

A young boy with short dark hair, wearing a grey and white patterned cardigan over a white t-shirt with a green and blue graphic. He is holding a white marker with red dots and looking to the right with a slight smile. The background consists of blue stadium bleachers.

2018 Annual Report

Welcome

Executive Message

It has been another year of tremendous growth for Community Council of Idaho. Our goal has always been to enrich the lives of farm working families and low-income individuals through life-changing programs and experiences that help them navigate economic and social barriers.

The communities we serve get stronger each year thanks to our devoted staff members, Board of Trustees, partners, sponsors, and volunteers. Building healthier communities is our priority.

Many significant moments occurred in 2018 and we are thrilled to reflect on all of them with you. Our annual report includes statistics and stories that showcase our involvement across the state.

A sincere thank you to those who support our mission. We invite you to review our 2018 Annual Report.

Enrique Rivera
Board of Trustees President

Irma Morin
Chief Executive Officer

Mission

To strengthen families in our communities by offering opportunities in education, health, housing, employment, and legal services.

Vision

Preserving families, renewing lives.

Jorge Vazquez, right, HEP Instructor for the Employment & Training Department, receiving his 5-year Longevity Award in 2018. He says "I love working for Community Council of Idaho because of the positive impact we make to the families we assist. I love seeing their smile when they pass a test, or graduate getting their GED and know that all their hard work is well worth it".

Year-End Review

Familias Unidas Goes Full-Time

In July 2018, Familias Unidas Immigration Legal Services transitioned from offering part-time services to full-time services. This was a major milestone for the program and its clients. With new hours and an extra caseworker added to the team in 2018, Familias Unidas was able to help even more people achieve their citizenship goals. The program also began partnering with CC Idaho's Community Resource Centers across the state to offer consultations via Skype for easier access to legal services for their clients.

Idaho Dairymen's Association Donates \$60,000

In early November, the Idaho Dairymen's Association (IDA) government affairs director Bob Naerebout and CEO Rick Naerebout presented a \$60,000 check to Familias Unidas. CC Idaho and IDA will partner to provide the Idaho Dairymen's Association with vouchers for free consultations and a 5% discount on the fees for dairy workers. CC Idaho anticipates this to become a strong and long-lasting partnership.

New Partnership

EIRMC is proud to present our Inaugural Residency Class of 2018!

 Eber Wright	 Brian Sneek	 Reema Singh	 Usman Khan	 Gerald Cox
 Asma Rashid	 Mehboob Rehan	 Ahmed Mahmood	 Cristina Gabutti	 Paul Stanford

Make sure to give our newest EIRMC members a warm welcome!

In November 2018, Community Family Clinic partnered with Eastern Idaho Regional Medical Center (EIRMC) residency program. EIRMC residents are now providing medical services at Community Family Clinic. The resident team practices under the direct supervision of Dr. Leland Krantz MD (Internal Medicine), Dr. Alan Avondet MD (internal medicine and nephrology), and Dr. Jaren Blake MD (family medicine). Currently, the residents see patients Tuesdays, Wednesdays, and Fridays at CFC. It is a win for Idaho Falls to have the residents providing services. It has expanded the clinic's capacity to serve more patients, have more appointments available (usually within a week), and more walk-in

slots are open. The entire Southeastern Idaho community benefits from our partnership with EIRMC residency program. Thank you, EIRMC!

Funding for Revitalization Project

In late November 2018, CC Idaho received official notice that the revitalization project at El Milagro in Twin Falls was selected for the Low-Income Housing Tax Credits (LIHTC) for the construction of 60 units of affordable housing. This is Phase I of the Master Plan which has an estimated cost of \$10 Million. There's still a lot of work to be done in Twin Falls. CC Idaho plans to build relationships, form allies and begin a capital campaign for the success of this entire project.

Migrant & Seasonal Head Start

Nancy and Luis' experience with MSHS

Photographed above is Nancy and Luis with their two children during a Migrant Parent Meeting.

