

# STINK & STUNK'S BASEBALL BIRD FEEDER

Presented by 

## MATERIALS & SUPPLIES

- 1 cup birdseed mix
- 1 small packet of gelatin
- 1/4 cup water
- Cupcake or muffin tin
- String, twine, ribbon, or wire

## INSTRUCTIONS

1. Mix the packet of gelatin in hot water until completely dissolved.
2. Add birdseed mix gradually into the gelatin mixture until completely coated. Note: add more seed mix if there is excess liquid.
3. Spoon the seeds into your tinfoil mold, filling it halfway and pressing down to make sure it is well packed. Add your string on top to create something for the feeder to hang from (*Figure 1*). Add more seed mixture on top of the string. (*Figure 2*)
4. Place in fridge or freezer until gelatin has set (approx. 2 hours)
5. Go outside and find the perfect spot to hang your feeder from!
