# Confluent Training Credits

## Description

Formal training is the foundation for building your team's Apache Kafka® knowledge and expertise in the field of data streaming. Confluent offers a comprehensive portfolio of courses and certifications through Training Credits, which are redeemable for up to 12 months from purchase. Training Credits are an easy way to access the top-quality training you need to optimize your Confluent investment.

Confluent Education Services offer a broad range of services, such as instructor-led training classes delivered either virtually or in-person, hands-on labs, and certifications and accreditations to sharpen your competitive edge. We provide the training and resources needed to be successful at every step of your data-streaming journey. Visit [www.confluent.io/training](http://www.confluent.io/training) to learn more about our Education Services.

### Accelerate Time to Adoption

Accessing practical, hands-on experiential training increases productivity improves team performance, and shortens time to value across your organization.

### Improve Efficiency

Improve efficiency of applications and ROI through expanded adoption and use.

## Training Credits Benefits

- Definitively allocate the training budget to increase your team's Kafka knowledge. Eliminate the immediate need to know which classes to purchase.
- Easily purchase and manage your team's training needs.
- Enjoy the flexibility of a 12-month expiration period.

## How to use Training Credits

You can redeem Confluent Training Credits for the following Education offerings:

### Private or Public Instructor-Led Training (ILT)

Enable talent in new roles and responsibilities associated with Confluent and Data in Motion capability to learn through interactive lessons in a lab environment. [Click here](#) to learn more about courses.