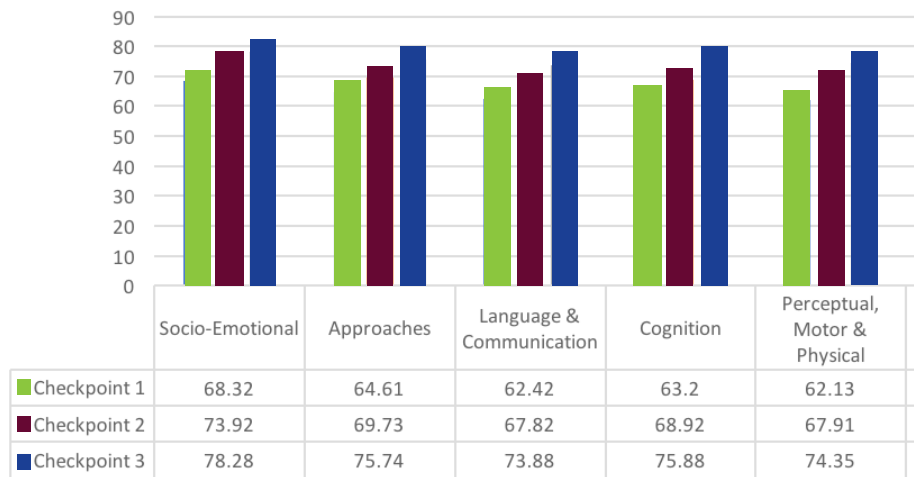

Their son, Luis Angel, who is now 5 years old, has attended La Adelita Head Start Center in Caldwell since he was 6 months old. "He learned how to crawl and walk there", says his mother, Nancy. They described the center as more than a school. "When we don't have food, they give us food. They help us read our mail when we don't understand it. They are family".

(translated from Spanish)

Their daughter Monique now attends La Adelita as well.

Migrant & Seasonal Head Start

Fatherhood Engagement at MSHS

Fatherhood engagement in a child's life is very important. Nearly 70% of families enrolled in our Migrant & Seasonal Head Start program have a father figure in the household. We encourage their participation in the program by offering the following activities:

Parenting education workshops:

31% of fathers engaged in these workshops.

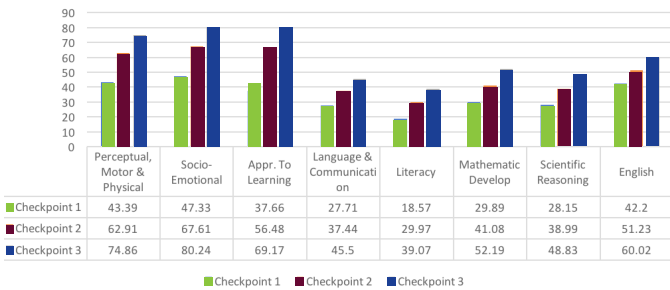

Family goal setting:

37% of fathers engaged in this activity.

Involvement in development experiences such as parent-teacher conferences:

55% of fathers engaged in these experiences.

PY 2018 State Preschool Outcomes

Continuous Healthcare

With proper education, awareness, and guidance, 100% of children had access to a pediatric medical home, A.K.A your go-to pediatrician. Before enrolling in the program, there were 36 children without a medical home. The benefits of a medical home are increased quality of care, improved health outcomes, decreased unmet medical needs, and reduction in health care costs.

Immunizations

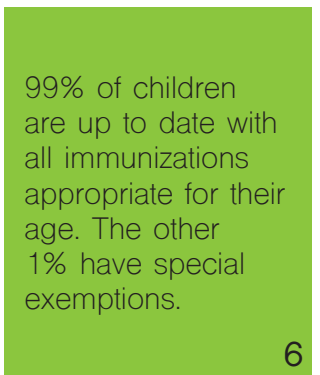

At the beginning of the program year, only 12% of children were up-to-date with Idaho's EPSDT schedule for age-appropriate preventative and primary healthcare. By the end of the program year, 95% of children were up-to-date. The Idaho EPSDT Schedule is Medicaid's comprehensive and preventative child health program. It helps track hearing, vision, immunizations, and more.

79% of families received parenting education during the program year.

58% of families received health education during the program year.

99% of children are up to date with all immunizations appropriate for their age. The other 1% have special exemptions.

Bright Futures

Stephanie's Experience with Bright Futures

Photographed above is Stephanie Drechsel with her two sons, Karlyle and Lugh at Bright Futures Daddy Daughter/Mommy Son Dance.

Her younger son, Karlyle, who is now nearly 3 years old, has attended Genesis since he was 3 months old. Stephanie has noticed "there's more structure" since the partnership with Genesis was formed, but "the love is still the same".

Fatherhood Engagement at Bright Futures

Fatherhood engagement is very important at the Bright Futures Early Head Start Childcare Partnership Program. In 2018, one of the children's fathers built a raised garden bed and brought soil and fertilizer. Another father donated plants for the kids at the Early Head Start Center, Genesis Preschool and Daycare. Now they have their very own veggie garden. The raised garden bed idea was

inspired by the fatherhood representative. Teachers have incorporated this project into their classrooms by reading stories about how different vegetables and fruits grow (up, down and around). They even made plans to prepare a salad or other meals with what they harvested from this garden to invite their parents to eat it with them.

Familias Unidas Immigration Legal Services

Familias Unidas Immigration Legal Services is essential to our immigrant population in Idaho as it offers our clients better employment opportunities, a drivers license, and protection from deportation. It also gives them the opportunity to continue higher education, the right to vote for the first time, and a sense of belonging to a country that they have been a part of for so many years.

