Special Bulletin

For professional and facility providers

June 24, 2024

Prior Authorization Changes Occurring on Sept. 30, 2024

Effective Sept. 30, 2024, nearly 100 codes will be added to the prior authorization list, including codes related to the following procedures and/or treatments:

- Implantable defibrillator
- Insertion of new or replacement pacemaker; Removal of permanent pacemaker
- Mastectomy
- Nasal/sinus endoscopy
- Rhinoplasty
- Prostatectomy
- Revascularization
- Tonsillectomy and adenoidectomy
- Transcatheter aortic valve replacement

Codes to be Added to Prior Authorization List

The codes below will not appear on the Prior Authorization list on the Provider Resource Center until the effective date of **Sept. 30, 2024**.

Procedure Code	Description
19301	Mastectomy, partial (e.g., lumpectomy, tylectomy, quadrantectomy, segmentectomy);
19303	Mastectomy, simple, complete
30130	Excision inferior turbinate, partial or complete, any method
30460	Rhinoplasty for nasal deformity secondary to congenital cleft lip and/or palate, including columellar lengthening; tip only
30462	Rhinoplasty for nasal deformity secondary to congenital cleft lip and/or palate, including columellar lengthening; tip, septum, osteotomies
30630	Repair nasal septal perforations
31253	Nasal/sinus endoscopy, surgical with ethmoidectomy; total (anterior and posterior), including frontal sinus exploration, with removal of tissue from frontal sinus, when performed
31254	Nasal/sinus endoscopy, surgical with ethmoidectomy; partial (anterior)
31257	Nasal/sinus endoscopy, surgical with ethmoidectomy; total (anterior and posterior), including sphenoidotomy
31259	Nasal/sinus endoscopy, surgical with ethmoidectomy; total (anterior and posterior), including sphenoidotomy, with removal of tissue from the sphenoid sinus
31295	Nasal/sinus endoscopy, surgical, with dilation (e.g., balloon dilation); maxillary sinus ostium, transnasal or via canine fossa
33206	Insertion of new or replacement of permanent pacemaker with transvenous electrode(s); atrial

	Insertion of new or replacement of permanent passmaker with transvences alectrode(s)
33207	Insertion of new or replacement of permanent pacemaker with transvenous electrode(s); ventricular
33208	Insertion of new or replacement of permanent pacemaker with transvenous electrode(s); atrial and ventricular
33214	Upgrade of implanted pacemaker system, conversion of single chamber system to dual chamber system (includes removal of previously placed pulse generator, testing of existing load, insertion of pay load, ins
33216	existing lead, insertion of new lead, insertion of new pulse generator) Insertion of a single transvenous electrode, permanent pacemaker or implantable defibrillator
33217	Insertion of 2 transvenous electrodes, permanent pacemaker or implantable defibrillator
33224	Insertion of pacing electrode, cardiac venous system, for left ventricular pacing, with attachment to previously placed pacemaker or implantable defibrillator pulse generator (including revision of pocket, removal, insertion, and/or replacement of existing generator)
33227	Removal of permanent pacemaker pulse generator with replacement of pacemaker pulse generator; single lead system
33228	Removal of permanent pacemaker pulse generator with replacement of pacemaker pulse generator; dual lead system
33229	Removal of permanent pacemaker pulse generator with replacement of pacemaker pulse generator; multiple lead system
33231	Insertion of implantable defibrillator pulse generator only; with existing multiple leads
33240	Insertion of implantable defibrillator pulse generator only; with existing single lead
33249	Insertion or replacement of permanent implantable defibrillator system with transvenous lead(s), single or dual chamber
33262	Removal of implantable defibrillator pulse generator with replacement of implantable defibrillator pulse generator; single lead system
33263	Removal of implantable defibrillator pulse generator with replacement of implantable defibrillator pulse generator; dual lead system
33264	Removal of implantable defibrillator pulse generator with replacement of implantable defibrillator pulse generator; multiple lead system
33270	Insertion or replacement of permanent subcutaneous implantable defibrillator system, with subcutaneous electrode, including defibrillation threshold evaluation, induction of arrhythmia, evaluation of sensing for arrhythmia termination, and programming or reprogramming of sensing or therapeutic parameters, when performed
33273	Repositioning of previously implanted subcutaneous implantable defibrillator electrode
33340	Percutaneous transcatheter closure of the left atrial appendage with endocardial implant, including fluoroscopy, transseptal puncture, catheter placement(s), left atrial angiography, left atrial appendage angiography, when performed, and radiological supervision and interpretation
33361	Transcatheter aortic valve replacement (tavr/tavi) with prosthetic valve; percutaneous femoral artery approach
33362	Transcatheter aortic valve replacement (tavr/tavi) with prosthetic valve; open femoral artery approach
33363	Transcatheter aortic valve replacement (tavr/tavi) with prosthetic valve; open axillary artery approach
33365	Transcatheter aortic valve replacement (tavr/tavi) with prosthetic valve; transaortic approach (e.g., median sternotomy, mediastinotomy)
33366	Transcatheter aortic valve replacement (tavr/tavi) with prosthetic valve; transapical exposure (e.g., left thoracotomy)
33418	Transcatheter mitral valve repair, percutaneous approach, including transseptal puncture when performed; initial prosthesis
33875	Descending thoracic aorta graft, with or without bypass
33877	Repair of thoracoabdominal aortic aneurysm with graft, with or without cardiopulmonary bypass
33880	Endovascular repair of descending thoracic aorta (e.g., aneurysm, pseudoaneurysm, dissection, penetrating ulcer, intramural hematoma, or traumatic disruption); involving coverage of left subclavian artery origin, initial endoprosthesis plus descending thoracic aortic extension(s), if required, to level of celiac artery origin
33881	Endovascular repair of descending thoracic aorta (e.g., aneurysm, pseudoaneurysm, dissection, penetrating ulcer, intramural hematoma, or traumatic disruption); not involving

