LETTER FROM THE CHAIRMAN

The American Conservative Union Foundation's Center for Legislative Accountability is proud to present our *Ratings of Minnesota* for 2021. Like our *Ratings of Congress*, ACU Foundation's *Ratings of the States* are meant to reflect how elected officials view the role of government in an individual's life. We begin with our philosophy (conservatism is the political philosophy that sovereignty resides in the person) and then apply the proper role of government (its essential role is to defend Life, Liberty and Property).

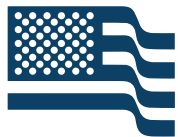

The Left has stormed our nation's corridors of power to take control over the lives of every American. Now, they have set their sights on the states, freedom's last line of defense.

President Lincoln once said, "America will never be destroyed from the outside. If we falter and lose our freedoms, it will be because we destroyed ourselves." The Left's agenda dismantles the vision of our founders when they pledged their lives, their fortunes, and their sacred honor.

We hope these Ratings will empower each and every American to hold their officials accountable and to rally behind the conservative champions who defend our freedoms in statehouses around the country.

Matt Schlapp
 Chairman
 American Conservative Union Foundation

ABOUT THE CENTER FOR LEGISLATIVE ACCOUNTABILITY

The Center for Legislative Accountability (CLA), an initiative of the American Conservative Union Foundation (ACUF), is the premier organization for holding lawmakers accountable. The CLA produces the longest-running conservative congressional scorecard and our state program is the only one in the nation that scores all 8,000 lawmakers in the 50 states across every policy area. In addition to ACUF's Conservative Political Action Conference (CPAC), the largest gathering of conservatives in the world, the CLA develops conservative policy solutions and educates everyday citizens and activists on the proper role of government. In 1971, ACUF launched its *Ratings of Congress* to provide a comprehensive evaluation of the voting records of every Member of Congress.

The Ratings quickly became considered the “gold standard” and over the following decades have been utilized by activists, voters, academics and elected officials to determine which lawmakers best adhere to conservative principles. In 2011, these Ratings were expanded into state legislatures as part of a five-state pilot program. By 2015, *Ratings of the States* grew to include all 50 states and all 99 legislative chambers.

Today, the CLA annually analyzes over 105,000 pieces of legislation to issue scores for all of America's federal and state lawmakers and presents awards to lawmakers who score 80% or better in recognition of their conservative voting records.

METHODOLOGY

The CLA's Ratings of Congress and the States illustrate how elected officials view the role of government in an individual's life. When determining a position on a particular issue, the CLA begins by defining conservatism: the political philosophy that sovereignty resides in the person. Then, we apply the founders' belief that the proper role of government is to protect Life, Liberty and Property.

In order to depict how closely a lawmaker adheres to conservative principles, the CLA selects from the full spectrum of issues relating to the economy, culture, national security and government integrity. Some key areas include taxation, spending, education, labor, licensure, regulation, environment, life, free speech, Second Amendment rights, foreign aid, defense priorities and global organizations, including the United Nations. All congressional and state analyses are conducted after the adjournment of a legislative session to ensure that no issue is neglected.

Each lawmaker is evaluated on a zero to 100 scale, with a score of 100 representing a voting record that is perfectly aligned with conservative principles. Officials who earn a score of 90% or higher are presented with the CLA's highest honor, the Award for Conservative Excellence, while those who earn a score of 80% or higher, but less than 90%, are presented with the Award for Conservative Achievement. Additionally, any lawmaker who earns a score of 10% or lower qualifies for the ACUF's Coalition of the Radical Left.

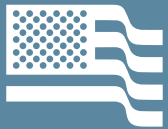

ANNUAL METRICS

ANALYZE
105,000
BILLS

SELECT
2,000
BILLS

RATE
8,000
ELECTED
OFFICIALS

To determine legislative rankings, the CLA annually evaluates over 105,000 bills that were introduced in Congress and every convening state legislature running from January 1 to December 31. Of those bills, the CLA ultimately selects roughly 2,000 pieces of legislation that best illustrate how elected officials view the role of government in an individual's life. The CLA calculates individual scores for a total of nearly 8,000 federal and state lawmakers based on over 157,000 votes cast on the 2,000 bills selected. The CLA provides a score for each legislative chamber, which is based upon the average scores of all members within that respective chamber. A legislature's overall score is calculated by averaging each state's two legislative chambers together in order to better reflect the differences in political power between the chambers. (The exception being Nebraska, the nation's only unicameral legislature comprising a single legislative chamber, on which the state's overall score is based.)

