

Let America Be

By Tim Suter

Let America be truly free
Where kids don't act like someone they're not
Where humans don't have to live on the street
Let America be truly free

Where wealth is not a nuclear bomb
Where corpses aren't created for being them
Let America be truly free

Let America be home
To the people from other countries
To the people who aren't themselves
Let America be home

To the people forced here for any reason
To the people aplenty who are suppressed
Let America be home

Let America be
Be for the people who ask "who am I"
Be for the people in the wrong self
Let America be

Be for the people of many different beliefs
Be for anyone from any walk of life
Let America be