	coverage of left subclavian artery origin, initial endoprosthesis plus descending thoracic aortic extension(s), if required, to level of celiac artery origin
33886	Placement of distal extension prosthesis(s) delayed after endovascular repair of
	descending thoracic aorta
	Endovascular repair of infrarenal aorta by deployment of an aorto-aortic tube endograft
	including pre-procedure sizing and device selection, all nonselective catheterization(s), all associated radiological supervision and interpretation, all endographic extension(s)
34701	placed in the aorta from the level of the renal arteries to the aortic bifurcation, and all
	angioplasty/stenting performed from the level of the renal arteries to the aortic bifurcation;
	for other than rupture (e.g., for aneurysm, pseudoaneurysm, dissection, penetrating
	ulcer)
	Endovascular repair of infrarenal aorta and/or iliac artery(ies) by deployment of an aorto- uni-iliac endograft including pre-procedure sizing and device selection, all nonselective
	catheterization(s), all associated radiological supervision and interpretation, all endograft
34703	extension(s) placed in the aorta from the level of the renal arteries to the iliac bifurcation,
	and all angioplasty/stenting performed from the level of the renal arteries to the iliac
	bifurcation; for other than rupture (e.g., for aneurysm, pseudoaneurysm, dissection,
	penetrating ulcer) Endeversuler repair of infrarenal parts and/or ilian artery/ion) by deployment of an aarts
	Endovascular repair of infrarenal aorta and/or iliac artery(ies) by deployment of an aorto- uni-iliac endograft including pre-procedure sizing and device selection, all nonselective
	catheterization(s), all associated radiological supervision and interpretation, all endograft
34704	extension(s) placed in the aorta from the level of the renal arteries to the iliac bifurcation,
04704	and all angioplasty/stenting performed from the level of the renal arteries to the iliac
	bifurcation; for rupture including temporary aortic and/or iliac balloon occlusion, when performed (e.g., for aneurysm, pseudoaneurysm, dissection, penetrating ulcer, traumatic
	disruption)
	Endovascular repair of infrarenal aorta and/or iliac artery(ies) by deployment of an aorto-
	bi-iliac endograft including pre-procedure sizing and device selection, all nonselective
	catheterization(s), all associated radiological supervision and interpretation, all endograft
34705	extension(s) placed in the aorta from the level of the renal arteries to the iliac bifurcation,
	and all angioplasty/stenting performed from the level of the renal arteries to the iliac bifurcation; for other than rupture (e.g., for aneurysm, pseudoaneurysm, dissection,
	penetrating ulcer)
	Endovascular repair of infrarenal aorta and/or iliac artery(ies) by deployment of an aorto-
	bi-iliac endograft including pre-procedure sizing and device selection, all nonselective
	catheterization(s), all associated radiological supervision and interpretation, all endograft
34706	extension(s) placed in the aorta from the level of the renal arteries to the iliac bifurcation, and all angioplasty/stenting performed from the level of the renal arteries to the iliac
	bifurcation; for rupture including temporary aortic and/or iliac balloon occlusion, when
	performed (e.g., for aneurysm, pseudoaneurysm, dissection, penetrating ulcer, traumatic
	disruption)
34830	Open repair of infrarenal aortic aneurysm or dissection, plus repair of associated arterial
	trauma, following unsuccessful endovascular repair; tube prosthesis Open repair of infrarenal aortic aneurysm or dissection, plus repair of associated arterial
34831	trauma, following unsuccessful endovascular repair; aorto-bi-iliac prosthesis
	Endovascular repair of visceral aorta (e.g., aneurysm, pseudoaneurysm, dissection,
34841	penetrating ulcer, intramural hematoma, or traumatic disruption) by deployment of a
	fenestrated visceral aortic endograft and all associated radiological supervision and
	interpretation, including target zone angioplasty, when performed; including one visceral artery endoprosthesis (superior mesenteric, celiac or renal artery)
34844	Endovascular repair of visceral aorta (e.g., aneurysm, pseudoaneurysm, dissection,
	penetrating ulcer, intramural hematoma, or traumatic disruption) by deployment of a
	fenestrated visceral aortic endograft and all associated radiological supervision and
	interpretation, including target zone angioplasty, when performed; including four or more
	visceral artery endoprostheses (superior mesenteric, celiac and/or renal artery[ies]) Endovascular repair of visceral aorta and infrarenal abdominal aorta (e.g., aneurysm,
	pseudoaneurysm, dissection, penetrating ulcer, intramural hematoma, or traumatic
	disruption) with a fenestrated visceral aortic endograft and concomitant unibody or
34846	modular infrarenal aortic endograft and all associated radiological supervision and
	interpretation, including target zone angioplasty, when performed; including two visceral
	artery endoprostheses (superior mesenteric, celiac and/or renal artery[ies])

