Important Disclosures & Definitions

An investor should consider the investment objectives, risks, charges and expenses carefully before investing. This material must be preceded or accompanied by the prospectus. Read the prospectus carefully before investing.

Shares of ETFs are bought and sold at market price (not NAV) and are not individually redeemable.

Performance data quoted represents past performance. Past performance is no guarantee of future results; current performance may be higher or lower than performance quoted.

All investments are subject to risks, including the loss of money and the possible loss of the entire principal amount invested. Additional information regarding the risks of this investment is available in the prospectus.

Effective 8/22/2023, the Fund will no longer operate as a semi-transparent actively-managed ETF and will instead operate as a traditional, fully transparent actively-managed ETF in reliance on Rule 6c-11 under the Investment Company Act of 1940.

Diversification does not eliminate the risk of experiencing investment losses.

Ownership of real estate is subject to fluctuations in the value of underlying properties, the impact of economic conditions on real estate values, the strength of specific industries renting properties and defaults by borrowers or tenants. Real estate is a cyclical business, highly sensitive to general and local economic conditions and developments, and characterized by intense competition and periodic overbuilding. Credit and interest rate risk may affect real estate companies' ability to borrow or lend money.

The Fund will primarily invest in publicly traded common equity securities of US REITs. The Fund may also invest a portion of its assets in publicly traded common equity of US real estate operating companies (not structured as REITs), publicly traded preferred equity of US REITs and real estate operating companies, and cash and cash equivalents.

Real Estate Investment Trust (REIT): companies that own or finance income-producing real estate across a range of property sectors. Listed REITs have characteristics of both the income potential of bonds and growth potential of stocks.
