Security

Security means not only maintenance of buildings, but also protection from fire hazards and faulty equipment, and safe practices in the use of electrical, plumbing, and heating equipment. The Board requires close cooperation with local police, fire, and sheriff departments and with insurance company inspectors to do safety programs and training to ensure employees are using safe practices.

Records and funds shall be kept in a safe place and under lock and key when required.

Locks and other protective devices designed to be used as safeguards against illegal entry and vandalism shall be installed when appropriate to the individual situation. Employment of security guards may be approved in situations where special risks are involved. All incidents of vandalism and burglary shall be reported to the Superintendent immediately and to law enforcement agencies as appropriate.