Jesus' Experience with Familias Unidas

[Familias Unidas staff] were very helpful. Very professional. Very knowledgeable. I needed a lot of assistance understanding the paperwork that was needed to be submitted to immigration and also to understand how the process works. [Thanks to their help] it actually turned out to be easier than what I thought it was going to be like. I don't have the words to say how much joy I have. We are so close to finishing the process and being able to be [with my] family.

-Jose de Jesus Valdovinos

Familias Unidas Pricing

Our fees compared to a private immigration attorney are considerably lower. For example, our DACA fee is 50 % lower than a private attorney, Family Petition fees are 58% lower, and to become a citizen, the fee is 60% lower. We also offer Citizenship Classes for free. We believe money should not be a barrier to achieving one's citizenship goals.

National Farmworker Jobs Program

The National Farmworker Jobs Program (NFJP) educates and trains eligible agricultural workers in a fiscally responsible way, for jobs to meet employers' demands. In the current economic climate, migratory and seasonal agricultural workers are among the nation's most vulnerable job seekers, many individuals bring home just \$15,000 annually.

According to the U.S. Department of Labor, the NFJP continues to be one of the most successful federal job training programs. In the department's most recent Workforce System Results publication, the NFJP exceeds all the major goals established by DOL. CC Idaho continues to exceed DOL common measures standards by placing more than 85 percent of program participants in good jobs, and achieving an employment retention rate of 95 percent, with annual earnings of \$22,942.

Maria's Experience with NFJP

In order to provide for her children, Maria J. worked in the fields during the summer while she attended school. An internship was required during her senior year of college...thus she was forced to quit her full-time job. She came to CC Idaho for assistance. We assisted her with financial aid, gas vouchers, coats, toys, and Thanksgiving dinners. Maria graduated from Boise State University an entire semester early with a bachelor's degree in Psychology. Shortly after, she was hired full-time in a mental health facility where she is currently making \$17 an hour. She says that her success

would not have been possible if it weren't for all of the assistance that she received from CC Idaho.

Total Participants: 274

YouthBuild

Dylan's Experience with YouthBuild

Dylan's problems started at the age of 15. His grades were dropping, he was being bullied at school and at times he felt like his parents just didn't understand. By the age of 16, Dylan had accumulated 4 criminal charges and was well known by the school's resource officer. At 17 years old he dropped out of school and didn't care much about his future. Then one day he resorted to the unthinkable. All Dylan can remember from that dreadful day is two things; first is his mom tugging at his arms

and yelling for his dad to come upstairs. Second is the belt around his neck with the feeling of depression and lost hope. He really can't say what lead him to think of attempting suicide, but he is sure glad he has a loving family who checked on him that day. After that incident, Dylan was checked into a hospital and when he was released he found an additional family with the YouthBuild program. Today he is really happy to be alive and hopeful for every breath he takes. When Dylan joined YouthBuild, he had hope and a desire to succeed. By the time Dylan exited YouthBuild, he had completed many workshops on employment such as learning how to create a successful resume. He also participated in financial literacy training from our local banks, dressing for success, public speaking, mock interviews, volunteering at community events and was able to experience what it's like to give back. Dylan also graduated with his High School Equivalency Certificate, Home Builders Institute Certificate and was Vice President of his class. Once Dylan graduated, he didn't stop there. Dylan enrolled into an apprentice program and by the age of 21, he will be one of the youngest plumbing journeyman in Twin Falls, Idaho. He has a full-time job by day and attends college by night, all while holding a B average.

Pablo's Experience with HEP

I've seen and learned that it's never too late to study and move forward with your dreams. Now my next step is to obtain higher wages and better employment so that I can give my family a better future. Once I obtain that goal, I'll think about getting a tech career so that I keep surpassing my goals and giving my family more.

I'm so grateful with the HEP program and with the people that have helped me achieve my goal of obtaining my GED. Thank you so much Community Council of Idaho for giving me the opportunity to keep studying.

- Pablo S. (translated from Spanish)

Community Services Block Grant

The Community Services Block Grant provides supportive services and activities for individuals with low incomes that alleviate the causes and conditions of poverty in Idaho communities. Community Council of Idaho provides services and activities addressing employment, education, better use of available income, housing, nutrition, emergency services, and/or health. Our Employment and Training Programs often work jointly to assist farmworkers and low-income families in furthering self-sufficiency by increasing capacity in job skills and income.

Kacie's Experience with Housing

Kacie Davies has lived at El Milagro Housing for nearly 6 years with her husband and young son. Her favorite thing about living at El Milagro is the feeling of security. She said, "I've never been treated as well as I am treated here". One instance that Kacie is grateful for is when she had an emergency repair situation at her apartment. "I got home and smelled something strange. I called Tito [the housing manager] and he dropped everything he was doing immediately to check out what was wrong. It was late in the evening, yet Tito and his team fixed everything that same day. At other places I've lived, they hardly even answered the phones".

