"It is an exciting place, so much fun, and the chance to make new friends. It also ticks off a load of Scout badgework."

40th Greenwich Scout Group, visited Grosvenor Hall, February 2024

"Excellent, friendly, informative instructors, who go out of their way to help the children achieve their goals and push themselves out of their comfort zone. The cadets and instructors have gained so much from being here, gelling the Ship's Company by strong bonds of teamwork, helping those less confident to push themselves further."

What to expect

Live It is built around real-world outcomes, developed through a series of amazing challenges that help to develop the '4 Cs of 21st Century Living', deemed essential for success by employers and educators alike:

- **Creativity**
- **Collaboration**
- **Communication**
- **Critical thinking**

The three core modules are:

For Love or Money

We want young people to be passionate about using their voices for two key reasons. Firstly, to speak about the things they are passionate about to affect positive change - 'For Love'. Secondly, to use their voice as a key tool to progress along their professional journeys - 'For Money'.

Food for Thought

Using a range of resilience-building bushcraft skills, Food for Thought brings the young people together and challenges them to prepare and share a meal together.

Epic Challenge

A day completing problem-solving, team-building, nerve-jangling activities across the centre. Each challenge has been designed to help achieve different elements of the Skills Builder Framework, develop life skills and bond your cohort.
