Countywide	02	1800EST 1815EST			0	0	2K		Thunderstorm Wind
------------	----	--------------------	--	--	---	---	----	--	-------------------

Trees were downed.

During a hot and humid afternoon, a cold front crossed the region. This front triggered thunderstorms which contained winds in excess of 55 MPH and hail. Trees were downed across the District, including those which fell across P Street NW and J Street NE. Pea sized hail was also reported.

#### DCZ001

#### District Of Columbia

10	0800EST				0	0			Unseasonably Warm
11	1800EST								

High pressure in combination with sunny skies caused afternoon temperatures to reach into the upper 80s to middle 90s on the 10th and 11th. Dew points reached into the lower 70s creating heat indices in the middle 90s to lower 100s. The air quality index across the Washington D.C. metropolitan area dropped into the Code Red category during the period. The normal high temperature for June 10th and 11th is 84 degrees. A cold front moved through the region on the 12th, bringing an end to the hot weather.

#### District Of Columbia

Northwest Portion	15	1840EST 1845EST			0	0	20K		Thunderstorm Wind
-------------------	----	--------------------	--	--	---	---	-----	--	-------------------

Trees and power lines were downed.

A line of thunderstorms which contained winds in excess of 55 MPH, hail, heavy rain, and frequent lightning moved across the District during the evening of the 15th. Trees were downed across the northwest portion of the city. One tree was felled onto a police cruiser on Columbia Road. Trees were also downed onto Massachusetts Avenue, Ontario Road, and Kalorama Street.

<b>Calvert County</b> Prince Frederick	02	2000EST			0	0	2K		Thunderstorm Wind
Trees were downed.									

During a hot and humid afternoon, a cold front crossed the region. This front triggered thunderstorms, some of which produced damaging winds, hail, and frequent lightning across central Maryland. In Carroll County, a wind gust of 45 MPH was recorded at Millers. In Montgomery County, pea sized hail fell in Potomac. Because of the heat of the day, two spectators attending the Kemper Open near Potomac had to be hospitalized for dehydration and heat exhaustion. Another 150 people in attendance were treated at the scene for dehydration. In Prince George's County, numerous trees were downed in Upper Marlboro where 1.37 inches of rain fell. Route 301 just north of Upper Marlboro was blocked by several fallen trees. Cars traveling along the road during the storm were pushed into the median by the same winds that downed the trees. In Anne Arundel County, trees were downed onto power lines and roads from Lothian to Harwood. Nearly 8400 customers lost power across the county. In Calvert County, trees and power lines were downed in Dunkirk and Prince Frederick. A woman who was standing near the front door of her Dunkirk home was struck by lightning. The bolt knocked her to the ground and she was treated for minor injuries. A townhouse under construction in Prince Frederick was damaged by a fire which resulted from a lightning strike. In Charles County, trees were downed in La Plata where pea sized hail fell. Trees were also downed elsewhere in the county.

downed several trees and power lines and destroyed several structures. A wind gust of 60 MPH destroyed a barn near Brunswick and a wind gust of 81 MPH was recorded south of Frederick which blew out windows on a home. Trees and power lines were downed in Ijamsville, Buckeystown, Lime Kiln, Burkittsville, Mt. Airy, Adamstown, Point of Rocks, Green Valley, Monrovia, Carroll Manor, and south Frederick. Trees blocked Routes 15, 464, 340, 180, and 85. An 85 square foot bank barn and a 125 year old summer kitchen were flattened near Jefferson. A trailer was overturned near Urbana Park. A home was damaged by a felled tree near New Market and a barn roof was removed near Monrovia. Two homes were damaged by lightning strikes in Thurmont. Rainfall amounts included 2.25 inches in Frederick and 1.81 inches in Brunswick. In Montgomery County, quarter sized hail fell in Germantown and dime sized hail fell in Silver Spring. In Prince George's County, rainfall totals included 1.93 inches in Landover, 1.90 inches on Lottsford Road, and 1.59 inches on Harry Truman Drive. South of Charles County on the Potomac River, high winds and waves capsized a pleasure boat with 5 people aboard. Four people were rescued by other boaters after swimming to shore. The 5th boater, a 28 year old man, was never found and presumed dead. In Anne Arundel County, a wind gust of 59 MPH downed power lines in Glen Burnie. Nearly 15,000 customers across the county lost power. In St. Mary's County, 1.74 inches of rain fell in Tall Timbers.

