ALPS REIT Dividend Dogs ETF

Fact Sheet | June 30, 2024

VALUE, INCOME, DIVERSIFICATION

There is a new REIT Dog in Town

The ALPS REIT Dividend Dogs ETF (RDOG) is an Exchange-Traded Fund that applies the 'Dogs of the Dow Theory' to each REIT (Real Estate Investment Trust) segment by using the S-Network US Composite REIT Index as its starting universe of eligible securities.

RDOG intends to provide investors with equal exposure to the five highest yielding US REITs ('Dividend Dogs') within nine equally-weighted REIT segments. This strategy provides the following benefits:

High Yield Potential

- Constituent REITs must have Trailing Twelve Month (TTM) Funds from Operations (FFO) per share greater than TTM Dividend Payouts per Share (DPS) for yield preservation.

Low Cost

- 35 basis point (bps) expense ratio is below the US REIT ETF average.

Balanced Risk Exposure

- Equal-weighting of the REITs and segments provides diversification, minimizes biases and helps to smooth volatility.
- Addition of a "Technology REITs" segment to help capture the strong growth in wireless towers and data centers, which can also act as a defensive attribute to the Fund.
- Exclusion of the "Mortgage REITs" segment to avoid REITs most sensitive to interest rates and credit spreads.

REIT Dividend Dogs Equally Weighted Segments

Important Disclosures & Definitions

An investor should consider the investment objectives, risks, charges and expenses carefully before investing. This material must be preceded or accompanied by the prospectus. Read the prospectus carefully before investing.

Shares of ETFs are bought and sold at market price (not NAV) and are not individually redeemable.

Performance data quoted represents past performance. Past performance is no guarantee of future results; current performance may be higher or lower than performance quoted.

All investments are subject to risks, including the loss of money and the possible loss of the entire principal amount invested. Additional information regarding the risks of this investment is available in the prospectus.

The Fund is subject to the additional risks associated with concentrating its investments in companies in the market sector.

Diversification does not eliminate the risk of experiencing investment losses.

Ownership of real estate is subject to fluctuations in the value of underlying properties, the impact of economic conditions on real estate values, the strength of specific industries renting properties and defaults by borrowers or tenants.

Real estate is a cyclical business, highly sensitive to general and local economic conditions and developments, and characterized by intense competition

and periodic overbuilding. Credit and interest rate risk may affect real estate companies' ability to borrow or lend money.

The Fund employs a "passive management" - or indexing - investment approach and seeks investment results that correspond (before fees and expenses) generally to the performance of its underlying index. Unlike many investment companies, the Fund is not "actively" managed. Therefore, it would not necessarily sell or buy a security unless that security is removed from or added to the underlying index, respectively.

Basis Point (bps): a unit that is equal to 1/100th of 1% and is used to denote the change in a financial instrument.

Dogs of the Dow Theory: an investment strategy which proposes that an investor annually select for investment the ten Dow Jones Industrial Average stocks whose dividend is the highest fraction of their price.

Real Estate Investment Trust (REIT): companies that own or finance income-producing real estate across a range of property sectors. Listed REITs have characteristics of both the income potential of bonds and growth potential of stocks. ALPS Advisors, Inc., registered investment advisor with the SEC, is the investment advisor to the Fund. ALPS Advisors, Inc. is affiliated with ALPS Portfolio Solutions Distributor, Inc.

ALPS Portfolio Solutions Distributor, Inc. is the distributor for the Fund.