MINNESOTA SENATE VOTE DESCRIPTIONS

- SF 1 Placing a Critical Legislative Check on the Governor's Shutdown Power During Public Health Emergencies.** This bill helps protect individual liberties by requiring legislative approval to enact any executive order which closes or limits the ability of a business to operate. The bill also overrides executive order 20-04 and ensures businesses can fully operate with no capacity limitations. ACU recognizes Gov. Walz abused his executive authority throughout the pandemic, placing severe and unnecessary harm on countless businesses and providers of housing. ACU supports protecting constitutional rights, supports the ability of Americans to manage their own risk related to illnesses, believes that many of government's reactions to COVID-19 have done more harm than good and supported this bill. The Senate passed the bill on February 25, 2021 by a vote of 38-29. (The bill failed to advance in the House.)
- SF 1 (McEwen Amd.) Raising Employment Costs by Abusing Worker's Compensation (Motion to Defeat).** The McEwen (ACUF Lifetime 13%) amendment to the COVID-19 business operation bill drives up employment costs by creating a "rebuttable presumption" that an employee who contracted COVID-19 during the course of their employment. The amendment is in regards to workers compensation and applies to businesses that require their employees to return to the workplace and do not allow for the employee to telework. ACU opposes driving up employment costs by holding employers liable for the unintentional COVID-19, especially if the contraction did not occur during work time and opposed this amendment. The Senate defeated the amendment through a procedural motion on February 25, 2021 by a vote of 35-31. (A "yes" vote supported the ACU position.)
- SF 1 (Champion Amd.) Imposing Re-Hiring Mandates on Businesses Following the COVID-19 Pandemic.** The Champion (ACUF Lifetime 7%) amendment serves as yet another attack on businesses attempting to weather the fallout from the COVID-19 pandemic. Specifically, the amendment requires businesses to offer any available positions to former employees who were laid off due to the pandemic, and directs the offers to be made based on each employees' length of service prior to the pandemic. The amendment also subjects businesses to lawsuit abuse by making violations enforceable through civil action. ACU opposes this attack on private businesses attempting to weather the pandemic and opposed this amendment. The Senate defeated the amendment on February 25, 2021 by a vote of 30-36.
- SF 2 Allowing Local School Leaders to Determine Emergency Policies for Schools.** This bill protects students and refers school closure decisions during peacetime emergencies to local leaders by excluding public schools from the governor's emergency powers. The bill stipulates that the governor may not use a declaration of peacetime emergency to close schools, curtail school activities, or alter school schedules. However, the governor is authorized to advise and consult with school leaders regarding any action needed for emergency management purposes. ACU supports public school leaders being able to determine the need for school closures in their community, opposes exiling students to unproductive learning environments that obstruct academic achievement and supported this bill. The Senate passed the bill on February 18, 2021 by a vote of 40-27. (The bill failed to advance in the House.)
- SF 2 SS (Gazelka Amd.) Protecting Individual Liberties by Rolling Back Excessive COVID-19 Penalties and Reinstating Licenses.** The Gazelka (ACUF Lifetime 80%) amendment to the special session state policy omnibus bill helps protects individual liberties by rolling back penalties and reinstating licenses that were revoked for violating Gov. Walz excessive executive orders related to COVID-19. Under the amendment, the maximum penalty for violating a COVID-19 related executive order is a misdemeanor and fine to not exceed \$1,000. The amendment requires any fine collected over the maximum to be refunded. ACU supports protecting constitutional rights, supports the ability of Americans to manage their own risk related to illnesses, believes that many of government's reactions to COVID-19 have done more harm than good and supported this amendment. The Senate passed the first part of the amendment on June 25, 2021 by a vote of 38-29. (The provisions of this amendment did not make the final passage of the underlying bill.)
- SF 4 Providing a Crucial Check on the Governor's Emergency Powers.** This bill would help protect individual liberties by preventing a state of emergency from being extended beyond 30 days unless approved by the legislature. Additionally, the bill stipulates that the governor is prohibited from allowing an emergency declaration to expire and declare a new peacetime emergency for the same reason in an effort to avoid obtaining legislative approval for an extension. ACU supports protecting constitutional rights, supports the ability of Americans to manage their own risk related to illnesses and supported this bill. The Senate passed the bill on March 15, 2021 by a vote of 38-29. (The bill failed to advance in the House.)

7. **HF 4 SS Authorizing \$125 Million in Housing Subsidies and Further Infringing Property Rights.** This omnibus housing bill is touted as an eviction moratorium off-ramp but contains multiple provisions which further infringe property rights and fuel wasteful spending. While the bill does end Gov. Walz eviction moratorium, the bill still largely prohibits evictions for another 4 months, and in some cases through June of 2022. Additionally, the bill further infringes the property rights of landlords by amending law surrounding service animals to now mandate acceptance of “support animals” for an individual alleging any type of disability. In addition to tens of millions of spending on wealth redistribution programs concerning housing, the bill places taxpayers in an additional \$100 million in debt through bond issuance for crony “affordable housing” initiatives. This spending is on top of the hundreds of millions in rental and housing assistance provided through federal programs. ACU opposes this measure which further attacks property rights and unnecessarily places Minnesotans in over \$100 million in new debt and opposed this bill. The Senate passed the bill on June 28, 2021 by a vote of 66-0 and the bill was signed into law.
-
8. **SC 5 Ending Gov. Walz Overreaching COVID-19 Emergency Orders.** This resolution ends the state of emergency Gov. Walz declared under executive order 20-01 relating to the COVID-19 pandemic. ACU recognizes Gov. Walz abused his executive authority throughout the pandemic, placing severe and unnecessary harm on countless businesses and providers of housing. ACU supports protecting constitutional rights, supports the ability of Americans to manage their own risk related to illnesses, believes that many of government’s reactions to COVID-19 have done more harm than good and supported this resolution. The Senate adopted the resolution on March 18, 2021 by a vote of 38-29. (The House defeated the resolution.)
-
9. **HF 8 SS Expanding Cronyism Through \$139 Million in Subsidies to the Agricultural Industry.** This omnibus agricultural appropriations bill contains a litany of special interest programs and initiatives for the agricultural industry while socializing the \$139 million in costs onto taxpayers over the next two years. For example, the bill forces taxpayers to spend \$8 million to promote and market agricultural products, \$50 million on research and technology development for the industry and \$20 million in direct subsidies for things such as counseling for farm families, housing assistance, and \$5,000 to each dairy producer for “business development plans.” ACU opposes this cronyism which provides competitive advantages to a select industry and companies while socializing the benefits onto the backs of taxpayers in other industries and professions not favored by government and opposed this bill. The Senate passed the bill on June 22, 2021 by a vote of 63-3 and the bill was signed into law.
-
10. **HF 9 SS Expanding Cronyism Through Countless Special-Interest Tax Exemptions and Subsidies.** This omnibus tax bill conforms portions of the state tax code with federal. However, it also contains countless new tax exemptions and subsidies which only benefit select individuals, companies and industries. For example, the bill extends tax credits for developers of “affordable” housing, creates a \$5 million film production tax credit, and even gives a select meat processing company a \$6 million handout. The bill also funds numerous wasteful initiatives such as tourism promotion and authorizes a number of localities to hike taxes for non-essential government functions. ACU supports a tax code that is broadly applied with as low of rates as possible for everyone. ACU opposes this cronyism which provides competitive advantages and benefits to select interests while shifting tax burdens to other taxpayers not favored by government and opposed this bill. The Senate passed the bill on June 30, 2021 by a vote of 54-11 and the bill was signed into law.
-
11. **SF 9 SS (Bigham Amd.) Holding Oil Refineries Further Hostage to Greedy Union Bosses.** The Bigham (ACUF Lifetime 8%) amendment to the special session economic omnibus bill attempts to hold petroleum refineries further hostage to the demands of union bosses by inserting the language of the so called “Safe and Skilled Workforce Act” into the bill. Under the amendment, oil companies would only be able to utilize contractors at their refineries whose employees have received certification from union apprentice programs. The amendment requires that by October of 2022 at least 65% of the contractor’s workforce be union trained, and by October 2024, at least 85% union trained. ACU recognizes this measure simply serves as a scheme to enrich labor unions and protect their workers from lower-cost competition. ACU supports the “right to work,” opposes unnecessarily driving up costs and holding private companies hostage to greedy union bosses and opposed this amendment. The Senate passed the amendment on June 18, 2021 by a vote of 50-17.
-