Endovascular repair of visceral aorta and infrarenal abdominal aorta (e.g., aneurysm, pseudoaneurysm, dissection, penetrating ulder, intramural hematoma, or traumatic disruption) with a fenestrated visceral aortic endograft and concomitant unibody or modular infarenal aortic endograft and all associated radiological supervision and interpretation, including target zone angioplasty, when performed; including three visceral artery endoprostheses (superior mesenteric, cellace and/or renal artery[les]). 35301 Transcatheter placement of intravascular stent(s), cervical carotid, vertebral, subclavian, by neck incision Transcatheter placement of intravascular stent(s), cervical carotid artery, open or percutaneous, including angioplasty, when performed, and radiological supervision and interpretation; without distale embolic protection Transcatheter placement of intravascular stent(s), cervical carotid artery, open or percutaneous, including angioplasty, when performed, and radiological supervision and interpretation; without distale embolic protection Transcatheter placement of intravascular stent(s), intrathoracic common carotid artery or innominate artery by retrograde treatment, open ipsalateral cervical carotid artery or innominate artery by retrograde treatment, open ipsalateral cervical carotid artery or innominate artery by retrograde treatment, open ipsalateral cervical carotid artery exposure, including angioplasty, when performed, and radiological supervision and interpretation Transcatheter placement of intravascular stent(s), intrathoracic common carotid artery or innominate artery, open or percutaneous antegrade approach, including angioplasty, when performed, and radiological supervision and interpretation Revascularization, endovascular, open or percutaneous, femoral, popiliteal artery(ies), unitateral, with transluminal astent placement(s), includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popiliteal artery(ies), unitate		
Thromboendarterectomy, including patch graft, if performed; carotid, vertebral, subclavian, by neck incision Transcatheter placement of intravascular stent(s), cervical carotid artery, open or percutaneous, including angioplasty, when performed, and radiological supervision and interpretation; with distal embolic protection Transcatheter placement of intravascular stent(s), cervical carotid artery, open or percutaneous, including angioplasty, when performed, and radiological supervision and interpretation; without distal embolic protection Transcatheter placement of intravascular stent(s), intrathoracic common carotid artery or innominate artery by retrograde treatment, open ipsilateral cervical carotid artery exposure, including angioplasty, when performed, and radiological supervision and interpretation Transcatheter placement of intravascular stent(s), intrathoracic common carotid artery exposure, including angioplasty, when performed, and radiological supervision and interpretation Revascularization, endovascular, open or percutaneous, illac artery, unilateral, initial vessel, with transluminal stent placement(s), includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popiliteal artery(ies), unilateral, with transluminal angioplasty Revascularization, endovascular, open or percutaneous, femoral, popiliteal artery(ies), unilateral, with transluminal stent placement(s), includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popiliteal artery(ies), unilateral, with transluminal stent placement(s), includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popiliteal artery(ies), unilateral, with transluminal stent placement(s), includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popiliteal artery(ies), unilateral, with translumina	34847	pseudoaneurysm, dissection, penetrating ulcer, intramural hematoma, or traumatic disruption) with a fenestrated visceral aortic endograft and concomitant unibody or modular infrarenal aortic endograft and all associated radiological supervision and interpretation, including target zone angioplasty, when performed; including three visceral
Transcatheter placement of intravascular stent(s), cervical carotid artery, open or percutaneous, including angioplasty, when performed, and radiological supervision and interpretation; with distal embolic protection Transcatheter placement of intravascular stent(s), cervical carotid artery, open or percutaneous, including angioplasty, when performed, and radiological supervision and interpretation; without distal embolic protection Transcatheter placement of intravascular stent(s), intrathoracic common carotid artery or innominate artery by retrograde treatment, open ipsilateral cervical carotid artery exposure, including angioplasty, when performed, and radiological supervision and interpretation Transcatheter placement of intravascular stent(s), intrathoracic common carotid artery or innominate artery, open or percutaneous antegrade approach, including angioplasty, when performed, and radiological supervision and interpretation Revascularization, endovascular, open or percutaneous, lilica artery, unilateral, initial vessel; with transluminal stent placement(s), includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popiliteal artery(ies), unilateral; with transluminal angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popiliteal artery(ies), unilateral; with transluminal stent placement(s), includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popiliteal artery(ies), unilateral; with transluminal stent placement(s) and atherectomy, includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, with transluminal stent placement(s) and atherectomy, includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, with transluminal	35301	Thromboendarterectomy, including patch graft, if performed; carotid, vertebral,
Transcatheter placement of intravascular stent(s), cervical carotid artery, open or percutaneous, including angioplasty, when performed, and radiological supervision and interpretation; without distal embolic protection Transcatheter placement of intravascular stent(s), intrathoracic common carotid artery or innominate artery by retrograde treatment, open ipsilateral cervical carotid artery or exposure, including angioplasty, when performed, and radiological supervision and interpretation Transcatheter placement of intravascular stent(s), intrathoracic common carotid artery or innominate artery, open or percutaneous antegrade approach, including angioplasty, when performed, and radiological supervision and interpretation Revascularization, endovascular, open or percutaneous, literatery, unilateral, initial vessel; with transluminal stent placement(s), includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with transluminal stent placement(s), includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with transluminal stent placement(s), includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with transluminal stent placement(s), includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with tra	37215	Transcatheter placement of intravascular stent(s), cervical carotid artery, open or percutaneous, including angioplasty, when performed, and radiological supervision and
innominate artery by retrograde treatment, open ipsilateral cervical carotid artery exposure, including angioplasty, when performed, and radiological supervision and interpretation Transcatheter placement of intravascular stent(s), intrathoracic common carotid artery or artery, open or percutaneous antegrade approach, including angioplasty, when performed, and radiological supervision and interpretation Revascularization, endovascular, open or percutaneous, iliac artery, unilateral, initial vessel; with transluminal stent placement(s), includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with atherectomy, includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with transluminal stent placement(s), includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with transluminal stent placement(s) and atherectomy, includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with transluminal stent placement(s) and atherectomy, includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with atherectomy, includes angioplasty within the same vessel, when performed Vascular embolization or occlusion, inclusive of all radiological supervision and interpretation, intraprocedural road-mapping, and imaging guidance necessary to complete t	37216	Transcatheter placement of intravascular stent(s), cervical carotid artery, open or percutaneous, including angioplasty, when performed, and radiological supervision and