Dave's Experience with CFC Health Insurance Enrollment Program

Dave McGrath received assistance through Community Family Clinic's free counseling for Health Insurance Enrollment. Ann McRill, the certified Health Enrollment Counselor, helped Dave with an appeal that included all necessary information to get retroactive coverage. Dave said "all of this [assistance] came just in time because I was diagnosed with testicular cancer. The total cost of surgery, chemo and specialist care is north of \$330,000. The counseling help I received from Ann McRill at Community Family Clinic literally saved the farm. We would have otherwise been financially devastated and probably would have become that statistic in the U.S. that goes bankrupt due to one health emergency".

Dave's medical costs were covered under his new insurance plan and he is now cancer free.

Events

Participant Ivan Hernandez attempting the T-Rex challenge at our 33rd Annual Hispanic Scholarship Golf Tournament. Attendees of this tournament helped raise enough money to give 9 students \$1,000 to achieve their educational goals.

Community Council of Idaho donated 100 turkeys and food boxes during this year's Turkey Drive.

Community Council of Idaho's Board President, Enrique Rivera (right) during the 2nd Annual Gala presenting the award for Advocate of the Year to Jennifer Martinez from the Idaho Coalition Against Sexual & Domestic Violence. This gala raises funds for our immigration program. Currently, the immigration program has no state or federal funding, therefore this annual gala plays a huge role in its funding.

With the help of our friends in the farmworker advocacy community, we helped host AgroFiesta – an event to show appreciation to farmworkers in the Treasure Valley and surrounding areas. It was a free event with food, entertainment, giveaways, activities, and health services. Photographed above is the planning committee.

El Milagro in Twin Falls hosted a Beautification Day to bring the community together while cleaning up their community.

CC Idaho hosted a movie screening of Dolores Huerta followed by a panel discussion centered around farmworker issues.

Community Family Clinic hosted a free Wellness Fair to provide crucial resources to the most vulnerable members of our community. Our objective is to educate, inform, and provide families with tools that will lead to healthier lifestyles.

With the help of a few dedicated partners, we hosted the 6th Annual Hispanic Healthcare & Technology Careers Conference. Each speaker is of Latino descent who shared their story of how they landed in the STEM fields despite their struggles. Over 400 students attended this year.

Community Partners of the Year

East Region

Lynn Jorgensen accepting the 2018 East Region Distinguished Partner of the Year Award on behalf of Sage Tech Truck Driving School in Blackfoot, Idaho. Lynn has been the director of the school for over 10 years. Many of our qualifying clients are unable to afford the pricing set at Sage, therefore Lynn has worked with CC Idaho's Employment & Training (E&T) department to offer our clients a lower cost so that they can afford training at Sage. "Lynn always works with our budget, and a lot of times he even works with our clients' limited English", says Rocio Rojo, E&T Counselor. He has translated a lot of his CDL practice tests to Spanish to meet the needs of CC Idaho clients. You can't find Spanish CDL books at the local DMV, but you can find them with Lynn at Sage. He even developed a free website for students to access the practice test. We are so proud to have Lynn as a friend and business partner.

Central Region

Ken Robinette accepting Central Region's 2018 Distinguished Partner of the Year Award on behalf of South Central Community Action Partnership (SCAAP). SCAAP alongside their Self-Help Housing program has provided CC Idaho and its YouthBuild program several worksite locations for participants. The worksites include power tools, construction equipment, safety training, leadership skill development, and a chance for the participants to give back to their community. This partnership has generated 69 Home Builder Certifications within the YouthBuild program, along with helping families and individuals fulfill their dreams of becoming homeowners. We've had this partnership for about 4 years, but Ken has been part of CC Idaho's journey for over 25 years. CC Idaho extends a heartfelt thank you to Ken Robinette, Chad Whitaker, and Kyle Myers for their dedication to helping CC Idaho serve its mission.

West Region

Ileana Cordova accepting the West Region Distinguished Partner of the Year Award on behalf of Boise State University High School Equivalency Program (HEP). CC Idaho staff at Employment & Training (E&T) have partnered with Ileana for the last 10 years. Anytime our staff has a client who is need of their GED, Ileana makes herself available almost immediately. Both programs help each other recruit clients in need. Ileana also plays an instrumental role in coordinating our Transition Team Meetings which are composed of multiple representatives from organizations who serve the farmworker community. Each year she also helps us with our coat distribution for needy families in the area. Ileana is a major advocate for farmworkers. "Ileana is very generous, open, and willing to assist anyone here at CC Idaho with recruitment, new ideas, and upcoming events", says Ercilia Gomez, E&T Counselor. We are lucky to work alongside Ileana Cordova.