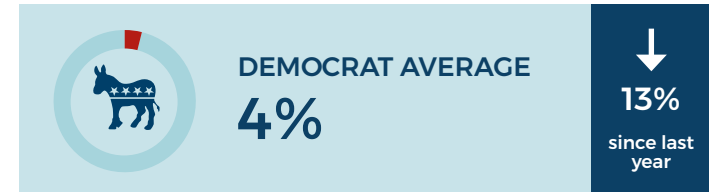

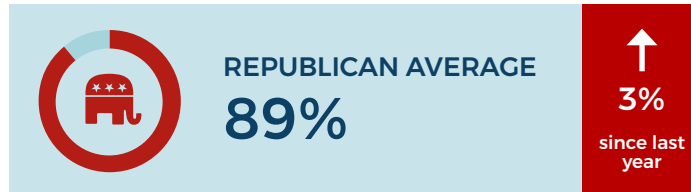

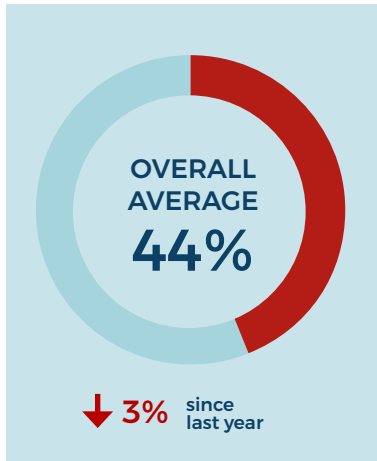

-
12. **HF 33 SS Increasing Government Dependency by Expanding Multiple Welfare Programs.** This omnibus health and human services bill results in \$18.8 billion in spending over the next two years and contains numerous provisions which grow government programs and spending while further trapping Minnesotans into government dependency. For example, the bill expands post-partum coverage under Medicaid from two months to 12 months, expands welfare coverage of dental and weight loss treatment, and hikes payouts under the Minnesota Family Investment Program, including one-time \$435 payments to all recipients. Additionally, the bill imposes new insurance mandates on telehealth coverage and hikes spending on childcare and student loan forgiveness. Finally, the impose new Leftist “anti-racism” and “implicit bias” training mandates on healthcare providers. ACU supports efforts to help people live happier, healthier, more productive lives, opposes efforts that expand dependence on government, which leads to intergenerational poverty and opposed this bill. The Senate passed the bill on June 26, 2021 by a vote of 62-4 and the bill was signed into law.
-
13. **HF 164 Increasing Consumer Energy Costs by Expanding Energy Mandates.** This bill, known as the Energy Conservation and Optimization Act, increases consumer energy costs by expanding the states existing ratepayer-funded conservation program. Specifically, the bill increases the state’s annual energy savings goal from 1.5 to 2.5 percent, hikes utility spending on programs serving low-income households from 0.1 percent to 0.4 percent, and mandates greater spending on energy efficiency improvements. ACU recognizes this unnecessary spending incurred by utilities is ultimately recovered from ratepayers. ACU opposes these mandates which unnecessarily drive-up consumer energy costs and opposed this bill. The Senate passed the bill on May 17, 2021 by a vote of 58-9 and the bill was signed into law.
-
14. **HF 164 (Howe Amd.) Ensuring Electric Vehicle Costs are not Socialized onto All Electricity Ratepayers.** The Howe (ACUF Lifetime 88%) amendment to the Energy Conservation and Optimization Act ensures that utility companies do not engage in cost recovery (raise electricity rates) in order to subsidize electric vehicle purchases or leases. ACU supports all sources of energy and vehicle propulsion types, believes government should not pick winners or losers in the energy industry, supports protecting families from redistribution schemes that unnecessarily drive-up electricity costs and supported this amendment. The Senate defeated the amendment on May 6, 2021 by a vote of 18-49.
-
15. **SF 173 Strengthening Election Integrity Through Photo ID Requirements.** This bill strengthens election integrity and combats vote fraud by requiring individuals to present a valid photo-id when casting a ballot. The bill applies to both in-person voting as well as absentee voting. The bill provides no-cost voter identification cards to those without IDs and permits provisional ballots to be cast by those who cannot produce photo identification when voting on election day. ACU recognizes that election integrity safeguards such as photo-ID requirements are designed to help ensure that one person cannot cast the ballot of another (or one person on behalf of many others). ACU supports efforts to strengthen election integrity and ensure that all legal ballots are counted, that no illegal ballot is counted, which disenfranchises eligible voters, and supported this bill. The Senate passed the bill on May 3, 2021 by a vote of 34-32. (The bill failed to advance in the House.)
-
16. **SF 193 Expanding Access to Mental Health Services through Licensing Reciprocity.** This bill would expand access to mental health services and lower costs by enrolling Minnesota into the Psychology Interjurisdictional Compact (PSYPACT). The compact permits psychologists licensed in one state to practice in all member states without having to obtain separate licenses. As a result, patients within Minnesota would be able to receive treatment from a psychologist licensed in another state through telehealth. ACU supports reducing licensing barriers and expanding access to care, supports lowering patient costs through telehealth and supported this bill. The Senate passed the bill on May 17, 2021 by a vote of 67-0 and the bill was signed into law.
-
17. **HF 652 Driving up Life Insurance Costs Through a New State Mandate.** This bill ultimately drives up the cost of life insurance for everyone by reducing the ability of insurers to assess risk. Specifically, the bill imposes a new mandate on insurers which prevents them from taking into consideration that a proposed insured has a prescription for an opiate antagonist when they are determining whether to issue, renew, cancel or modify a policy. ACU opposes this government interference in the insurance industry which prevents companies from accurately assessing and pricing risk which leads to higher premiums for everyone and opposed this bill. The Senate passed the bill on March 25, 2021 by a vote of 66-0 and the bill was signed into law.
-