innominate artery, open or percutaneous antegrade approach, including angioplasty, when performed, and radiological supervision and interpretation Revascularization, endovascular, open or percutaneous, liliac artery, unilateral, initial vessel; with transluminal stent placement(s), includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with atherectomy, includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with atherectomy, includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with transluminal stent placement(s), includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with transluminal stent placement(s) and atherectomy, includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with atherectomy, includes angioplasty within the same vessel, when performed 37229 37229 48230 48240 48251 5825 48261 5836 Adenoidectomy, perineal radicali, inclusive of all radiological supervision and interpretation, intraprocedural road-mapping, and imaging guidance necessary to complete the intervention; for tumors, organ ischemia, or infarction 42826 42836 42836 Adenoidectomy, perineal radical;	37217	innominate artery by retrograde treatment, open ipsilateral cervical carotid artery exposure, including angioplasty, when performed, and radiological supervision and
Revascularization, endovascular, open or percutaneous, iliac artery, unilateral, initial vessel; with transluminal stent placement(s), includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with atherectomy, includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with transluminal stent placement(s), includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with transluminal stent placement(s) and atherectomy, includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with atherectomy, includes angioplasty within the same vessel, when performed Vascular embolization or occlusion, inclusive of all radiological supervision and interpretation, intraprocedural road-mapping, and imaging guidance necessary to complete the intervention; for tumors, organ ischemia, or infarction 42821 Tonsillectomy, primary; or secondary; age 12 or over 42830 Adenoidectomy, primary; age 12 or over 42831 Adenoidectomy, perineal radical; Prostatectomy, perineal radical; with lymph node biopsy(s) (limited pelvic lymphadenectomy) Prostatectomy, retropubic radical, with or without nerve sparing; w	37218	innominate artery, open or percutaneous antegrade approach, including angioplasty,
unilateral; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with atherectomy, includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with transluminal stent placement(s), includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with transluminal stent placement(s) and atherectomy, includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with atherectomy, includes angioplasty within the same vessel, when performed Vascular embolization or occlusion, inclusive of all radiological supervision and interpretation, intraprocedural road-mapping, and imaging guidance necessary to complete the intervention; for tumors, organ ischemia, or infarction 42821 Tonsillectomy and adenoidectomy; age 12 or over 42826 Tonsillectomy, primary or secondary; age 12 or over 42830 Adenoidectomy, primary; ounger than age 12 42831 Adenoidectomy, primary; ounger than age 12 42835 Adenoidectomy, secondary; younger than age 12 42836 Adenoidectomy, secondary; younger than age 12 42837 Prostatectomy, perineal radical; Prostatectomy, perineal radical; Prostatectomy, perineal radical; with lymph node biopsy(s) (limited pelvic lymphadenectomy) Prostatectomy, retropubic radical, with or without nerve sparing; with lymph node biopsy(s) (limited pelvic lymphadenectomy) Prostatectomy, retropubic radical, with or without nerve sparing; with plateral pelvic	37221	Revascularization, endovascular, open or percutaneous, iliac artery, unilateral, initial vessel; with transluminal stent placement(s), includes angioplasty within the same vessel,
Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with atherectomy, includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with transluminal stent placement(s), includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with transluminal stent placement(s) and atherectomy, includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, tibial, peroneal artery(ies), unilateral, with atterate or percutaneous, tibial, peroneal artery(ies), unilateral, with or veresula in again and attery tibial artery (ies), unilateral, with or without nerve sparing; with lymph node biopsy(s) (limited pelvic lymphadenectomy) Prostatectomy, retropubic radical, with or without nerve sparing; with lymph node biopsy(s) (limited pelvic lymphadenectomy) Prostatectomy, retropubic	37224	
unilateral; with transluminal stent placement(s), includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with transluminal stent placement(s) and atherectomy, includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with atherectomy, includes angioplasty within the same vessel, when performed Vascular embolization or occlusion, inclusive of all radiological supervision and interpretation, intraprocedural road-mapping, and imaging guidance necessary to complete the intervention; for tumors, organ ischemia, or infarction 12821 Tonsillectomy and adenoidectomy; age 12 or over 12826 Tonsillectomy, primary or secondary; age 12 or over 12830 Adenoidectomy, primary; ounger than age 12 12831 Adenoidectomy, primary; younger than age 12 12835 Adenoidectomy, secondary; younger than age 12 12836 Adenoidectomy, secondary; age 12 or over 12836 Adenoidectomy, secondary; age 12 or over 12837 Adenoidectomy, perineal radical; with primaticus (separate procedure) 12838 Prostatectomy, perineal radical; with bilateral pelvic lymphadenectomy, including external iliac, hypogastric and obturator nodes 12842 Prostatectomy, retropubic radical, with or without nerve sparing; with lymph node biopsy(s) (limited pelvic lymphadenectomy) 12842 Prostatectomy, retropubic radical, with or without nerve sparing; with bilateral pelvic	37225	Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with atherectomy, includes angioplasty within the same vessel, when
unilateral; with transluminal stent placement(s) and atherectomy, includes angioplasty within the same vessel, when performed Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with atherectomy, includes angioplasty within the same vessel, when performed Vascular embolization or occlusion, inclusive of all radiological supervision and interpretation, intraprocedural road-mapping, and imaging guidance necessary to complete the intervention; for tumors, organ ischemia, or infarction Tonsillectomy and adenoidectomy; age 12 or over 42821 Tonsillectomy, primary or secondary; age 12 or over 42830 Adenoidectomy, primary; younger than age 12 42831 Adenoidectomy, primary; age 12 or over 42835 Adenoidectomy, secondary; age 12 or over 42836 Adenoidectomy, secondary; younger than age 12 42836 Adenoidectomy, secondary; age 12 or over 49250 Umbilectomy, omphalectomy, excision of umbilicus (separate procedure) 55810 Prostatectomy, perineal radical; with lymph node biopsy(s) (limited pelvic lymphadenectomy) Prostatectomy, perineal radical; with pilateral pelvic lymphadenectomy, including external iliac, hypogastric and obturator nodes 55840 Prostatectomy, retropubic radical, with or without nerve sparing; with lymph node biopsy(s) (limited pelvic lymphadenectomy) Prostatectomy, retropubic radical, with or without nerve sparing; with bilateral pelvic	37226	Revascularization, endovascular, open or percutaneous, femoral, popliteal artery(ies), unilateral; with transluminal stent placement(s), includes angioplasty within the same
initial vessel; with transluminal angioplasty Revascularization, endovascular, open or percutaneous, tibial, peroneal artery, unilateral, initial vessel; with atherectomy, includes angioplasty within the same vessel, when performed Vascular embolization or occlusion, inclusive of all radiological supervision and interpretation, intraprocedural road-mapping, and imaging guidance necessary to complete the intervention; for tumors, organ ischemia, or infarction 42821 Tonsillectomy and adenoidectomy; age 12 or over 42826 Tonsillectomy, primary; or secondary; age 12 or over 42830 Adenoidectomy, primary; younger than age 12 42831 Adenoidectomy, primary; age 12 or over 42835 Adenoidectomy, secondary; younger than age 12 42836 Adenoidectomy, secondary; age 12 or over 49250 Umbilectomy, omphalectomy, excision of umbilicus (separate procedure) 55810 Prostatectomy, perineal radical; brostatectomy, perineal radical; with lymph node biopsy(s) (limited pelvic lymphadenectomy) Frostatectomy, perineal radical; with bilateral pelvic lymphadenectomy, including external iliac, hypogastric and obturator nodes Frostatectomy, retropubic radical, with or without nerve sparing; with lymph node biopsy(s) (limited pelvic lymphadenectomy) Prostatectomy, retropubic radical, with or without nerve sparing; with bilateral pelvic lymphadenectomy) Prostatectomy, retropubic radical, with or without nerve sparing; with bilateral pelvic	37227	unilateral; with transluminal stent placement(s) and atherectomy, includes angioplasty
