### PRODUCT DESCRIPTION:

General material: Selenite & Iron

Height: 41.5cm (16.34in)
Width: 29.0cm (11.42in)
Length: 137.0cm (53.94in)
Weight: 75.5 kg (166.1lb)
Grounded / Hardwired

# **ASSEMBLY INSTRUCTIONS:**

- 1. Carefully remove all parts from the box and remove all plastic covering.
- 2. Turn OFF power to the junction box where the lighting fixture will be installed.
- 3. Loosen the nut (D1) and nut caps (D2) from ceiling box (D) and remove ceiling plate (C) from ceiling box (D).
- 4. Attach the ceiling plate (C) to the ceiling with mounting bolts (B).
- The Actual time seeming place (C) to the seeming with mounting boils (J). So Carefully inspect the fixture wires. One is the ground wire (marked with ⊕). The second is the neutral wire (marked with N). The third wire is the live/hot wire (marked with L)
- 6. For US Market: Connect the fixture ground wire (marked with 

  ) to the power supply ground wire, connect the fixture neutral wire (marked with N) to the power supply neutral wire, and connect the fixture live/hot wire (marked with L) to the power supply live/hot wire with wire nuts (E1).
- 7. For non-US Market: Connect the fixture ground wire (marked with (1)) to the power supply ground wire, connect the fixture neutral wire (marked with N) to the power supply neutral wire, and connect the fixture live/hot wire (marked with L) to the power supply live/hot wire with terminal box (E2).
- The length of the steel cable (E) is adjustable. To determine the proper height of the fixture, hold the fixture body (F) up against the ceiling box (D) to adjust the steel cable (E).
   Depress locking pin on the ceiling plate (C), hold pin in place and pull down or push up on the steel
- Depress locking pin on the ceiling plate (C), hold pin in place and pull down or push up on the stee cable (E). Repeat step for each steel cable.
- 10. Fasten light bulbs (G) to the lampholders.
- 11. Hang the selenite A (F1) to bottom layer. To ensure safety of lighting fixture during selenite installation, please maintain level of lighting fixture by ensuring install selenite in a balanced way on opposite side of lighting fixture.
- 12. Hang the selenite B (F2-4a) & selenite C (F2-4b) to the outer layer. The selenite B & C is a unit include 4 pieces single selenite, the spare of the selenite C is a unit include 2 pieces single selenite. Note: Please kindly note the quantity of the selenite is sufficient, it is reasonable that maybe one or more pieces selenite left after installation caused by loosened installation, the spare of the selenite C are also available for more close installation when needed.
- 13. Restore power to the junction box and test lighting fixture.

household waste disposal service.

## **CARE INSTRUCTIONS:**

- 1. Make sure that the power is turned off and bulb has cooled before handling.