18. **HF 991 (Murphy Amd.) Expanding Wealth Redistribution Through an Additional Tax on Investment Income.** The Murphy (ACU Lifetime 7%) amendment to the omnibus tax bill would impose an additional 0.5% tax on the capital gains and investment income of individuals, estates and trusts that exceeds \$250,000. The revenue is likely to be used to further grow other welfare initiatives such as increased payouts under the EITC welfare program which was introduced through another amendment by the sponsor. ACU opposes harming economic growth and decreasing investment through attempts to further “soak the rich” with taxation and opposed this amendment. The Senate defeated the amendment on April 28, 2021 by a vote of 30-36.
-
19. **HF 991 (Marty Amd.) Hiking the State Income Tax Through a New 12.45% Tax Bracket.** The Marty (ACU Lifetime 10%) amendment to the omnibus tax bill would create a new state tax bracket of 12.45% for all income over \$250,000 for individual tax filers or \$500,000 for married couple filing jointly. Under existing law, the state’s top tax bracket is 9.85%. ACU opposes this attempt to “soak the rich” with a tax hike which will inevitably harm economic and business growth and opposed this amendment. The Senate defeated the amendment on April 28, 2021 by a vote of 27-38.
-
20. **SF 1098 (Pappas Amd.) Imposing More Mandates on Businesses as They Recover from Government Shutdowns.** The Pappas (ACU Lifetime 7%) amendment to the omnibus workforce and business development bill would require any employer who reopens their businesses without capacity limits to provide employees paid sick leave, no matter the size of the business. ACU opposes burdening small businesses with additional mandates as they attempt to recover from government-imposed shutdowns due to the COVID-19 pandemic and opposed this amendment. The Senate defeated the amendment on April 15, 2021 by a vote of 33-34.
-
21. **SF 1470 Strengthening Property Rights by Limiting Eviction Moratoriums.** This bill strengthens property rights by placing limitations on eviction and foreclosure moratoriums. Under the bill, an executive order prohibiting or delaying eviction proceedings must not to exceed a period of 30 days, unless an extension is approved by a majority vote of each chamber in the legislature. Additionally, the bill temporarily prohibits the governor from issuing a moratorium on eviction proceedings for 30 days and creates an eviction moratorium phaseout plan. ACU opposes exploiting government-imposed shutdowns to foist the costs of socialized housing onto landlords and lenders, supports protecting property rights and supported this bill. The Senate passed the bill on April 12, 2021 by a vote of 46-21. (This version of the bill failed to advance in the House.)
-
22. **HF 1952 (Carlson Amd.) Weakening Election Integrity by Undoing Critical Reforms.** The Carlson (ACUF Lifetime 7%) amendment to the state government and elections omnibus bill weakens election integrity by removing numerous provisions within the bill that help reduce vote fraud. For example, the amendment undoes reforms that prevent individuals from mailing fraudulent absentee ballots and reforms that ensure voter lists remain updated. ACU opposes weakening election integrity by removing safeguards protecting against voter fraud which disenfranchises legal voters and opposed this amendment. The Senate defeated the amendment on April 26, 2021 by a vote of 32-35.
-
23. **HF 1952 (Putnam Amd.) Weakening Election Integrity by Establishing Automatic Voter Registration.** The Putnam (ACUF Lifetime 17%) amendment to the state government and elections omnibus bill weakens election integrity by implementing automatic voter registration provisions and allowing underage individuals to register to vote. The amendment requires that any individual who is eligible to vote and applies for a driver’s license, medical assistance, or benefits from a state agency must then be registered to vote. The amendment only provides an individual the opportunity to decline voter registration after filling out a form within 20 days of submitting their original application. Additionally, the amendment authorizes an individual 16 years of age to register to vote, despite not legally being able to cast a ballot. ACU opposes weakening election integrity by introducing new opportunities for voter fraud which disenfranchises legal voters and opposed this amendment. The Senate defeated the amendment on April 26, 2021 by a vote of 32-35.
-
24. **HF 2128 (Franzen Amd.) Imposing Price Controls on Prescription Drugs.** The Franzen (ACUF Lifetime 12%) amendment to the health and human services omnibus bill imposes new price controls on pharmaceuticals through the so called “Prescription Drug Affordability Act.” Under the act, a new prescription drug affordability board is created which has the authority to establish upper payment limits (price controls) on drugs the board believes “create an affordability challenge for the state health care system or for patients”. The Attorney General is directed to pursue remedies and criminal charges against drug manufacturers that are non-compliant. ACU opposes government interference in the marketplace and price control mechanisms that threaten innovation, believes the best way to lower drug prices is by fostering free-market principles in international markets and streamlining the approval process at the Federal Drug Administration and opposed this bill. The Senate defeated the amendment through a procedural motion on April 29, 2021 by a vote of 36-31. (A “yes” vote supported the ACU position.)

