

## **Let America Be Fair**

By Damien Spears

Let America be fair again  
Let it be the land where we are free like the eagle

Let it be the country where all prosper  
Where no homeless people, no druggies, no alcoholics line the streets

Seeking a better level of fairness  
(America was never the land of the free)

Let America be the dream the dreamers dreamed  
Let it be that striped banner flying for truth  
Where the sound of equality raves through the air  
(It never was an equal fight)

O, let my land be where no one is pulled down like an anchor  
Is crowned the champion of humanity  
(There have never been fair referees)

I am the black man enslaved  
I am the Native forced from my land  
I am the white man beaten for being poor  
I am the immigrant discarded by a broken promise of freedom  
Finding nothing but reinforced walls and locked doors

Yet, I'm the one who dares defy the barbed whip of liberty  
I stand against the so-called dream of America  
To make America dance to the real set of music again
