

Transportation Funds During Periods of Emergency Declaration

In the event of a declaration of a national, state, or local emergency, mileage related to tasks including but not limited to, the delivery of food, instructional materials, and other trips supporting the continuation of educational services shall be considered reimbursable mileage.

Guidance on tracking miles during the emergency declaration will come from the State Department of Education.

The Board of Trustees authorizes these expenditures of its budgeted transportation funds in addition to traditionally authorized expenditures. Such authorization is pursuant to guidance issued from the Idaho State Board of Education and the Superintendent of Public Instruction.