initial vessel; with atherectomy, includes angioplasty within the same vessel, when performed Vascular embolization or occlusion, inclusive of all radiological supervision and interpretation, intraprocedural road-mapping, and imaging guidance necessary to complete the intervention; for tumors, organ ischemia, or infarction 42821 Tonsillectomy and adenoidectomy; age 12 or over 42826 Tonsillectomy, primary or secondary; age 12 or over 42830 Adenoidectomy, primary; younger than age 12 42831 Adenoidectomy, primary; age 12 or over 42835 Adenoidectomy, secondary; younger than age 12 42836 Adenoidectomy, secondary; age 12 or over 49250 Umbilectomy, omphalectomy, excision of umbilicus (separate procedure) 55810 Prostatectomy, perineal radical; 55812 Prostatectomy, perineal radical; with lymph node biopsy(s) (limited pelvic lymphadenectomy) 55815 Prostatectomy, perineal radical; with bilateral pelvic lymphadenectomy, including external iliac, hypogastric and obturator nodes 55840 Prostatectomy, retropubic radical, with or without nerve sparing; Prostatectomy, retropubic radical, with or without nerve sparing; with lymph node biopsy(s) (limited pelvic lymphadenectomy) Prostatectomy, retropubic radical, with or without nerve sparing; with lymph node biopsy(s) (limited pelvic lymphadenectomy) Prostatectomy, retropubic radical, with or without nerve sparing; with bilateral pelvic	37228	
interpretation, intraprocedural road-mapping, and imaging guidance necessary to complete the intervention; for tumors, organ ischemia, or infarction 42821 Tonsillectomy and adenoidectomy; age 12 or over 42826 Tonsillectomy, primary or secondary; age 12 or over 42830 Adenoidectomy, primary; younger than age 12 42831 Adenoidectomy, primary; age 12 or over 42835 Adenoidectomy, secondary; younger than age 12 42836 Adenoidectomy, secondary; age 12 or over 49250 Umbilectomy, omphalectomy, excision of umbilicus (separate procedure) 55810 Prostatectomy, perineal radical; 55812 Prostatectomy, perineal radical; with lymph node biopsy(s) (limited pelvic lymphadenectomy) 55815 Prostatectomy, perineal radical; with bilateral pelvic lymphadenectomy, including external iliac, hypogastric and obturator nodes 55840 Prostatectomy, retropubic radical, with or without nerve sparing; Prostatectomy, retropubic radical, with or without nerve sparing; with lymph node biopsy(s) (limited pelvic lymphadenectomy) Prostatectomy, retropubic radical, with or without nerve sparing; with lymph node biopsy(s) (limited pelvic lymphadenectomy) Prostatectomy, retropubic radical, with or without nerve sparing; with bilateral pelvic	37229	initial vessel; with atherectomy, includes angioplasty within the same vessel, when
42826 Tonsillectomy, primary or secondary; age 12 or over 42830 Adenoidectomy, primary; younger than age 12 42831 Adenoidectomy, primary; age 12 or over 42835 Adenoidectomy, secondary; younger than age 12 42836 Adenoidectomy, secondary; age 12 or over 49250 Umbilectomy, omphalectomy, excision of umbilicus (separate procedure) 55810 Prostatectomy, perineal radical; 55812 Prostatectomy, perineal radical; with lymph node biopsy(s) (limited pelvic lymphadenectomy) 55815 Prostatectomy, perineal radical; with bilateral pelvic lymphadenectomy, including external iliac, hypogastric and obturator nodes 55840 Prostatectomy, retropubic radical, with or without nerve sparing; 55842 Prostatectomy, retropubic radical, with or without nerve sparing; with lymph node biopsy(s) (limited pelvic lymphadenectomy) Prostatectomy, retropubic radical, with or without nerve sparing; with bilateral pelvic	37243	interpretation, intraprocedural road-mapping, and imaging guidance necessary to
42826 Tonsillectomy, primary or secondary; age 12 or over 42830 Adenoidectomy, primary; younger than age 12 42831 Adenoidectomy, primary; age 12 or over 42835 Adenoidectomy, secondary; younger than age 12 42836 Adenoidectomy, secondary; age 12 or over 49250 Umbilectomy, omphalectomy, excision of umbilicus (separate procedure) 55810 Prostatectomy, perineal radical; 55812 Prostatectomy, perineal radical; with lymph node biopsy(s) (limited pelvic lymphadenectomy) 55815 Prostatectomy, perineal radical; with bilateral pelvic lymphadenectomy, including external iliac, hypogastric and obturator nodes 55840 Prostatectomy, retropubic radical, with or without nerve sparing; 55842 Prostatectomy, retropubic radical, with or without nerve sparing; with lymph node biopsy(s) (limited pelvic lymphadenectomy) Prostatectomy, retropubic radical, with or without nerve sparing; with bilateral pelvic	42821	Tonsillectomy and adenoidectomy; age 12 or over
42831 Adenoidectomy, primary; age 12 or over 42835 Adenoidectomy, secondary; younger than age 12 42836 Adenoidectomy, secondary; age 12 or over 49250 Umbilectomy, omphalectomy, excision of umbilicus (separate procedure) 55810 Prostatectomy, perineal radical; 55812 Prostatectomy, perineal radical; with lymph node biopsy(s) (limited pelvic lymphadenectomy) 55815 Prostatectomy, perineal radical; with bilateral pelvic lymphadenectomy, including external iliac, hypogastric and obturator nodes 55840 Prostatectomy, retropubic radical, with or without nerve sparing; 55842 Prostatectomy, retropubic radical, with or without nerve sparing; with lymph node biopsy(s) (limited pelvic lymphadenectomy) Frostatectomy, retropubic radical, with or without nerve sparing; with bilateral pelvic		
42835 Adenoidectomy, secondary; younger than age 12 42836 Adenoidectomy, secondary; age 12 or over 49250 Umbilectomy, omphalectomy, excision of umbilicus (separate procedure) 55810 Prostatectomy, perineal radical; 55812 Prostatectomy, perineal radical; with lymph node biopsy(s) (limited pelvic lymphadenectomy) 55815 Prostatectomy, perineal radical; with bilateral pelvic lymphadenectomy, including external iliac, hypogastric and obturator nodes 55840 Prostatectomy, retropubic radical, with or without nerve sparing; 55842 Prostatectomy, retropubic radical, with or without nerve sparing; with lymph node biopsy(s) (limited pelvic lymphadenectomy) F5845 Prostatectomy, retropubic radical, with or without nerve sparing; with bilateral pelvic		
42836 Adenoidectomy, secondary; age 12 or over 49250 Umbilectomy, omphalectomy, excision of umbilicus (separate procedure) 55810 Prostatectomy, perineal radical; 55812 Prostatectomy, perineal radical; with lymph node biopsy(s) (limited pelvic lymphadenectomy) 55815 Prostatectomy, perineal radical; with bilateral pelvic lymphadenectomy, including external iliac, hypogastric and obturator nodes 55840 Prostatectomy, retropubic radical, with or without nerve sparing; 55842 Prostatectomy, retropubic radical, with or without nerve sparing; with lymph node biopsy(s) (limited pelvic lymphadenectomy) F5845 Prostatectomy, retropubic radical, with or without nerve sparing; with bilateral pelvic		
49250 Umbilectomy, omphalectomy, excision of umbilicus (separate procedure) 55810 Prostatectomy, perineal radical; 55812 Prostatectomy, perineal radical; with lymph node biopsy(s) (limited pelvic lymphadenectomy) 55815 Prostatectomy, perineal radical; with bilateral pelvic lymphadenectomy, including external iliac, hypogastric and obturator nodes 55840 Prostatectomy, retropubic radical, with or without nerve sparing; 55842 Prostatectomy, retropubic radical, with or without nerve sparing; with lymph node biopsy(s) (limited pelvic lymphadenectomy) Frostatectomy, retropubic radical, with or without nerve sparing; with bilateral pelvic		
55810 Prostatectomy, perineal radical; 55812 Prostatectomy, perineal radical; with lymph node biopsy(s) (limited pelvic lymphadenectomy) 55815 Prostatectomy, perineal radical; with bilateral pelvic lymphadenectomy, including external iliac, hypogastric and obturator nodes 55840 Prostatectomy, retropubic radical, with or without nerve sparing; 55842 Prostatectomy, retropubic radical, with or without nerve sparing; with lymph node biopsy(s) (limited pelvic lymphadenectomy) Frostatectomy, retropubic radical, with or without nerve sparing; with bilateral pelvic		, , ,
Prostatectomy, perineal radical; with lymph node biopsy(s) (limited pelvic lymphadenectomy) Prostatectomy, perineal radical; with bilateral pelvic lymphadenectomy, including external iliac, hypogastric and obturator nodes Prostatectomy, retropubic radical, with or without nerve sparing; Prostatectomy, retropubic radical, with or without nerve sparing; with lymph node biopsy(s) (limited pelvic lymphadenectomy) Prostatectomy, retropubic radical, with or without nerve sparing; with bilateral pelvic