Slow moving thunderstorms dropped very heavy rain across Maryland during the afternoon and evening of the 17th. In Washington County, some streams rose above bankful and roads were temporarily covered by water after a deluge of rain. Over 1.25 inches of rain fell in 90 minutes. In Montgomery County, 2.04 inches fell in Deerwood. In Prince George's County, 2.72 inches fell in Ft. Washington, 2.26 inches fell on Harry Truman Drive, 1.86 inches fell on Lottsford Rd., 1.83 inches fell at Andrews AFB, 1.75 inches fell near Oxon Hill, 1.47 inches fell at Depot Pond, 1.46 inches fell at the County Justice Center, 1.36 inches fell in Landover, and 1.27 inches fell in Marlboro. In Anne Arundel County, minor flooding occurred near City Dock and West Street in Annapolis. Nickel sized hail was also reported. Winds in excess of 55 MPH downed trees and power lines onto roads across the county and capsized a kayak near Green bury Point. A lightning bolt hit a tree next to an athletic field at Annapolis Middle School where 9 people involved with a rugby game were taking shelter from the storm. A 58 year old man standing under the tree went into cardiac arrest after the bolt struck and died in route to the hospital. Two people under the tree were taken to the hospital in critical condition with severe burns on their feet. One of these victims was holding a metal umbrella. The 6 remaining victims were treated for minor electric shock wounds.

### MARYLAND, Central

Greens Golf Course and damaged the clubhouse and maintenance buildings. About 80 large trees were lost on the property. Thunderstorms which contained winds in excess of 55 MPH, heavy rainfall, and large hail developed ahead of a cold front during the evening of the 21st. The line of storms that moved across Montgomery and Prince George's Counties produced two tornadoes. The first tornado touched down in the Aspen Hill area of Montgomery County along Colesville Manor Drive. It move east across Northwest Branch Park and onto Scott Drive, Mills Avenue, Notley Street, and Paula Lynn Drive, then dissipated 1 mile north of Colesville. The F1 tornado was on the ground for 5 miles and was 100 yards wide. It downed numerous trees, including one which fell onto a house and another onto a shed. The second tornado, nearly 200 yards wide, touched down just east of Laurel near Route 197 and the Patuxent Greens Country Club. It damaged a garage door, tore an awning, and lifted shingles on golf course property, in addition to knocking down over 80 large trees. The F1 tornado continued east for one mile downing several other trees before dissipating near the Patuxent River. In addition to the tornado damage, straight line winds in excess of 55 MPH also damaged trees, power lines, and structures in Montgomery and Prince George's Counties. An apartment complex in Silver Spring suffered roof damage, shattered windows, ripped gutters, and damaged cinder block walls. Downed fences and several cars damaged by fallen trees were found nearby. Tree damage was also reported in Gaithersburg, the Rock Creek Valley neighborhood, Wheaton, and Laurel. In Howard County, high winds blew in a window and snapped trees south of Columbia. Winds estimated between 60 and 75 MPH downed numerous trees and power lines across northern Anne Arundel County, including the communities of Odenton, Glen Burnie, Crownsville, and Pasadena. In Frederick County, 1.75 inches of rain fell in Wolfsville and 1.57 inches was recorded in Frederick.

High pressure in combination with sunny skies caused afternoon temperatures to reach into the upper 80s to middle 90s on the 25th. Dew points reached into the lower 70s creating heat indices in the middle 90s to lower 100s. Normal high temperatures across the area for the last week of June are in the middle to upper 80s. The combination of heat and humidity also led to the development of several thunderstorms, some of which produced damaging wind, very heavy rainfall, frequent lightning, and large hail. In Allegany County, a 45 year old man was struck by lightning while standing under a camper awning near Little Orleans. The victim was thrown against the camper by the strike and received a black burn mark on his right hand. Trees were downed and hail also fell at the campsite. In Frederick County, a lightning strike started a fire in the attic of a hotel in Frederick. A lightning strike also started a garage fire in Woodsboro. In Montgomery County, 2.25 inches of rain fell near Poolesville, 2.06 inches fell near Bethesda, 1.80

