The Honorable José E. Serrano
Ranking Member, Financial Services &
General Government Subcommittee
Committee on Appropriations
U.S. House of Representatives
Washington, DC 20515

Dear Chairs and Ranking Members,

As Members of the Opportunity Finance Network (OFN), the nation's leading national network of community development financial institutions (CDFIs), we are writing to ask that you continue to provide bipartisan support for the CDFI Fund programs by allocating \$250 million in FY 2017 appropriations. We also urge Congress to extend the CDFI Bond Guarantee Program (BGP) through FY 2017 with \$750 million in guarantee authority.

The CDFI Fund at the U.S. Department of the Treasury has built a nation-wide network of CDFIs committed to ensuring that underserved communities have access to quality, affordable, and credible financial services. The CDFI Fund grants are competitively awarded to CDFIs that best demonstrate how they will partner with communities to address their economic development needs.

Investments in the CDFI Fund are an efficient and effective use of taxpayer dollars. Our CDFIs have a proven track record of providing financing that creates and retains jobs, and

delivers both impact and financial performance. A report published in 2014 found that there was \$12 in lending activity for every \$1 in awards provided by the CDFI Fund. The equity capital provided by the CDFI Fund allows CDFIs to leverage significant amounts of investment from the private sector to address critical community development needs in low-wealth markets across the nation.

CDFIs are mission-driven institutions that have proven their ability to identify and respond to the needs of the communities they serve by providing training, technical assistance, building capacity, equity, investments, and loans so their customers can eventually transition to traditional financial institutions. Throughout 2015, OFN members provided \$4.9 billion in affordable lending in rural, urban, and Native communities. They achieved their results with a net charge-off ratio of less than 1%, comparable to the rate for FDIC-insured institutions.

The BGP provides long-term, fixed rate capital to support community businesses in low-income and underserved communities. The BGP is a zero-cost program that does not require taxpayer subsidy, as all bonds must be repaid per contractual terms. In addition, the BGP has several safeguards in place to ensure taxpayer protection, including upfront cash loss reserves, strong collateral requirements and full recourse to CDFI balance sheets. Continuation of the BGP through FY 2017 will allow the CDFI industry to increase the volume and scope of CDFI work in underserved markets, and to attract greater investments from banks and other mainstream financial institutions that partner with CDFIs.

We recognize that this is a challenging budget environment and that there are constraints facing Congress on domestic spending. It is now more critical than ever that CDFIs have the capital to continue providing affordable lending that creates jobs, stimulates small businesses, and delivers quality affordable housing.

We urge you to support CDFIs by providing \$250 million in FY 2017 appropriations for CDFI Fund programs and a continuation of the BGP with \$750 million in guarantee authority.

Thank you for your consideration of this request.

Sincerely,