includes robotic assistance, when performed 92920 Percutaneous transluminal coronary angioplasty; single major coronary artery or branch Percutaneous transcatheter placement of intracoronary stent(s), with coronary angioplasty when performed; single major coronary artery or branch Percutaneous transluminal revascularization of or through coronary stent, atherectomy and angioplasty, including distal protection when performed; single vessel Percutaneous transluminal revascularization of or through coronary stent, atherectomy and angioplasty, including distal protection when performed; single vessel Percutaneous transluminal revascularization of chronic total occlusion, coronary artery, coronary artery branch, or coronary artery bypass graft, any combination of intracoronary stent, atherectomy and angioplasty; single vessel Percutaneous transcatheter closure of congenital interatrial communication (i.e., Fontan fenestration, atrial septal defect) with implant Comprehensive electrophysiologic evaluation with insertion and repositioning of multiple electrode catheters, induction or attempted induction of an arrhythmia with right atrial pacing and recording and catheter ablation of arrhythmogenic focus, including intracardiac electrophysiologic 3-dimensional mapping, right ventricular pacing and recording, left atrial pacing and recording from coronary sinus or left atrium, and his bundle recording, when performed; with treatment of supraventricular connection, cavo-tricuspid isthmus or other single atrial focus or source of atrial re-entry Comprehensive electrophysiologic evaluation including transseptal catheterizations, insertion and repositioning of multiple electrode catheters with intracardiac catheter ablation of atrial fibrillation by pulmonary vein isolation, including intracardiac electrophysiologic 3-dimensional mapping, intracardiac echocardiography including imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, r	55866	Laparoscopy, surgical prostatectomy, retropublic radical, including nerve sparing,
Percutaneous transcatheter placement of intracoronary stent(s), with coronary angioplasty when performed; single major coronary artery or branch Percutaneous transluminal revascularization of or through coronary artery bypass graft (internal mammary, free arterial, venous), any combination of intracoronary stent, atherectomy and angioplasty, including distal protection when performed; single vessel Percutaneous transluminal revascularization of chronic total occlusion, coronary artery, coronary artery branch, or coronary artery bypass graft, any combination of intracoronary stent, atherectomy and angioplasty; single vessel Percutaneous transcatheter closure of congenital interatrial communication (i.e., Fontan fenestration, atrial septal defect) with implant Comprehensive electrophysiologic evaluation with insertion and repositioning of multiple electrode catheters, induction or attempted induction of an arrhythmia with right atrial pacing and recording and catheter ablation of arrhythmogenic focus, including intracardiac electrophysiologic 3-dimensional mapping, right ventricular pacing and recording, left atrial pacing and recording from coronary sinus or left atrium, and his bundle recording, when performed; with treatment of supraventricular tachycardia by ablation of fast or slow atrioventricular pathway, accessory atrioventricular connection, cavo-tricuspid isthmus or other single atrial focus or source of atrial re-entry Comprehensive electrophysiologic evaluation including transseptal catheterizations, insertion and repositioning of multiple electrode catheters with intracardiac catheter ablation of atrial fibrillation by pulmonary vein isolation, including intracardiac electrophysiologic 3-dimensional mapping, intracardiac echocardiography including imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, right ventricular pacing/recording, and his bundle recording, when performed C1721 Cardioverter-defibrillator, endoca		
angioplasty when performed; single major coronary artery or branch Percutaneous transluminal revascularization of or through coronary stert, (internal mammary, free arterial, venous), any combination of intracoronary stent, atherectomy and angioplasty, including distal protection when performed; single vessel Percutaneous transluminal revascularization of chronic total occlusion, coronary artery, coronary artery branch, or coronary artery bypass graft, any combination of intracoronary stent, atherectomy and angioplasty; single vessel 93580 Percutaneous transcatheter closure of congenital interatrial communication (i.e., Fontan fenestration, atrial septal defect) with implant Comprehensive electrophysiologic evaluation with insertion and repositioning of multiple electrode catheters, induction or attempted induction of an arrhythmia with right atrial pacing and recording and catheter ablation of arrhythmogenic focus, including intracardiac electrophysiologic 3-dimensional mapping, right ventricular pacing and recording, left atrial pacing and recording from coronary sinus or left atrium, and his bundle recording, when performed, with treatment of supraventricular cathycardia by ablation of fast or slow atrioventricular pathway, accessory atrioventricular connection, cavo-tricuspid isthmus or other single atrial focus or source of atrial re-entry Comprehensive electrophysiologic evaluation including transseptal catheterizations, insertion and repositioning of multiple electrode catheters with intracardiac catheter ablation of atrial fibrillation by pulmonary vein isolation, including intracardiac electrophysiologic 3-dimensional mapping, intracardiac echocardiography including imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, right ventricular pacing/recording, and his bundle recording, when performed C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1785 Pacemaker, dual chamber, r	92920	
percutaneous transluminal revascularization of or through coronary artery bypass graft (internal mammary, free arterial, venous), any combination of intracoronary stent, atherectomy and angioplasty, including distal protection when performed; single vessel Percutaneous transluminal revascularization of chronic total occlusion, coronary artery, coronary artery branch, or coronary artery bypass graft, any combination of intracoronary stent, atherectomy and angioplasty; single vessel 93580 Percutaneous transcatheter closure of congenital interatrial communication (i.e., Fontan fenestration, atrial septal defect) with implant Comprehensive electrophysiologic evaluation with insertion and repositioning of multiple electrode catheters, induction or attempted induction of an arrhythmia with right atrial pacing and recording and catheter ablation of arrhythmogenic focus, including intracardiac electrophysiologic 3-dimensional mapping, right ventricular pacing and recording, left atrial pacing and recording from coronary sinus or left atrium, and his bundle recording, when performed; with treatment of supraventricular connection, cavo-tricuspli disthmus or other single atrial focus or source of atrial re-entry Comprehensive electrophysiologic evaluation including transseptal catheterizations, insertion and repositioning of multiple electrode catheters with intracardiac electrophysiologic 3-dimensional mapping, intracardiac echocardiography including imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, right ventricular pacing/recording, and his bundle recording, when performed C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1785 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1786 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) Generator, neurostimulator (implantable), high frequency, with rechargeable battery and chargi	92928	
(internal mammary, free arterial, venous), any combination of intracoronary stent, atherectomy and angioplasty, including distal protection when performed; single vessel Percutaneous transluminal revascularization of chronic total occlusion, coronary artery, coronary artery branch, or coronary artery bypass graft, any combination of intracoronary stent, atherectomy and angioplasty; single vessel Percutaneous transcatheter closure of congenital interatrial communication (i.e., Fontan fenestration, atrial septal defect) with implant Comprehensive electrophysiologic evaluation with insertion and repositioning of multiple electrode catheters, induction or attempted induction of an arrhythmia with right atrial pacing and recording and catheter ablation of arrhythmogenic focus, including intracardiac electrophysiologic 3-dimensional mapping, right ventricular pacing and recording, left atrial pacing and recording from coronary sinus or left atrium, and his bundle recording, when performed; with treatment of supraventricular connection, cavo-tricuspid isthmus or other single atrial focus or source of atrial re-entry Comprehensive electrophysiologic evaluation including transseptal catheterizations, insertion and repositioning of multiple electrode catheters with intracardiac catheter ablation of atrial fibrillation by pulmonary vein isolation, including intracardiac electrophysiologic 3-dimensional mapping, intracardiac catheter ablation of atrial fibrillation, including intr		
atherectomy and angioplasty, including distal protection when performed; single vessel Percutaneous transluminal revascularization of chronic total occlusion, coronary artery, coronary artery branch, or coronary artery bypass graft, any combination of intracoronary stent, atherectomy and angioplasty; single vessel Percutaneous transcatheter closure of congenital interatrial communication (i.e., Fontan fenestration, atrial septal defect) with implant Comprehensive electrophysiologic evaluation with insertion and repositioning of multiple electrode catheters, induction or attempted induction of an arrhythmia with right atrial pacing and recording and catheter ablation of arrhythmogenic focus, including intracardiac electrophysiologic 3-dimensional mapping, right ventricular pacing and recording, left atrial pacing and recording from coronary sinus or left atrium, and his bundle recording, when performed; with treatment of supraventricular tachycardia by ablation of fast or slow atrioventricular pathway, accessory atrioventricular connection, cavo-tricuspid isthmus or other single atrial focus or source of atrial re-entry Comprehensive electrophysiologic evaluation including transseptal catheterizations, insertion and repositioning of multiple electrode catheters with intracardiac catheter ablation of atrial fibrillation by pulmonary vein isolation, including intracardiac electrophysiologic 3-dimensional mapping, intracardiac echocardiography including imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, right ventricular pacing/recording, and his bundle recording, when performed C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1785 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1786 Pacemaker, single chamber, rate-responsive (implantable) (for facility claims only) Generator, neurostimulator (implantable), high frequency, with rechargeable battery		
Percutaneous transluminal revascularization of chronic total occlusion, coronary artery, coronary artery branch, or coronary artery bypass graft, any combination of intracoronary stent, atherectomy and angioplasty; single vesses and provided intracoronary stent, atherectomy and angioplasty; single vesses and provided interactivation and reposition of intracoronary stent, atherectory and angioplasty; single vesses and provided intracardiac of consensual interactivation and repositioning of multiple electrode catheters, induction or attempted induction of an arrhythmia with right atrial pacing and recording and catheter ablation of arrhythmogenic focus, including intracardiac electrophysiologic 3-dimensional mapping, right ventricular pacing and recording, left atrial pacing and recording from coronary sinus or left atrium, and his bundle recording, when performed; with treatment of supraventricular tachycardia by ablation of fast or slow atrioventricular pathway, accessory atrioventricular connection, cavo-tricuspid isthmus or other single atrial focus or source of atrial re-entry. Comprehensive electrophysiologic evaluation including transseptal catheterizations, insertion and repositioning of multiple electrode catheters with intracardiac catheter ablation of atrial fibrillation by pulmonary vein isolation, including intracardiac electrophysiologic 3-dimensional mapping, intracardiac echocardiography including imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, right ventricular pacing/recording, and his bundle recording, when performed C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1785 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1820 Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, ondocardial dual coil (implantable)	92937	
