Choices work requirements;
 - (2) an equal base amount; and
 - (3) the application of a hold harmless/stop gain procedure.

 - (2) an equal base amount; and
 - (3) the application of a hold harmless/stop gain procedure.
- (c) No more than 10% of the funds expended as part of a workforce area's allocation shall be used for administrative costs, as defined by federal regulations and Commission policy.

§800.57. Employment Services
