Privacy Impact Assessment for the VA Area called<sup>1</sup>:

# Area St. Petersburg Southeast District

---

<sup>1</sup> The completion of Veterans Affairs Privacy Impact Assessments (PIAs) is mandated for any rulemaking, program, boundary, or practice that collects or uses PII under the authority of the E-government Act of 2002 (44 U.S.C. § 208(b)) and VA Directive 6508, Implementation of Privacy Threshold Analysis and Privacy Impact Assessment.

**Sites within Area:**

<b>Sites</b>	<b>Station Numbers</b>
1) Bay Pines VA Medical Center (VAMC)	516
2) Lee County VHA Healthcare Clinic (HCC)	516BZ
3) St. Petersburg VBA Regional Office (SPRO)	317
4) Bay Pines National Cemetery	830
5) Sarasota National Cemetery	931
6) Bradenton CBOC	516GD
7) Naples CBOC	516GF
8) North Pinellas CBOC	516GC
9) Port Charlotte CBOC	516GE
10) Sarasota CBOC	516GA
11) Sebring CBOC	516GH
12) St Petersburg CBOC	516GB
13) Clearwater Vet Center	0339V
14) Fort Myers Vet Center	0330V
15) Naples Vet Center	0348V
16) Sarasota Vet Center	0329V
17) St Petersburg Vet Center	0301V

Georgia David	AM	727-399-3594	georgia.david@va.gov	VHA, VBA, NCA

## Abstract

*The abstract provides the simplest explanation for “what does the Area do?”.*

VA Area St. Petersburg is an Information System for the local facilities in Area St. Petersburg to provide medical, dental, and related clinic; surgery; and procedure treatments and services, mental health treatment and services, and administration of and assistance with federal benefits and burial services to veterans, and veteran’s families, of the United States branches of Armed Forces.

Area St. Petersburg is an Information System Area that consists of Bay Pines VA Medical Center (VAMC), Lee County VHA Healthcare Clinic (HCC), St. Petersburg Regional Office (SPRO) VBA, Bay Pines NCA Cemetery, and Sarasota NCA Cemetery. Community-Based Outpatient Clinic (CBOC) clinics in the Area are the Bradenton CBOC, Naples CBOC, North Pinellas CBOC, Port Charlotte CBOC, Sarasota CBOC, Sebring CBOC, and St. Petersburg CBOC. And Vet Centers in the Area are the Clearwater Vet Center, Ft. Myers Vet Center, Naples Vet Center, Sarasota Vet Center, and St. Petersburg Vet Center. The Area environment consists of components such as workstations, laptops, portable computing devices, terminals, servers, printers, and IT enabled networked medical devices that are owned, managed, and maintained by the facilities.

The Area provides operational connectivity services necessary to enable users’ access to information technology resources throughout the enterprise including those within the facility, between facilities, resources hosted at data centers, and connectivity to other systems. Network connectivity rules are enforced by VA approved baselines for router and switch configurations. The Area system environment

also includes as applicable, subsystem storage utilities such as tape drives, optical drives, disk drives, network attached storage (NAS), storage area networks (SAN), archival appliances, special purpose systems, and tier 2 storage solutions. The Area encompasses the management, operational, and technical security controls associated with IT hardware, consisting of servers, routers, switches, hubs, gateways, peripheral devices, desktop/laptops, and OS software. The Area employs a myriad of routers and switches that connect to the VA network.

Special Purpose Systems are non-medical, non-research VA network-connected, and non-Office of Information and Technology (OIT) supported Operational Technology (OT) device/system that cannot obtain a VA approved baseline.

## Overview

*The overview is the most important section of the PIA. A thorough and clear overview gives the reader the appropriate context to understand the responses in the PIA. The overview should contain the following elements:*

- *The Area name and the name of the sites within it.*
- *The business purpose of the Area and how it relates to the program office and agency mission.*
- *Whether the Area is leveraging or accessing Enterprise repositories such as Veterans Benefits Management System, SharePoint, VistA, etc. and if so, a description of what PII/PHI from the Enterprise repositories is being used by the facilities in the Area.*
- *Documentation of any repository not maintained at the enterprise level, unlike Veterans Benefits Management System, SharePoint, VistA, etc. used by the facilities to collect, use, disseminate, maintain, or create PII/PHI.*
- *Any external information sharing conducted by the facilities within the Area.*
- *A citation of the legal authority to operate the Area.*
- *Whether the completion of this PIA will result in circumstances that require changes to business processes*
- *Whether the completion of this PIA could potentially result in technology changes*
- *Does the Area host or maintain cloud technology? If so, does the Area have a FedRAMP provisional or agency authorization?*

The Area St. Petersburg itself does not collect, use, disseminate, maintain, or store PII/PHI.

VHA, VBA and NCA Facilities located within the Area St. Petersburg IT Area all access VA Enterprise IT systems, respectively, hosted and maintained outside of VA Area St. Petersburg. These are national VA systems such as Veterans Health Information Systems and Technology Architecture (VistA), Veterans Benefits Management System (VBMS), Memorial Benefits System (MEM), Burial Operations Support System (BOSS)/ Automated Monument Application System (AMASS), etc.

