...SIGNIFICANT WEATHER...

Sep. 2nd:

Heavy rain caused forest road 514 to be washed out just west of highway 89 around 15 miles north of Flagstaff.

Sep. 3rd:

Strong thunderstorms affected the Prescott area during the afternoon. Two inches of rain was reported in 30 minutes, resulting in flooding. Cars were washed away on Williamson Valley Road just north of Prescott. Occupants had to be rescued from the cars.

Sep. 7th:

Heavy rains affected the South Rim of the Grand Canyon during the afternoon. The basement of the park headquarters was flooded. Flooding and trail damage was also reported on Garden Creek at Indian Gardens.

Sep . 8th:

Heavy rain caused street flooding in Flagstaff around Noon. Water and mud covered portions of South Milton Road.

Havasu creek at Supai flooded during the late afternoon. Trails were flooded and washed out, one bridge was overtopped and portions of the village were flooded.

Sep. 9th:

Low water crossings were flooded in the Payson area during the mid-afternoon.

Several businesses were flooded in Chinle during the late evening. Flooding was reported at the intersection of US 191 and Hospital Drive.

Sep 10th:

Heavy rainfall affected much of northern Arizona. Flash flooding was reported during the morning in the town of Yarnell. Water was running over the road near the junction of Willow and Stahl.

An earthen dam broke around Noon, flooding residences and mobile homes by 2 PM near the US 191 at milepost 467 around 5 miles north of Many Farms

Flooding of several residences was also reported 2 miles northeast of Dennehotso. Water covered the road on US 160 at milepost 408, and US 163 at milepost 400.

Sep 13th: Heavy rain flooded several area roadways and a few residences in East Fork. Another residence flooded in Sevenmile.

Sep 14th: Two photos of a funnel cloud were received. The funnel was associated with a thunderstorm about 6 miles east of Mormon Lake around noon MST.

One inch hail was reported 3 miles east of Whiteriver around 7:45 PM MST.

Sep 25th - 26th Strong Winds:

A deep low pressure system and associated cold front brought two days of strong winds to northern Arizona. Here are the peak wind gusts reported on Sep. 25th & 26th.