MINNESOTA HOUSE VOTE DESCRIPTIONS

- 1. HF 2 SS (Gruenhagen Amd.) Improving Educational Outcomes by Expanding School Choice through a Scholarship Program.** The Gruenhagen (ACUF Lifetime 87%) amendment to the education omnibus bill is designed to improve educational outcomes and strengthen school choice options for students and their families by implementing the Opportunity Scholarship program which provides tuition assistance to students attending nonpublic schools. ACU supports improving educational outcomes by strengthening school choice and responsibly expanding K-12 scholarship opportunities and supported this amendment. The House defeated the amendment on June 26, 2021 by a vote of 57-70.
- 2. HF 2 SS (Kresha Amd.) Empowering Localities to Reopen Schools Following COVID-19.** The Kresha (ACUF Lifetime 85%) amendment helps prevent students from being robbed of their educations due to government overreach concerning the COVID-19 pandemic. Under the amendment, local school districts are empowered to hold in-person learning during a declared public health emergency as long as they adopt reasonable safety procedures and obtain public input. The bill is largely in response to the excessive actions of Governor Walz throughout the pandemic. ACU opposes exiling students to unproductive learning environments, supports the ability of Americans to manage their own risk related to illnesses, believes that many of government's reactions to COVID-19 have done more harm than good and supported this amendment. The House defeated the amendment on June 26, 2021 by a vote of 56-68.
- 3. SF 2 SS (Mortensen Amd.) Protecting Individual Liberties by Rolling Back Excessive COVID-19 Penalties and Reinstating Licenses.** The Mortensen (ACUF Lifetime 93%) amendment to the special session state policy omnibus bill helps protect individual liberties by rolling back penalties and reinstating licenses that were revoked for violating Gov. Walz excessive executive orders related to COVID-19. Under the amendment, the maximum penalty for violating a COVID-19 related executive order is a misdemeanor and fine to not exceed \$1,000. The amendment requires any fine collected over the maximum to be refunded. ACU supports protecting constitutional rights, supports the ability of Americans to manage their own risk related to illnesses, believes that many of government's reactions to COVID-19 have done more harm than good and supported this amendment. The House defeated the amendment on June 29, 2021 by a vote of 64-70.
- 4. SF 2 SS (Neu Brindley Amd.) Strengthening Election Integrity by Combatting Ballot Harvesting.** The Neu Brindley (ACUF Lifetime 86%) amendment to the state policy omnibus bill strengthens election integrity by implementing various safeguards to combat vote fraud. Most notably the amendment includes a provision designed to combat ballot harvesting, or the practice of allowing political operatives and others to collect voters' ballots and turn them in en masse to polling stations. The amendment also contains provisions to combat fraud in votes cast by absentee ballot. ACU supports efforts to strengthen election integrity and protect against "ballot harvesting" and supported this amendment. The House defeated the bill on June 29, 2021 by a vote of 64-70.
- 5. HF 4 SS Authorizing \$125 Million in Housing Subsidies and Further Infringing Property Rights.** This omnibus housing bill is touted as an eviction moratorium off-ramp but contains multiple provisions which further infringe property rights and fuel wasteful spending. While the bill does end Gov. Walz eviction moratorium, the bill still largely prohibits evictions for another 4 months, and in some cases through June of 2022. Additionally, the bill further infringes the property rights of landlords by amending law surrounding service animals to now mandate acceptance of "support animals" for an individual alleging any type of disability. In addition to tens of millions of spending on wealth redistribution programs concerning housing, the bill places taxpayers in an additional \$100 million in debt through bond issuance for crony "affordable housing" initiatives. This spending is on top of the hundreds of millions in rental and housing assistance provided through federal programs. ACU opposes this measure which further attacks property rights and unnecessarily places Minnesotans in over \$100 million in new debt and opposed this bill. The House passed the bill on June 24, 2021 by a vote of 72-58 and the bill was signed into law.
- 6. HF 4 SS (Nash Amd.) Strengthening Property Rights by Preempting Local Aesthetic Mandates on Housing.** The Nash (ACUF Lifetime 91%) amendment to the omnibus housing bill helps strengthen property rights by combatting overreaching local building mandates. Specifically, the amendment prevents a municipality from imposing any mandate on building material, design amenity or other aesthetic condition that is not required under state law. ACU supports expanding access to and lowering housing costs by eliminating excessive zoning and building regulations and supported this amendment. The House defeated the amendment on June 24, 2021 by a vote of 51-74.

