Re: Our Client : North Idaho College
Matter : Data Security Incident
Wilson Elser File # : 16516.2013

Dear Attorney General Wasden:

We represent North Idaho College (hereinafter "NIC") located in Coeur d'Alene, Idaho, with respect to a data security incident described in more detail below. NIC takes the security and privacy of the information in its control seriously, and has taken steps to prevent a similar incident from occurring in the future.

This letter will serve to inform you of the nature of the security incident and the steps that the NIC is taking in response.

1. Nature of Security Incident

On October 28, 2010, NIC detected it was the target of a cybersecurity incident. An unauthorized third party attempted to infiltrate our network. Upon detecting this incident, NIC moved quickly to initiate a response, which included engaging a team of external forensic and cybersecurity experts to analyze the environment and conducting a comprehensive investigation into the sensitivity of data accessed.

2. Status of Investigation

On November 9, 2022, the forensic team provided NIC with a listing of data that was potentially accessed by the unauthorized third-party. Notably, to date there is no evidence confirming any access to or exfiltration of sensitive personal information. However, the investigation is ongoing. Out of an abundance of caution, we are moving forward with this notice to keep you apprised.

Again, NIC is not aware of any evidence that information was acquired or misused and has not received any reports of related identity theft since the date of the incident.

3. Contact Information

NIC remains dedicated to protecting the sensitive information in its control. If you have any questions or need additional information, please do not hesitate to contact me at Rachel.Pitts@WilsonElser.com or 205.709.8991.

Very truly yours,

Wilson Elser Moskowitz Edelman & Dicker LLP
