

The Connected **Trimble** Construction One™ Team:

Estimating Professionals

The pressure is on to accurately estimate all of your project's materials, equipment, labor costs and quantities. With accurate true costs, your contractors can deliver bid proposals that win the work.

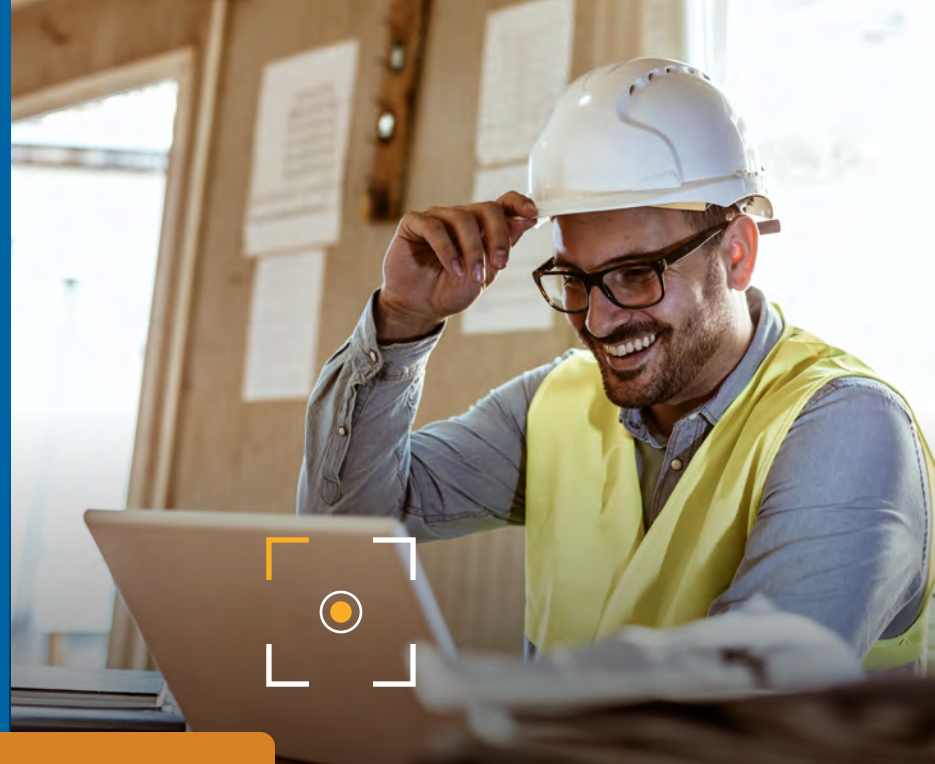

Running a Better Business Series

What Estimating wants.

A connected construction ecosystem with the up-to-date information needed to create bids designed to win work—keeping costs under control, while driving profits.

What Estimating gets.

Trimble Construction One™

		Point Solutions	Legacy Processes
Simple, trade-specific tools to produce detailed estimates and streamline workflows	✓	Tedious administration of third-party connectors	Dispersed processes that lead to lack of cost visibility
Increase accuracy with pre-built assemblies and integrated, up-to-date material pricing and labor	✓		
Track estimate and detailing precision through the entire project lifecycle to assess profitability	✓	Unscalable, manual and risk-prone processes	Missed opportunity to use technology as a lever for growth in productivity and profitability
Leverage historic estimate data to improve bids and project profit margins	✓		

Ask us how **Trimble** Construction One can help your business.

What you get from Trimble Construction One:

- » Simple, intuitive estimating, takeoff and change management with real-time materials costs
- » Anywhere, anytime access with single sign-on (SSO) and other cybersecurity controls
- » Connected data between estimating and your construction ERP and project management solutions
- » Estimators and project managers can access the same projects at the same time
- » Electronic takeoff and integrated supplier pricing