7. **HF 4 SS (Theis Amd.) Strengthening Property Rights Through a Legislative Check on Executive Eviction Moratoriums.** The Theis (ACUF Lifetime 81%) amendment to the housing omnibus bill strengthens property rights by setting limitations to executive orders relating to eviction moratoriums. The amendment stipulates that any executive order issued that prohibits or delays eviction proceedings shall not exceed a period of 30 days and an extension of the order must gain approval from the legislature. Additionally, the amendment reduces the eviction moratorium following the passage of the bill from 105 days to 30 days. ACU supports strengthening property rights, opposes exploiting government-imposed shutdowns to foist the costs of socialized housing onto landlords and lenders and supported this amendment. The House defeated the amendment on June 24, 2021 by a vote of 59-68.

 8. **HF 4 SS (Pfarr Amd.) Improving Oversight of Housing Finance Agency Use of Emergency Relief Funds.** The Pfarr (ACUF Lifetime 89%) amendment to the housing omnibus bill improves oversight of the use of federal relief funds by setting a cap on Minnesota Housing Finance Agency administrative costs. The amendment states that the agency is prohibited from allocating more than five percent of emergency rental assist program funds towards administrative costs and any costs exceeding five percent must be covered by the agencies budget. ACU supports increasing government integrity and ensuring emergency relief funds are directed towards those actually impacted by the forced shutdowns and supported this amendment. The House defeated the amendment on June 24, 2021 by a vote of 58-68.

 9. **SC 5 Ending Gov. Walz Overreaching COVID-19 Emergency Orders.** This resolution ends the state of emergency Gov. Walz declared under executive order 20-01 relating to the COVID-19 pandemic. ACU recognizes Gov. Walz abused his executive authority throughout the pandemic, placing severe and unnecessary harm on countless businesses and providers of housing. ACU supports protecting constitutional rights, supports the ability of Americans to manage their own risk related to illnesses, believes that many of government's reactions to COVID-19 have done more harm than good and supported this resolution. The House defeated the resolution on March 18, 2021 by a vote of 63-69.

 10. **HF 6 SS (Swedzinski Amd.) Blocking a Crony New Energy Program Which Raises Utility Costs.** The Swedzinski (ACUF Lifetime 82%) amendment to the commerce and climate omnibus bill blocks the implementation of a crony new energy efficiency program which enriches government-favored non-profit entities while socializing the costs onto electricity and natural gas ratepayers. Under the Minnesota efficient technology accelerator program, select non-profit entities may propose energy efficient products that they work with utility companies to implement, with the costs being recovered from all ratepayers through higher utility rates. ACU opposes unnecessarily driving up energy costs on all utility users in order to enrich utility companies and special interest groups and supported this amendment. The House defeated the amendment on June 21, 2021 by a vote of 61-67.

 11. **HF 7 Imposing New Paid Leave Mandates on Private Employers and Employees.** This bill interferes in the contracting rights of private employers and employees by imposing new paid leave mandates. Under the bill, every employer is mandated to provide their employees with one hour of paid sick leave for every 30 hours worked, up to a maximum of 48 hours (six days). ACU believes employers and employees should be free to negotiate their own benefits, and opposes this infringement of the right to contract, which may limit the ability of employees to receive other benefits or job perks and opposed this bill. The House passed the bill on March 25, 2021 by a vote of 69-63. (The bill failed to advance in the Senate.)

 12. **HF 8 SS Expanding Cronyism Through \$139 Million in Subsidies to the Agricultural Industry.** This omnibus agricultural appropriations bill contains a litany of special interest programs and initiatives for the agricultural industry while socializing the \$139 million in costs onto taxpayers over the next two years. For example, the bill forces taxpayers to spend \$8 million to promote and market agricultural products, \$50 million on research and technology development for the industry and \$20 million in direct subsidies for things such as counseling for farm families, housing assistance, and \$5,000 to each dairy producer for "business development plans." ACU opposes this cronyism which provides competitive advantages to a select industry and companies while socializing the benefits onto the backs of taxpayers in other industries and professions not favored by government and opposed this bill. The House passed the bill on June 19, 2021 by a vote of 112-20 and the bill was signed into law.
-

