PROTECTIVE ORDER

Maryland VINE Protective Order (VPO) Service

Access to Information & Notification
for Protective Order Status

*Will you know when
your protective order
was served?*

1-877-846-3420

www.registervpo.com

Do not rely solely on VPO
for your safety. If you feel
you are in danger, call 911.

R 03/17

A service provided by
The Department of Public Safety & Correctional Services

INFORMATION

Before you call, have your protective order case number and the respondent's name as it appears on your order. You can find this information on your petition or protective order. To access protective order information:

- Call **1-877-846-3420**
- Visit **www.registervpo.com**

REGISTRATION

If the protective order has been issued, you can register to receive notifications via phone or email.

If you register a phone number, you must create a four-digit personal identification number (PIN) that you will need when you receive notifications. Make sure your PIN is easy to remember. Write it down and keep it in a safe place.

Email registrations do not require a PIN.

NOTIFICATION

Once registered, you will receive notification when:

- The order has been served on the respondent.
- The order expires or is dismissed.

When VPO calls, you will be asked to enter your PIN followed by the # key. Entering your PIN lets VPO know that you received the call and will stop the service from calling you again.

If there is no answer or if the call goes to an answering machine, VPO will continue to call for up to 24 hours or until a correct PIN is entered. A short message will be left on your answering machine; however, the message will neither state who is calling nor information about your case.

If you forget your PIN, call the toll-free number and press zero (0) and you will be transferred to a VINE Service Representative who will help you reset your PIN.

VINE Protective Order (VPO) is an automated service that lets you track the status of a protective order. You can also register to be notified by phone and/or email about changes in the status of a protective order.

Write down the following information, remove this panel, and keep it in a safe place:

Respondent's name

Protective order / case number

Your four-digit PIN

- If you are in danger, call 911 immediately.
- Do not rely solely on VPO for your safety. Make VPO a part of your overall safety plan.
- VINE Service Representatives are available 24 hours a day, seven days a week to assist you.
- VPO is a confidential service. The respondent will not know you are registered with VPO.
- You can register multiple phone numbers and email addresses for notifications.
- Do not register a phone number that rings to a switchboard.
- Notifications are automated 24 hours a day. Maryland law requires law enforcement to record notice of service within two hours of serving the respondent. Notification will begin immediately once service has been recorded.
- If you have filed a Request for Waiver with the court, you are required to register with VPO. Registration with VPO will also give you notification of service on the respondent.
- If you have registered but have not been notified the order has been served after three to four days, contact your victim advocate.
- If you have registered but have not been notified the order has been served, you still must appear at your scheduled court hearing unless you have a waiver of appearance.
- VPO does not provide services related to peace orders. VPO tracks the status of protective orders only.