High pressure in combination with sunny skies caused afternoon temperatures to reach into the upper 80s to mid 90s on the 10th and 11th. Dew points reached into the lower 70s, creating heat indices in the middle 90s to lower 100s. Twenty five people were treated in Loudoun County for heat related illnesses. The air quality over the Washington D.C. metropolitan area dropped into the Code Red category during the period. Normal high temperatures across the area for the 2nd week of June are in the middle 80s. A cold front moved through the region on the 12th, bringing an end to the hot weather.

Several trees were downed.									

A line of thunderstorms that contained winds in excess of 55 MPH, large hail, heavy rain, and frequent lightning moved across the area during the afternoon and evening of the 15th. In Shenandoah County, trees were downed in New Market and Tom's Brook. The roof of a barn was also peeled back. Rainfall totals included 1.46 inches in Fetzer Gap and 1.34 inches at the Strasburg Reservoir. In Page County, a wind gust of 42 MPH was recorded in Luray. In Frederick County, dime sized hail fell on Route 522 north of Winchester. A tree was downed onto a power line in Winchester. Several structures across the county were hit by lightning. Heavy rain washed out Back Creek Road in the western portion of the county and flooded several streets in Winchester. A total of 2.11 inches fell in Winchester and 1.81 inches fell in Gore. In Warren County, several trees were downed onto roads, power lines, and structures across the county. Communities hardest hit included Shenandoah Farms, Front Royal, and Linden. A house was damaged by a downed tree in Rockland. A camper on Blue Mountain just outside of Front Royal was injured when a tree fell onto his tent. A 160-year-old house, a car, a fence, and a barn were damaged by several felled trees near Cedarville. Power lines were downed on Apple Mountain. Heavy rain flooded streets in Front Royal. Rainfall totals included 1.61 inches in Nineveh, 1.51 inches near Strasburg, and 1.31 inches on Hogback Mountain. In Clarke County, trees were downed and pea sized hail fell in Berryville. Power lines were downed across the county. Route 340 north of Berryville was blocked by downed trees. In Loudoun County, trees were downed in Woodtrail, Lovettsville, Leesburg, Airmont, Middleburg, and along Route 50 west of Aldie. A funnel cloud was spotted near Upperville on the Loudoun/Fauquier County border. Another funnel cloud was spotted about 2 miles north of Aldie a few minutes later. Dime sized hail fell in Ashburn, marble sized hail fell in Bluemont and pea sized hail fell northwest of Dulles Airport where a wind gust of 47 MPH was recorded. In Fauquier County, trees were downed in Delaplane. In Fairfax County, trees were downed in Centreville, Springfield, Herndon, and Reston. In Fredericksburg, a total of 1.68 inches of rain fell

3 E Aldie	25	2130EST			0	0	1K		Thunderstorm Wind
-----------	----	---------	--	--	---	---	----	--	-------------------

Two trees were downed onto Route 50 just east of Gilbert's Corner.

High pressure in combination with sunny skies caused afternoon temperatures to reach into the upper 80s to mid 90s on the 25th. Dew points reached into the lower 70s, creating heat indices in the middle 90s to lower 100s. Normal high temperatures across the area for the last week of June are in the middle to upper 80s. The combination of heat and humidity also led to the development of thunderstorms, some of which produced damaging wind, very heavy rainfall, frequent lightning, and large hail. In Page County, a lightning strike blew cinder blocks off a church steeple in Shenandoah. In Rockingham County, a lightning strike damaged a school bell tower in Dayton and a baseball field scoreboard in Elkton. High winds also downed trees in Elkton. In Orange County, dime sized hail fell on Harwick Mountain. Over two inches of rain fell in portions of Loudoun and Fauquier Counties. Rainfall totals included 2.52 inches in Ashburn and 2.12 inches at The Plains. Route 50 was closed by high water between Gilbert's Corner and the start of the 4 lane highway. In addition, high winds downed two trees onto Route 50 just east of Gilbert's Corner.

