

# KIDS HAVE STROKES

*Did you know?*

Babies can have strokes, even before they are born.

The cause of most strokes in babies is unknown

1 in 2800 babies is a stroke survivor

*Watch for*  
Favoring one hand  
Holding other hand in a fist  
Weakness on one side  
Delays in rolling, sitting, crawling, and walking

Early Treatment is Key

*Ask For Help*  
Pediatrician  
Pediatric Neurologist  
State Early Intervention Programs

Remember! No righty/lefty before 18 months of age
