

# Let America Be Together

By Arlen Crum

Let America be united again  
Let it be the country where gender doesn't affect your wage  
And immigrants aren't locked in a cage

Let it be the open pass from player to player  
Giving up the ball to someone who needs it more  
Working towards cooperation not just the numbers of a score

Let it be the handshake with the other team after a rough game  
Letting go of anger to realize  
No one is to blame

America was founded on hope  
Not hate

Let my land be where struggling students don't have to choose between rent and tuition  
Where healthcare isn't a luxury but a normality  
Let's not allow this to become a reality

I am the land of free  
And the home of the brave  
I am America
