Senate File No. 297. "An act to appropriate money for Hospitals for Insane account and for purposes therein named". Item sixth (6th) of this act making an appropriation "for reconstructing center buildings, seventy-two thousand dollars (\$72,000)", Rochester Hospital, Disapproved.

The estimated revenues of the state for the period covered by the appropriations of this legislature, are about \$174,000 less than the aggregate of such appropriations. Some of them must fail. The increased capacity of the Insane hospitals required to accommodate the probable growth of population of this class for the next three years, is provided for by other items of this bill. The reconstruction of that part of the hospital for which this appropriation is made, though very desirable is not an imperative necessity, and therefore can be deferred.

The other items of appropriation in this act are approved,