coronary artery branch, or coronary artery bypass graft, any combination of intracoronary stent, atherectomy and angioplasty; single vessel Percutaneous transcatheter closure of congenital interatrial communication (i.e., Fontan fenestration, atrial septal defect) with implant Comprehensive electrophysiologic evaluation with insertion and repositioning of multiple electrode catheters, induction or attempted induction of an arrhythmia with right atrial pacing and recording and catheter ablation of arrhythmogenic focus, including intracardiac electrophysiologic 3-dimensional mapping, right ventricular pacing and recording, left atrial pacing and recording from coronary sinus or left atrium, and his bundle recording, when performed; with treatment of supraventricular tachycardia by ablation of fast or slow atrioventricular pathway, accessory atrioventricular connection, cavo-tricuspid isthmus or other single atrial focus or source of atrial re-entry Comprehensive electrophysiologic evaluation including transseptal catheterizations, insertion and repositioning of multiple electrode catheters with intracardiac catheter ablation of atrial fibrillation by pulmonary vein isolation, including intracardiac electrophysiologic 3-dimensional mapping, intracardiac echocardiography including imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, right ventricular pacing/recording, and his bundle recording, when performed C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1785 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1786 Pacemaker, single chamber, rate-responsive (implantable) (for facility claims only) Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, ondocardial dual coil (implantable)		
stent, atherectomy and angioplasty; single vessel Percutaneous transcatheter closure of congenital interatrial communication (i.e., Fontan fenestration, atrial septal defect) with implant Comprehensive electrophysiologic evaluation with insertion and repositioning of multiple electrode catheters, induction or attempted induction of an arrhythmia with right atrial pacing and recording and catheter ablation of arrhythmogenic focus, including intracardiac electrophysiologic 3-dimensional mapping, right ventricular pacing and recording, left atrial pacing and recording from coronary sinus or left atrium, and his bundle recording, when performed; with treatment of supraventricular tachycardia by ablation of fast or slow atrioventricular pathway, accessory atrioventricular connection, cavo-tricuspid isthmus or other single atrial focus or source of atrial re-entry Comprehensive electrophysiologic evaluation including transseptal catheterizations, insertion and repositioning of multiple electrode catheters with intracardiac catheter ablation of atrial fibrillation by pulmonary vein isolation, including intracardiac electrophysiologic 3-dimensional mapping, intracardiac echocardiography including imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, right ventricular pacing/recording, and his bundle recording, when performed C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1772 Cardioverter-defibrillator, single chamber (implantable) (for facility claims only) C1786 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1822 Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)		
Percutaneous transcatheter closure of congenital interatrial communication (i.e., Fontan fenestration, atrial septal defect) with implant Comprehensive electrophysiologic evaluation with insertion and repositioning of multiple electrode catheters, induction or attempted induction of an arrhythmia with right atrial pacing and recording and catheter ablation of arrhythmogenic focus, including intracardiac electrophysiologic 3-dimensional mapping, right ventricular pacing and recording, left atrial pacing and recording from coronary sinus or left atrium, and his bundle recording, when performed; with treatment of supraventricular tachycardia by ablation of fast or slow atrioventricular pathway, accessory atrioventricular connection, cavo-tricuspid isthmus or other single atrial focus or source of atrial re-entry Comprehensive electrophysiologic evaluation including transseptal catheterizations, insertion and repositioning of multiple electrode catheters with intracardiac catheter ablation of atrial fibrillation by pulmonary vein isolation, including intracardiac electrophysiologic 3-dimensional mapping, intracardiac echocardiography including imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, right ventricular pacing/recording, and his bundle recording, when performed C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1722 Cardioverter-defibrillator, single chamber (implantable) (for facility claims only) C1786 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1820 Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable)	92943	
fenestration, atrial septal defect) with implant Comprehensive electrophysiologic evaluation with insertion and repositioning of multiple electrode catheters, induction or attempted induction of an arrhythmia with right atrial pacing and recording and catheter ablation of arrhythmogenic focus, including intracardiac electrophysiologic 3-dimensional mapping, right ventricular pacing and recording, left atrial pacing and recording from coronary sinus or left atrium, and his bundle recording, when performed; with treatment of supraventricular tachycardia by ablation of fast or slow atrioventricular pathway, accessory atrioventricular connection, cavo-tricuspid isthmus or other single atrial focus or source of atrial re-entry Comprehensive electrophysiologic evaluation including transseptal catheterizations, insertion and repositioning of multiple electrode catheters with intracardiac catheter ablation of atrial fibrillation by pulmonary vein isolation, including intracardiac electrophysiologic 3-dimensional mapping, intracardiac echocardiography including imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, right ventricular pacing/recording, and his bundle recording, when performed C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1772 Lead, cardioverter-defibrillator, endocardial single coil (implantable) C1785 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1820 Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable)		
Comprehensive electrophysiologic evaluation with insertion and repositioning of multiple electrode catheters, induction or attempted induction of an arrhythmia with right atrial pacing and recording and catheter ablation of arrhythmogenic focus, including intracardiac electrophysiologic 3-dimensional mapping, right ventricular pacing and recording, left atrial pacing and recording from coronary sinus or left atrium, and his bundle recording, when performed; with treatment of supraventricular tachycardia by ablation of fast or slow atrioventricular pathway, accessory atrioventricular connection, cavo-tricuspid isthmus or other single atrial focus or source of atrial re-entry Comprehensive electrophysiologic evaluation including transseptal catheterizations, insertion and repositioning of multiple electrode catheters with intracardiac catheter ablation of atrial fibrillation by pulmonary vein isolation, including intracardiac electrophysiologic 3-dimensional mapping, intracardiac echocardiography including imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, right ventricular pacing/recording, and his bundle recording, when performed C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1722 Cardioverter-defibrillator, endocardial single coil (implantable) C1785 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1786 Pacemaker, single chamber, rate-responsive (implantable) (for facility claims only) C1822 Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable)	93580	
electrode catheters, induction or attempted induction of an arrhythmia with right atrial pacing and recording and catheter ablation of arrhythmogenic focus, including intracardiac electrophysiologic 3-dimensional mapping, right ventricular pacing and recording, left atrial pacing and recording from coronary sinus or left atrium, and his bundle recording, when performed; with treatment of supraventricular tachycardia by ablation of fast or slow atrioventricular pathway, accessory atrioventricular connection, cavo-tricuspid isthmus or other single atrial focus or source of atrial re-entry Comprehensive electrophysiologic evaluation including transseptal catheterizations, insertion and repositioning of multiple electrode catheters with intracardiac catheter ablation of atrial fibrillation by pulmonary vein isolation, including intracardiac electrophysiologic 3-dimensional mapping, intracardiac echocardiography including imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, right ventricular pacing/recording, and his bundle recording, when performed C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1722 Cardioverter-defibrillator, single chamber (implantable) (for facility claims only) C1785 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1820 Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable) C1896 Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)	93380	
pacing and recording and catheter ablation of arrhythmogenic focus, including intracardiac electrophysiologic 3-dimensional mapping, right ventricular pacing and recording, left atrial pacing and recording from coronary sinus or left atrium, and his bundle recording, when performed; with treatment of supraventricular tachycardia by ablation of fast or slow atrioventricular pathway, accessory atrioventricular connection, cavo-tricuspid isthmus or other single atrial focus or source of atrial re-entry Comprehensive electrophysiologic evaluation including transseptal catheterizations, insertion and repositioning of multiple electrode catheters with intracardiac catheter ablation of atrial fibrillation by pulmonary vein isolation, including intracardiac electrophysiologic 3-dimensional mapping, intracardiac echocardiography including imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, right ventricular pacing/recording, and his bundle recording, when performed C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1722 Cardioverter-defibrillator, single chamber (implantable) (for facility claims only) C1775 Lead, cardioverter-defibrillator, endocardial single coil (implantable) C1786 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1822 Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable) C1896 Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)		
intracardiac electrophysiologic 3-dimensional mapping, right ventricular pacing and recording, left atrial pacing and recording from coronary sinus or left atrium, and his bundle recording, when performed; with treatment of supraventricular tachycardia by ablation of fast or slow atrioventricular pathway, accessory atrioventricular connection, cavo-tricuspid isthmus or other single atrial focus or source of atrial re-entry Comprehensive electrophysiologic evaluation including transseptal catheterizations, insertion and repositioning of multiple electrode catheters with intracardiac catheter ablation of atrial fibrillation by pulmonary vein isolation, including intracardiac electrophysiologic 3-dimensional mapping, intracardiac echocardiography including imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, right ventricular pacing/recording, and his bundle recording, when performed C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1722 Cardioverter-defibrillator, single chamber (implantable) (for facility claims only) C1777 Lead, cardioverter-defibrillator, endocardial single coil (implantable) C1785 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1820 Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable) C1896 Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)		
recording, left atrial pacing and recording from coronary sinus or left atrium, and his bundle recording, when performed; with treatment of supraventricular tachycardia by ablation of fast or slow atrioventricular pathway, accessory atrioventricular connection, cavo-tricuspid isthmus or other single atrial focus or source of atrial re-entry Comprehensive electrophysiologic evaluation including transseptal catheterizations, insertion and repositioning of multiple electrode catheters with intracardiac catheter ablation of atrial fibrillation by pulmonary vein isolation, including intracardiac electrophysiologic 3-dimensional mapping, intracardiac echocardiography including imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, right ventricular pacing/recording, and his bundle recording, when performed C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1722 Cardioverter-defibrillator, single chamber (implantable) (for facility claims only) C1776 Lead, cardioverter-defibrillator, endocardial single coil (implantable) C1786 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1822 Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable) C1896 Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)		pacing and recording and catheter ablation of arrhythmogenic focus, including
