

# Atos has a unique technology partnership commitment to deliver superior business value with leading technology firms.

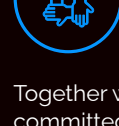

## Capabilities

We offer a unique combination of private cloud, network and desktop (private IaaS) capability, MFaaS, public cloud migration skills and native cloud software engineering expertise.

## Value

Atos is committed to deep, trusted, public cloud partnerships, consumption, and joint services models to accelerate transformative and differentiated digital experiences and industry solutions.

## Commitment

Together with our partners, we are committed to bringing our experience, innovation, and leadership to make our clients' digital and cloud vision a reality.

## Google Cloud

Powerful transformations begin with powerful partnerships

### Overview

At Atos, we realize that every digital transformation journey is unique and with more complex challenges emerging enterprises are turning to the cloud to address these obstacles. That's why we built one of the world's strongest partnerships with Google Cloud to empower seamless, customized transformations and deliver industry-specific solutions around the world.

With a proven track record of transforming how teams work while injecting resiliency and scalability, Atos built this powerful partnership with Google Cloud to enable long-term innovation for top enterprises across the globe. The Atos + Google Cloud partnership is ushering the world's biggest brands to digital success by combining Google's unparalleled cloud technology with Atos' proven understanding of complex transformations.

Connecting you to a cloud-forward future

### Overview

The digitalization journey can be intimidating, at Atos, we partner with our clients to successfully deliver secure, disruptive, innovative, and scalable Microsoft cloud solutions.

Atos is a Global Systems Integrator with deep industry, legacy infrastructure, and application expertise to successfully deliver secure, risk-averse, customized, and innovative cloud-first solutions. As a trusted Microsoft partner for over 20+ years with deep industry experience and expertise, the Atos cloud team has embarked with the Microsoft Azure product team in an exclusive pilot program to develop industry solutions and accelerators across three-emerging industry-focused (FSI, HC&LS, MFG) clouds.

At Atos, we deliver end-to-end business and disruptive technology solutions with Microsoft Cloud to enterprise organizations that face complex challenges and demand rapid outcomes. We provide Innovative, Scalable, and Secure Microsoft technology solutions from the migration of your current on-prem environment to secure Azure, Hybrid, and Multi-Cloud; Modernize Communications with Modern Workplace and Microsoft 365 to Increase Productivity & Collaboration; Empower 'citizen development' with Power Platform for rapid build and deployment of business applications, analytics, and connected commerce solutions to support the goals and mission of your organization.

Atos is a pioneer and committed to helping organizations reduce their IT carbon footprint by providing secure, decarbonized, and sustainable cloud computing solutions to achieve the NetZero goals of our clients. We provide a Digital Decarbonization Assessment to develop and execute a strategy to adopt digital technology that significantly reduces their carbon emissions so they can reach net zero.

With Atos and Microsoft, your seamless, efficient, and sustainable cloud transformation is closer than you think.
