SNAPSHOT JUNE 2024

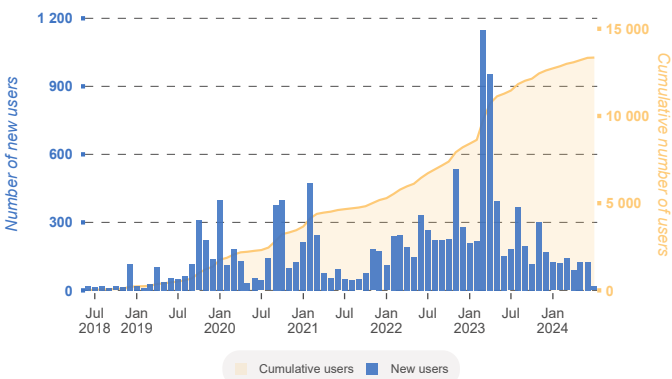

HSDU MONITORING

Since July 2023, four new projects were initiated in Haiti, Nepal, occupied Palestinian territory (Gaza) and Northeast Syria. Across all active projects, a thorough baseline, including information on the availability of essential health services, has been established for more than 58 000 HSDUs. Furthermore, the continuous monitoring approach has resulted in the submission of **over 100 000 new HSDU updates** over the last 12 months.

Number of HSDU updates submitted by month and WHO region

Evolution of the HeRAMS platform user community

USER COMMUNITY

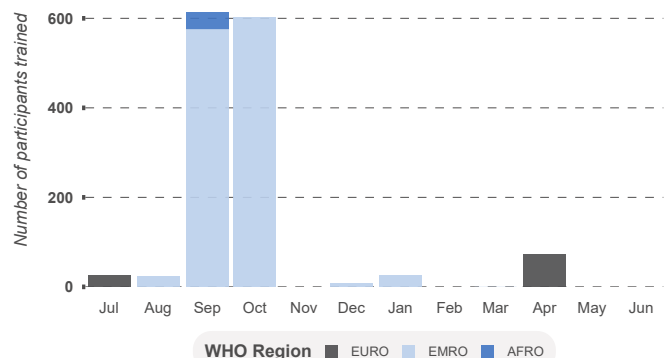

In the last 12 months, the HeRAMS platform has seen significant growth, with over 2000 new users joining. This represents a notable 18% increase in the total user community, bringing the cumulative number of registered users to over 13000.

CAPACITY BUILDING

Over the last 12 months, a total of 15 training events were conducted across 9 countries, reaching close to 1400 participants. Through a mix of on-site, online, and hybrid formats, key informants were trained in the HeRAMS methodology, equipping them to contribute and use data effectively.

Number of participants trained by month and WHO region
