Live It

2025

A 5-day, 4 night residential adventure designed to support 15-17 year olds on their journey to adulthood by boosting social, emotional and problem-solving skills.

Each day offers a new module, before the programme curriculum is channelled into a final day of outdoor adventure. Available across all of our 11 UK locations, this experience is perfect for students, sports teams and youth groups of any kind.

“Everything was so well organised, the activities were so much fun and pushed everyone out of their comfort zones, the staff were so brilliant the venue was perfect, and every single student has made memories and learnt skills that they will take with them through their entire life.”

Leila, Head of 6th, Open Academy
