

Frequently Asked Questions

What's Wrong Dog and Cat Food?

Most caring consumers would never guess that lonely dogs and cats are confined to tiny barren laboratory cages for years on end and subjected to horrible experiments in order to test dog and cat food.

To expose this tragedy, PETA conducted a nine-month undercover investigation of a laboratory that was performing cruel animal tests for major companion-animal food companies. What our investigator uncovered, including the following, would outrage anyone with a heart:

Lonely dogs driven mad from confinement to barren steel and cement cells
 Dogs dumped on cold concrete floors after having chunks of muscle cut out of their thighs
 Experimenters who severed dogs' vocal cords in order to keep them quiet
 Sick dogs who were languishing in their cages without veterinary care

These animals suffered so that companion-animal food companies could slap "new and improved" labels on their products.

The following companies make top-quality food for dogs and cats without harming animals in laboratories. Please help us drive animal abusers out of business by buying only from these companies. Companies not on this list either responded that they do conduct laboratory experiments on animals or failed to respond to our numerous inquiries and are assumed to conduct laboratory experiments on animals.

Legend

- V - The company makes or sells strictly vegan products.
- L - The company has licensed PETA's official cruelty-free bunny logo.
- F - The company is a PETA Business Friend, and shopping at this company supports an innovative partnership for compassionate companies willing to assist in PETA's groundbreaking work to stop animal abuse and suffering.