recording, left atrial pacing and recording from coronary sinus or left atrium, and his bundle recording, when performed; with treatment of supraventricular tachycardia by ablation of fast or slow atrioventricular pathway, accessory atrioventricular connection, cavo-tricuspid isthmus or other single atrial focus or source of atrial re-entry Comprehensive electrophysiologic evaluation including transseptal catheterizations, insertion and repositioning of multiple electrode catheters with intracardiac catheter ablation of atrial fibrillation by pulmonary vein isolation, including intracardiac electrophysiologic 3-dimensional mapping, intracardiac echocardiography including imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, right ventricular pacing/recording, and his bundle recording, when performed C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1722 Cardioverter-defibrillator, single chamber (implantable) (for facility claims only) C1776 Lead, cardioverter-defibrillator, endocardial single coil (implantable) C1786 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1822 Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable) C1896 Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)	03653	intracardiac electrophysiologic 3-dimensional mapping, right ventricular pacing and
ablation of fast or slow atrioventricular pathway, accessory atrioventricular connection, cavo-tricuspid isthmus or other single atrial focus or source of atrial re-entry Comprehensive electrophysiologic evaluation including transseptal catheterizations, insertion and repositioning of multiple electrode catheters with intracardiac catheter ablation of atrial fibrillation by pulmonary vein isolation, including intracardiac electrophysiologic 3-dimensional mapping, intracardiac echocardiography including imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, right ventricular pacing/recording, and his bundle recording, when performed C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1722 Cardioverter-defibrillator, single chamber (implantable) (for facility claims only) C1777 Lead, cardioverter-defibrillator, endocardial single coil (implantable) C1785 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1820 Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable) C1896 Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)	93033	recording, left atrial pacing and recording from coronary sinus or left atrium, and his
cavo-tricuspid isthmus or other single atrial focus or source of atrial re-entry Comprehensive electrophysiologic evaluation including transseptal catheterizations, insertion and repositioning of multiple electrode catheters with intracardiac catheter ablation of atrial fibrillation by pulmonary vein isolation, including intracardiac electrophysiologic 3-dimensional mapping, intracardiac echocardiography including imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, right ventricular pacing/recording, and his bundle recording, when performed C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1722 Cardioverter-defibrillator, single chamber (implantable) (for facility claims only) C1777 Lead, cardioverter-defibrillator, endocardial single coil (implantable) C1785 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1786 Pacemaker, single chamber, rate-responsive (implantable) (for facility claims only) Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable) C1896 Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)		bundle recording, when performed; with treatment of supraventricular tachycardia by
Comprehensive electrophysiologic evaluation including transseptal catheterizations, insertion and repositioning of multiple electrode catheters with intracardiac catheter ablation of atrial fibrillation by pulmonary vein isolation, including intracardiac electrophysiologic 3-dimensional mapping, intracardiac echocardiography including imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, right ventricular pacing/recording, and his bundle recording, when performed C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1722 Cardioverter-defibrillator, single chamber (implantable) (for facility claims only) C1777 Lead, cardioverter-defibrillator, endocardial single coil (implantable) C1785 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1786 Pacemaker, single chamber, rate-responsive (implantable) (for facility claims only) Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable) C1896 Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)		ablation of fast or slow atrioventricular pathway, accessory atrioventricular connection,
insertion and repositioning of multiple electrode catheters with intracardiac catheter ablation of atrial fibrillation by pulmonary vein isolation, including intracardiac electrophysiologic 3-dimensional mapping, intracardiac echocardiography including imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, right ventricular pacing/recording, and his bundle recording, when performed C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1722 Cardioverter-defibrillator, single chamber (implantable) (for facility claims only) C1777 Lead, cardioverter-defibrillator, endocardial single coil (implantable) C1785 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1786 Pacemaker, single chamber, rate-responsive (implantable) (for facility claims only) C1822 Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable) Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)		
ablation of atrial fibrillation by pulmonary vein isolation, including intracardiac electrophysiologic 3-dimensional mapping, intracardiac echocardiography including imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, right ventricular pacing/recording, and his bundle recording, when performed C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1722 Cardioverter-defibrillator, single chamber (implantable) (for facility claims only) C1777 Lead, cardioverter-defibrillator, endocardial single coil (implantable) C1785 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1786 Pacemaker, single chamber, rate-responsive (implantable) (for facility claims only) C1822 Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable) C1896 Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)		
electrophysiologic 3-dimensional mapping, intracardiac echocardiography including imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, right ventricular pacing/recording, and his bundle recording, when performed C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1722 Cardioverter-defibrillator, single chamber (implantable) (for facility claims only) C1777 Lead, cardioverter-defibrillator, endocardial single coil (implantable) C1785 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1786 Pacemaker, single chamber, rate-responsive (implantable) (for facility claims only) C1822 Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable) C1896 Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)		insertion and repositioning of multiple electrode catheters with intracardiac catheter
imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, right ventricular pacing/recording, and his bundle recording, when performed C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1722 Cardioverter-defibrillator, single chamber (implantable) (for facility claims only) C1777 Lead, cardioverter-defibrillator, endocardial single coil (implantable) C1785 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1786 Pacemaker, single chamber, rate-responsive (implantable) (for facility claims only) C1822 Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable) Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)		ablation of atrial fibrillation by pulmonary vein isolation, including intracardiac
including left or right atrial pacing/recording, right ventricular pacing/recording, and his bundle recording, when performed C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1722 Cardioverter-defibrillator, single chamber (implantable) (for facility claims only) C1777 Lead, cardioverter-defibrillator, endocardial single coil (implantable) C1785 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1786 Pacemaker, single chamber, rate-responsive (implantable) (for facility claims only) C1822 Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable) Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)	93656	electrophysiologic 3-dimensional mapping, intracardiac echocardiography including
bundle recording, when performed C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1722 Cardioverter-defibrillator, single chamber (implantable) (for facility claims only) C1777 Lead, cardioverter-defibrillator, endocardial single coil (implantable) C1785 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1786 Pacemaker, single chamber, rate-responsive (implantable) (for facility claims only) C1822 Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable) C1896 Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)		imaging supervision and interpretation, induction or attempted induction of an arrhythmia
C1721 Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only) C1722 Cardioverter-defibrillator, single chamber (implantable) (for facility claims only) C1777 Lead, cardioverter-defibrillator, endocardial single coil (implantable) C1785 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1786 Pacemaker, single chamber, rate-responsive (implantable) (for facility claims only) C1822 Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable) C1896 Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)		including left or right atrial pacing/recording, right ventricular pacing/recording, and his
C1722 Cardioverter-defibrillator, single chamber (implantable) (for facility claims only) C1777 Lead, cardioverter-defibrillator, endocardial single coil (implantable) C1785 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1786 Pacemaker, single chamber, rate-responsive (implantable) (for facility claims only) C1822 Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable) C1896 Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)		bundle recording, when performed
C1777 Lead, cardioverter-defibrillator, endocardial single coil (implantable) C1785 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1786 Pacemaker, single chamber, rate-responsive (implantable) (for facility claims only) C1822 Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable) C1896 Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)		Cardioverter-defibrillator, dual chamber (implantable) (for facility claims only)
C1785 Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only) C1786 Pacemaker, single chamber, rate-responsive (implantable) (for facility claims only) C1822 Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable) C1896 Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)	C1722	Cardioverter-defibrillator, single chamber (implantable) (for facility claims only)
C1786 Pacemaker, single chamber, rate-responsive (implantable) (for facility claims only) C1822 Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable) C1896 Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)	C1777	
C1822 Generator, neurostimulator (implantable), high frequency, with rechargeable battery and charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable) C1896 Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)	C1785	Pacemaker, dual chamber, rate-responsive (implantable) (for facility claims only)
C1822 charging system C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable) C1896 Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)	C1786	Pacemaker, single chamber, rate-responsive (implantable) (for facility claims only)
C1895 Lead, cardioverter-defibrillator, endocardial dual coil (implantable) C1896 Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)	C1822	Generator, neurostimulator (implantable), high frequency, with rechargeable battery and
C1896 Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)		charging system
C1896 Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)	C1895	Lead, cardioverter-defibrillator, endocardial dual coil (implantable)
		Lead, cardioverter-defibrillator, other than endocardial single or dual coil (implantable)

Important Information for Acquiring Prior Authorization

The <u>List of Procedures/DME Requiring Authorization</u> for Highmark is subject to change. During the year, Highmark makes several adjustments to its full list of outpatient procedures, services, durable medical equipment, and drugs requiring authorization.

For benefits to be paid, the member must be eligible on the date of service and the service must be a covered benefit. Providers should use <u>Availity</u>® or the applicable HIPAA electronic transactions to check member benefits and eligibility, to verify if an authorization is required, and to obtain authorization for services before they are rendered.

The following entities, which serve the noted regions, are independent licensees of the Blue Cross Blue Shield Association: Western NY: Highmark Western and Northeastern New York Inc. d/b/a Highmark Blue Cross Blue Shield. Northeastern NY: Highmark Western and Northeastern New York Inc. d/b/a Highmark Blue Shield.

All references to "Highmark" in this document are references to the Highmark company that is providing the member's health benefits or health benefit administration and/or to one or more of its affiliated Blue companies.

Availity is an independent company that contracts with Highmark to offer provider portal services.