Several trees were downed onto power lines, cars, and roads in Boyce and Millwood.

Thunderstorms developed across the area on the afternoon of the 26th. The strongest storms produced winds in excess of 55 MPH, frequent lightning, and heavy rainfall. In Albemarle County, trees were downed at the Charlottesville Airport and across the northern part of the county. In Orange County, a tree was downed on to Constitution Highway in Montpelier. In Nelson County, a trailer was destroyed by fire after being hit by lightning. In Spotsylvania County, trees were downed at the intersection of Routes 640 and 3 east of Wilderness Corner. Several small fires around the county were blamed on lightning. Three trees and a power line were downed in Fredericksburg and three homes were damaged by lightning strikes. Nearly 7000 city customers lost power as a direct result of the storm. In Stafford County, a tree was downed just east of the Fredericksburg city limits on River Road and Kings Highway. In Frederick County, a chimney was blown over and tree limbs were downed east of Winchester. Lightning also downed a tree onto a storage building in Winchester where an inch of rain fell in 15 minutes. In Clarke County, several trees were downed onto power lines, cars, and roads from Boyce south and east to the county line. Hardest hit areas included Boyce, Calmes Neck, Millwood, and Waterloo.

	11	1800EST							

High pressure in combination with sunny skies caused afternoon temperatures to reach into the upper 80s to mid 90s on the 10th and 11th. Dew points reached into the lower 70s creating heat indices in the middle 90s to lower 100s. Normal high temperatures across the area for the 2nd week of June are in the middle 80s. A cold front moved through the region on the 12th, bringing an end to the hot weather.

### WEST VIRGINIA, East

#### Hardy County

<b>4 W Lost River to 4 E Lost River</b>	<b>15</b>	<b>1640EST</b>			<b>0</b>	<b>0</b>	<b>10K</b>		<b>Thunderstorm Wind</b>
---	-----------	----------------	--	--	----------	----------	------------	--	--------------------------

Several trees were downed.

A line of thunderstorms which contained winds in excess of 55 MPH, large hail, heavy rain, and frequent lightning moved across the area during the afternoon and evening of the 15th. In Hardy County, a tree was downed onto a road in Old Fields and several trees were downed in a west to east path just north of Lost River near Route 259 and Mill Gap Road. A total of 2.50 inches of rain fell in Highview. In Hampshire County, 1.31 inches fell on Little Cacapon Mountain. In Morgan County, 2.13 inches of rain fell in Berkeley Springs. In Jefferson County, two trees were downed north of Charles Town where 2.85 inches of rain was recorded. Up to 4 feet of water covered roads in Ranson and several county roads were also flooded

#### Morgan County

<b>Countywide</b>	<b>16</b>	<b>1630EST 1830EST</b>			<b>0</b>	<b>0</b>	<b>6K</b>		<b>Flash Flood</b>
-------------------	-----------	----------------------------	--	--	----------	----------	-----------	--	--------------------

Several roads were damaged by flooding, mudslides were reported, and many creeks overflowed their banks.

#### Morgan County

<b>Great Cacapon</b>	<b>16</b>	<b>1746EST</b>			<b>0</b>	<b>0</b>	<b>75K</b>		<b>Lightning</b>
----------------------	-----------	----------------	--	--	----------	----------	------------	--	------------------

A home was destroyed by a fire sparked by a lightning strike.

A thunderstorm which produced very heavy rain and frequent lightning moved slowly across Morgan County on the evening of the 16th. More than 3 inches of rain fell across the county, resulting in widespread flash flooding. Sections of Route 9 near Yellow Springs Run and Route 522 in Berkeley Springs were underwater. After the water receded, large boulders were left behind in the roadway. High water threatened homes along Warm Springs Run and flooded several parked cars. Other flooded roads included South Washington St., Fairfax St., Radio Station Rd., Greenway Dr., Johnson's Mill Rd., Independence St., and Mercer St. The swimming pool at Berkeley Springs State Park was surrounded by flood waters after debris piled up along a foot bridge and created a dam. Along Route 522, an embankment gave way creating a small landslide which blocked a portion of the highway near Widmyer School. In Great Cacapon, a lightning strike started a fire which destroyed a home.
