## Highmark Will Implement a Prepayment Edit for Required Use of Drug Wastage Modifiers: JW And JZ

Highmark follows industry standards — consistent with the Centers for Medicare and Medicaid Services (CMS) approach — requiring the use of the drug wastage modifiers JW and JZ.

We previously communicated this coding requirement on **Jan. 1, 2023**, when the **<u>Reimbursement</u> <u>Policy (RP)-003 Convenience Kits, Drug and Biological Wastage</u> was updated. Drug wastage modifiers should be present on all applicable claims, as this policy noted. These modifiers are as follows:** 

- JW Drug / biological amount discarded / not administered to any patient.
- JZ Zero drug amount discarded / not administered to any patient.

**Effective July 28, 2024**, Highmark will require the appropriate modifier be appended to claims billed for drug wastage and enforce this requirement through a prepayment edit. If the appropriate modifier is <u>not</u> present, the claim will reject, indicating the code wasn't submitted with the required modifier.
