

Let America Be One

by Mason Lappin

Let America be a place where people can be together like bees in a hive

Let it be the place where people don't hide behind a mask

Let it be the judge-free zone

Seeking a sense of enlightenment

(America, let it be one)

Let America be the dream the dreamers dreamed

Let it be that light at the end of the tunnel

Where everyone treats each other with respect and kindness

(It never was the same as it used to be)

O, let my land be land where people don't care what you think

Is crowned as not being a bad person

I am the change like trees in autumn

I am the freedom like a soaring bird

I am the respect of please and thank you

I am the light in a cave

And finding all of this will instantly make America a better place
