### Informational Memorandum 13-07

TO: Colorado Fire and Emergency Services  
FROM: Colorado Division of Fire Prevention & Control, Training and Certification  
DATE: November 27, 2013  
RE: Renewal Process – All Levels Requiring JPR Completion

---

Within the criteria of the renewal process for all certifications that require completion of JPRs, there is currently a requirement for incumbents to “*complete 100% of the JPRs including all subsections*”. At the recommendation of the Colorado Fire Training Officer’s Association and the Governor’s Colorado Fire Service Training and Certification Advisory Board, this requirement will be changed to allow the development of training scenarios to better allow the completion of the JPR performance requirements. This will allow training scenarios to tie many of the task-level JPRs together to develop more fluid evolutions on the training ground. This policy will go into effect for all certifications requiring completion of 100% of the JPRs **expiring on or after July 1, 2014**. The CDFPC Policy and Procedure Manual will reflect this change as shown below:

#### Old Language:

The applicant has successfully demonstrated proficiency in all of the skill evolutions identified for the level of certification by having been observed, tested and evaluated by a person certified at or above this level completing 100% of all JPRs including all subsections;

#### New Language:

The applicant has successfully demonstrated proficiency in all of the skill evolutions identified for the level of certification by having been observed, tested and evaluated by a person certified at or above this level completing 100% of all JPRs. **The applicant must meet the performance outcome in each JPR;**
