January 2021 began with mild and dry conditions for through the 18th, with very little rain or snow. Beginning on the 19th, a series of Pacific storms brought moderate to heavy snow and lower elevation rain that continued off and on through the 29th. This was some of the first beneficial precipitation for many areas since March of 2020. The storms also brought significant impacts to much of northern Arizona, causing major road closures that stranded travelers.
