HITRUST Academy® offers courses for everyone, no matter where you are in your HITRUST Journey. How do you know which course is right for you? Here's a quick overview of what each course offers, who should take it, and what credential you can earn:

1

HITRUST Adoption

HITRUST Adoption NEW!

Provides an informative overview for evaluating and using the HITRUST approach to streamline your information risk management programs.

Not sure where to start? This course is for you. Designed as an introductory overview, the HITRUST Adoption course will instruct attendees how to get started on their HITRUST journey by properly adopting the framework and integrating the HITRUST approach within an organization's compliance function.

This course will teach you how to leverage the HITRUST Approach to evaluate, manage, and optimize your information protection, compliance, and risk management programs. In addition, you will learn how to define and manage assessments, establish priorities, and set strategies within the organization for security and compliance.

2

Certified CSF Practitioner ◈ CCSFP ◈

Certified CSF Practitioner (CCSFP)

Sharpens your understanding of the HITRUST CSF framework, MyCSF tool, and end-to-end assessment approach.

The HITRUST Certified CSF Practitioner (CCSFP) course presents in-depth risk management practices, such as implementing the HITRUST CSF framework, and applying our methodology to perform assessments and validate compliance.

Understand the HITRUST Assessment process — including scoping, scoring, methodologies, requirements for certification, assessment types, and more. Learn from case studies, hands-on learning in the assessment tool, and our experts. Upon completion, and passing the exam, you'll receive the CCSFP credential.

3

Certified CSF Practitioner ◈ CCSFP ◈ Refresher

Certified CSF Practitioner (CCSFP) Refresher

Reviews the latest best practices in information security, and is required to keep your personal HITRUST Certification up-to-date.

After you've earned your CCSFP, HITRUST offers online, self-paced refresher courses for students who wish to maintain their certification.*

The CCSFP Refresher course provides updates on the latest developments in the information protection space, including changes to the HITRUST CSF and HITRUST Assurance Program. Upon successful completion, you'll maintain your CCSFP credential for another year. Students are eligible for two years of refresher courses to maintain their CCSFP status before they are required to complete another full CCSFP course.

4

Certified HITRUST Quality Professional ◈ CHQP ◈

Certified HITRUST Quality Professional (CHQP)

Offers insights, proven methodologies, and tips for success to improve the quality of your assessment submissions to HITRUST.

CCSFPs have the option to take their expertise to the next level with the Certified HITRUST Quality Professional (CHQP) course.*

This self-paced, online course is a follow-up to the CCSFP class designed for anyone who manages HITRUST Assessment projects. Learn how to enhance the quality of validated assessments and ensure proper testing and documentation of requirements. Upon course completion, and passing the exam, you'll receive the CHQP credential.

*CCSPF certification required as a prerequisite to enroll in CCSFP Refresher and CHQP courses