-
13. **HF 9 SS Expanding Cronyism Through Countless Special-Interest Tax Exemptions and Subsidies.** This omnibus tax bill conforms portions of the state tax code with federal. However, it also contains countless new tax exemptions and subsidies which only benefit select individuals, companies and industries. For example, the bill extends tax credits for developers of “affordable” housing, creates a \$5 million film production tax credit, and even gives a select meat processing company a \$6 million handout. The bill also funds numerous wasteful initiatives such as tourism promotion and authorizes a number of localities to hike taxes for non-essential government functions. ACU supports a tax code that is broadly applied with as low of rates as possible for everyone. ACU opposes this cronyism which provides competitive advantages and benefits to select interests while shifting tax burdens to other taxpayers not favored by government and opposed this bill. The House passed the bill on June 30, 2021 by a vote of 69-55 and the bill was signed into law.
-
14. **HF 9 SS (Neu Brindley Amd.) Blocking the Crony Film Production Tax Credit.** The Neu Brindley (ACUF Lifetime 86%) amendment to the special session omnibus tax bill eliminates the crony film production tax credit included in the underlying bill. This tax credit subsidizes up to 25% of the cost of films produced in Minnesota. ACU supports a broadly applied tax code with as low of rates as possible for everyone. ACU does not believe it is the proper role of government to entertain, opposes this taxpayer-funded cronyism which enriches a select government favored industry and supported this amendment. The House defeated the amendment on June 30, 2021 by a vote of 65-69.
-
15. **SF 9 SS (Lislegard Amd.) Holding Oil Refineries Further Hostage to Greedy Union Bosses.** The Lislegard (ACUF Lifetime 19%) amendment to the special session economic omnibus bill attempts to hold petroleum refineries further hostage to the demands of union bosses by inserting the language of the so called “Safe and Skilled Workforce Act” into the bill. Under the amendment, oil companies would only be able to utilize contractors at their refineries whose employees have received certification from union apprentice programs. The amendment requires that by October of 2022 at least 65% of the contractor’s workforce be union trained, and by October 2024, at least 85% union trained. ACU recognizes this measure simply serves as a scheme to enrich labor unions and protect their workers from lower-cost competition. ACU supports the “right to work,” opposes unnecessarily driving up costs and holding private companies hostage to greedy union bosses and opposed this amendment. The House adopted the amendment on June 25, 2021 by a vote of 73-57. (The amendment was not included in the final bill passage.)
-
16. **HF 33 SS Increasing Government Dependency by Expanding Multiple Welfare Programs.** This omnibus health and human services bill results in \$18.8 billion in spending over the next two years and contains numerous provisions which grow government programs and spending while further trapping Minnesotans into government dependency. For example, the bill expands post-partum coverage under Medicaid from two months to 12 months, expands welfare coverage of dental and weight loss treatment, and hikes payouts under the Minnesota Family Investment Program, including one-time \$435 payments to all recipients. Additionally, the bill imposes new insurance mandates on telehealth coverage and hikes spending on childcare and student loan forgiveness. Finally, the impose new Leftist “anti-racism” and “implicit bias” training mandates on healthcare providers. ACU supports efforts to help people live happier, healthier, more productive lives, opposes efforts that expand dependence on government, which leads to intergenerational poverty and opposed this bill. The House passed the bill on June 26, 2021 by a vote of 69-56 and the bill was signed into law.
-
17. **HF 33 SS (Haley Amd.) Restricting the Governor’s Authority During COVID-19 and Ending Shutdowns.** The Haley (ACUF Lifetime 81%) amendment to the health and human services omnibus bill helps protect individual liberties by limiting the authority of the governor and state agencies during the COVID-19 outbreak. Under the amendment, the state’s authority over COVID-19 is confined to this bill and stipulates that the governor’s powers do not apply to the COVID-19 outbreak unless explicitly stated in the bill. Additionally, the amendment terminated the peacetime emergency declared by Executive Order No. 20-01. ACU supports protecting constitutional rights, supports the ability of Americans to manage their own risk related to illnesses and supported this amendment. The House defeated the amendment on June 26, 2021 by a vote of 57-67.
-

