

The UC Botanical Garden's mission: To develop and maintain a diverse living collection of plants to support teaching and worldwide research in plant biology, further the conservation of plant diversity, and promote public understanding and appreciation of plants and the natural environment.

**While in the Garden, please:**

- Stay on paths and keep out of plant beds
- No picking or collecting of plant material
- Enjoy a trip around the world!

**Key to Plant Labels**

Family Name	Accession #	Year/Order Received
<b>COMMON NAME</b>		
Scientific Name		
Where Collected		
Red dot indicates rare and/or endangered species.		

Look for plant labels throughout the Garden to learn the family, common, and scientific names. Also find details about the acquisition of many of the plant species in the collection.
