- RCW 84.33.0775 Timber harvest tax credit. (1) A taxpayer is allowed a credit against the tax imposed under RCW 84.33.041 for timber harvested on and after January 1, 2000, under a forest practices notification filed or application approved under RCW 76.09.050 and subject to enhanced aquatic resources requirements.
- (2) (a) For a person other than a small harvester who elects to calculate tax under RCW 84.33.074, the credit is equal to the stumpage value of timber harvested for sale or for commercial or industrial use multiplied by eight-tenths of one percent.
- (b) For a small harvester who elects to calculate tax under RCW 84.33.074, the credit is equal to sixteen percent of the tax imposed under this chapter.
- (c) The amount of credit claimed by a taxpayer under this section shall be reduced by the amount of any compensation received from the federal government for reduced timber harvest due to enhanced aquatic resource requirements. If the amount of compensation from the federal government exceeds the amount of credit available to a taxpayer in any reporting period, the excess shall be carried forward and applied against credits in future reporting periods. This subsection does not apply to small harvesters as defined in *RCW 84.33.073.
- (d) Refunds may not be given in place of credits. Credit may not be claimed in excess of tax owed. The department of revenue shall disallow any credits, used or unused, upon written notification from the department of natural resources of a final decision that timber for which credit was claimed was not harvested under a forest practices notification filed or application approved under RCW 76.09.050 and subject to enhanced aquatic resources requirements.
- (3) As used in this section, a forest practices notification or application is subject to enhanced aquatic resource requirements if it includes, in whole or in part, riparian area, wetland, or steep or unstable slope from which the operator is limited, by rule adopted under RCW 76.09.055, 34.05.090, 43.21C.250, and 76.09.370, or any federally approved habitat conservation plan or department of natural resources approved watershed analysis, from harvesting timber, or if a road is included within or adjacent to the area covered by such notification or application and the road is covered by a road maintenance plan approved by the department of natural resources under rules adopted under chapter 76.09 RCW, the forest practices act, or a federally approved habitat conservation plan.
- (4) For forest practices notification or applications submitted after January 1, 2000, the department of natural resources shall indicate whether the notification or application is subject to enhanced aquatic resource requirements and, unless notified of a contrary determination by the pollution control hearings board, the department of revenue shall use such indication in determining the credit to be allowed against the tax assessed under RCW 84.33.041. The department of natural resources shall develop revisions to the form of the forest practices notifications and applications to provide a space for the applicant to indicate and the department of natural resources to confirm or not confirm, whether the notification or application is subject to enhanced aquatic resource requirements. For forest practices notifications or applications submitted before January 1, 2000, the applicant may submit the approved notification or application to the department of natural resources for confirmation that the notification or application is subject to enhanced aquatic resource requirements. Upon any such submission, the department of natural resources will within thirty days confirm or deny that the

notification or application is subject to enhanced aquatic resource requirements and will forward separate evidence of each confirmation to the department of revenue. Unless notified of a contrary ruling by the pollution control hearings board, the department of revenue shall use the separate confirmations in determining the credit to be allowed against the tax assessed under RCW 84.33.041.

- (5) A refusal by the department of natural resources to confirm that a notification or application is subject to enhanced aquatic resources requirements may be appealed to the pollution control hearings board.
- ($\overline{6}$) A person receiving approval of credit must keep records necessary for the department of revenue to verify eligibility under this section. [2010 c 210 s 35; 1999 sp.s. c 5 s 1; 1999 sp.s. c 4 s 401.]

*Reviser's note: RCW 84.33.073 was repealed by 2001 c 249 s 16.