18. **HF 39 Imposing Rehiring Mandates onto Employers During Declared Emergencies.** This bill imposes hiring and retention mandates onto private employers in the hospitality industry during a declared state of emergency or ownership change. Specifically, the bill requires employers to offer employees laid-off due to a declared emergency, such as the COVID-19 pandemic, with information about available job positions they qualify for and rehire employees based on qualifications and seniority. In cases where employees are laid-off due to changes of ownership, the bill requires the previous employer to provide the “successor employer” with information about eligible employees to be used for preferential hiring. ACU opposes further expansion of labor mandates which infringe on private sector hiring practices and unnecessarily drive up business and consumer costs and opposed this bill. The House passed the bill on March 25, 2021 by a vote of 70-61. (The bill failed to advance in the Senate.)
-
19. **HF 63 SS (Grossell Amd.) Strengthening Property Rights and Protecting Key Infrastructure from Destruction by Holding “Riot Boosters” Accountable.** The Grossell (ACUF Lifetime 88%) amendment to the public safety omnibus bill is designed to protect key infrastructure from destruction by expanding criminal penalties. Under current law, it is a felony to cause damage to the physical property of critical infrastructure, such as the property of a public service facility, utility, or pipeline. This amendment stipulates that an individual who intentionally recruits, trains, advises, or hires another to commit damage to critical infrastructure is guilty of a gross misdemeanor. ACU firmly supports the founders’ belief in the First Amendment and the right to peacefully assemble, and we also support protecting property rights by holding accountable all parties who cause destruction and violence and supported this bill. The House defeated the amendment on June 29, 2021 by a vote of 64-70.
-
20. **HF 164 Increasing Consumer Energy Costs by Expanding Energy Mandates.** This bill, known as the Energy Conservation and Optimization Act, increases consumer energy costs by expanding the states existing ratepayer-funded conservation program. Specifically, the bill increases the state’s annual energy savings goal from 1.5 to 2.5 percent, hikes utility spending on programs serving low-income households from 0.1 percent to 0.4 percent, and mandates greater spending on energy efficiency improvements. ACU recognizes this unnecessary spending incurred by utilities is ultimately recovered from ratepayers. ACU opposes these mandates which unnecessarily drive-up consumer energy costs and opposed this bill. The House passed the bill on May 15, 2021 by a vote of 88-46 and the bill was signed into law.
-
21. **SF 193 Expanding Access to Mental Health Services through Licensing Reciprocity.** This bill would expand access to mental health services and lower costs by enrolling Minnesota into the Psychology Interjurisdictional Compact (PSYPACT). The compact permits psychologists licensed in one state to practice in all member states without having to obtain separate licenses. As a result, patients within Minnesota would be able to receive treatment from a psychologist licensed in another state through telehealth. ACU supports reducing licensing barriers and expanding access to care, supports lowering patient costs through telehealth and supported this bill. The House passed the bill on May 17, 2021 by a vote of 133-0 and the bill was signed into law.
-
22. **HF 403 Prohibiting Employers from Seeking the Salary History of Job Applicants.** This bill violates the rights of job applicants and employers to freely contract and subjects’ employers to frivolous litigation. Under the bill, an employer or labor organization is prohibited from inquiring about an applicant’s pay history at any point during the hiring process, making such an action an unfair discriminatory employment practice. ACU opposes this interference in the private marketplace and hiring process, believes salary history is a legitimate line of inquiry, especially considering it is requested by the nation’s largest employer (federal government) and opposed this bill. The House passed the bill on March 25, 2021 by a vote of 80-51. (The bill failed to advance in the Senate.)
-
23. **HF 652 Driving up Life Insurance Costs Through a New State Mandate.** This bill ultimately drives up the cost of life insurance for everyone by reducing the ability of insurers to assess risk. Specifically, the bill imposes a new mandate on insurers which prevents them from taking into consideration that a proposed insured has a prescription for an opiate antagonist when they are determining whether to issue, renew, cancel or modify a policy. ACU opposes this government interference in the insurance industry which prevents companies from accurately assessing and pricing risk which leads to higher premiums for everyone and opposed this bill. The House passed the bill on March 18, 2021 by a vote of 128-4 and the bill was signed into law.
-

-
24. **HF 844 Increasing Scarcity by Advancing Price Controls During State of Emergencies.** This bill worsens state disaster situations by imposing a prohibition on “price gouging”. Under the bill, the act of price gouging is prohibited during an “abnormal market disruption,” such as a natural disaster, national or local emergency, or a state of emergency. Violators of these provisions are subject to a maximum civil penalty of \$1,000 per transaction or \$10,000 per day. ACU opposes anti-price gouging controls which always worsen disasters by preventing the market from allocating scarce resources and incentivizing the flow of additional goods and opposed this bill. The House passed the bill on March 22, 2021 by a vote of 71-62. (The bill failed to advance in the Senate.)
-
25. **HF 1203 Abusing Workers Compensation Through the Extension of COVID-19 Presumptions.** This bill subjects taxpayers to unreasonable workers compensation liabilities by further extending the presumption that a first responder contracted COVID-19 during the course of their employment, and not during any other time they are off the clock. The presumption was set to expire on May 1, 2021, while this bill extends the presumption all the way through December 31, 2021. ACU opposes abusing the workers compensation and placing unreasonable liabilities on taxpayers and opposed this bill. The House passed the bill on March 25, 2021 by a vote of 102-28. (The bill failed to advance in the Senate.)
-
26. **HF 1952 (Quam Amd.) Protecting Property Rights by Preventing “Dedication Fees” for Development Permits.** The Quam (ACUF Lifetime 86%) amendment to the state government omnibus bill protects property rights by eliminating a provision of the bill which would have permitted localities to impose “dedication fees” or force developers to dedicate a portion of their land for public use. The bill’s original language authorized a locality to deny a construction permit for new housing or industrial development unless the landowner or developer dedicates a “reasonable” portion of their land for amenities such as public parks, playgrounds, recreation facilities, or open space, or pay a “dedication fee.” ACU opposes this attack on property rights as well as other excessive land use and zoning ordinance schemes that localities oftentimes impose on developers and property owners and supported this amendment. The House defeated the amendment on April 16, 2021 by a vote of 56-70.
-
27. **HF 2128 (Gruenhagen Amd.) Blocking Another Push to Expand Socialized Healthcare.** The Gruenhagen (ACUF Lifetime 87%) amendment to the health and human services omnibus bill removes a provision that requires relevant federal agencies to develop a proposal for a public option health insurance program. The bill’s original language stipulated regulations for each public option structure, one of which allows undocumented immigrants access to subsidized employer health coverage. ACU opposes the socialization of healthcare which leads to skyrocketing insurance premiums and ultimately prevents individuals from obtaining quality care and supported this amendment. The House defeated the amendment on April 26, 2021 by a vote of 63-70.
-
28. **HF 2128 (Schomacker Amd.) Halting State Funding of Obamacare if Repealed at the Federal Level.** The Schomacker (ACUF Lifetime 83%) amendment to the health and human services omnibus bill removes a provision that allows state funding of the Affordable Care Act in the event that the U.S. Supreme Court finds Obamacare unconstitutional. This provision would authorize funding for a year following the date of the Supreme Court’s decision. ACU has long opposed Obamacare and its costly mandates that have caused massive increases in insurance premiums and deductibles and supported this amendment. The House defeated the amendment on April 26, 2021 by a vote of 63-70.
-