Special Purpose Systems consists of specialized devices, and applicable components, hosted within the facilities associated to the Area. The system environment is comprised of operational technology devices/systems that assist, support, and maintain mission capabilities and operations for building safety, healthcare services, security services and other general services functional support areas.

The system environment may include, but is not limited to; energy management systems, heating ventilation and air conditioning (HVAC), temperature controls, building/facility access controls, building automation systems, utility control systems, distributed control systems, security cameras, emergency response vehicle

dashcams, Virtual Reality (VR) headsets, promethean boards, TUG robots, Telesitter, and other business Operational Technologies. All Special Purpose Systems are identified in [Appendix C](#).

Only PII/PHI collected and used by the facilities within the Area will be referenced in this document since the Area does not maintain, disseminate, or store information accessed by each facility.

The facilities within the Area collect, use, and/or disseminate PII/PHI that is maintained and stored within enterprise systems such as VistA, VBMS, BOSS/ AMASS, etc. There are [individual PIAs](#) that contain detailed information on the maintenance, dissemination and sharing practices, and storage of the PII/PHI for each Enterprise system accessed by the facilities.

The Area is using the VA Enterprise Cloud (VAEC) which is at the enterprise level and is outside of the Area. Further information can be found in the VAEC PIA.

No Health Care Delivery Services systems or applications are included in the VA Area system Area and medical devices now fall under a boundary with its own PTA and PIA outside of the Area. Additional information can be found in the Healthcare Technology Management (HTM) medical system PTA and PIA.

The applicable [SORs](#) for Area St. Petersburg include:

## Section 1. Characterization of the Information

The following questions are intended to define the scope of the information requested and collected as well as the reasons for its collection as part of the program, Area, or technology being developed.

### 1.1 What information is collected, used, disseminated, or created, by the facilities within the Area?

*Identify and list all PII/PHI that is collected and stored in the Area, including Individually Identifiable Health Information (IIHI), Protected Health Information (PHI), and Privacy- Protected Information. For additional information on these information types and definitions, please see [VA Directives and Handbooks in the 6500 series](#). If the Area creates information (for example, a score, analysis, or report), list the information the Area is responsible for creating.*

*If a requesting Area receives information from another Area, such as a response to a background check, describe what information is returned to the requesting Area.*

*This question is related to privacy control AP-1, Authority to Collect, and AP-2, Purpose Specification.*

Please check any information listed below that facilities within the Area collect. If additional PII/PHI is collected, please list those in the text box below:

- |   |  |   |
|---|--|---|
| <input checked="" type="checkbox"/> Name  | <input checked="" type="checkbox"/> Internet Protocol (IP) Address Numbers         | <input checked="" type="checkbox"/> Employment Information                            |
| <input checked="" type="checkbox"/> Social Security Number (SSN)                    | <input checked="" type="checkbox"/> Current Medications                            | <input checked="" type="checkbox"/> Veteran Dependent Information                     |
| <input checked="" type="checkbox"/> Date of Birth                                   | <input checked="" type="checkbox"/> Previous Medical Records                       | <input checked="" type="checkbox"/> Disclosure Requestor Information                  |

Unlawful Activities, Diagnosis, Demographics, Zip Code, Marital Status, Relationship To Veteran, Date Of Death, Service Information, Benefit Information, Funeral Information, Funeral Home Information, Burial Information, Applicant's Name And Address, Veteran Information, Medical Pii/Phi Statistics, Dental Records, Health Insurance Information

## **PII Mapping of Components (Servers/Database)**

Area St. Petersburg consists of 68 key components (servers/databases). Each component has been analyzed to determine if any elements of that component collect PII. The type of PII collected within Area St. Petersburg and the reasons for the collection of the PII are in the **Mapping of Components Table in [Appendix B](#) of this PIA.**

### **1.2 What are the sources of the information for the facilities within the Area?**

*List the individual, entity, or entities providing the specific information identified above. For example, is the information collected directly from the individual as part of an application for a benefit, or is it collected from other sources such as commercial data aggregators?*

*Describe why information from sources other than the individual is required. For example, if a facility program within the Area is using data from a commercial aggregator of information or data taken from public Web sites, state the fact that this is where the information is coming from and then in question 1.3 indicate why the facility is using this source of data.*

*If a facility program within the Area creates information (for example, a score, analysis, or report), list the facility as a source of information.*

*This question is related to privacy controls DI-1, Data Quality, and IP-1, Consent.*

The information that resides within the facilities in the Area is collected, maintained, and/or disseminated comes from a variety of sources. The largest amount of data comes directly from individuals - including veterans and their dependents, volunteers and other members of the public, clinical trainees, and VA employees and contractors. For example: items such as names, social security numbers, dates of birth are collected from the individual on healthcare enrollment forms (VA Form 10-10EZ), or other paperwork the individual prepares. An application for employment contains the same, or similar, information about employees.

Depending on the type of information, it may also come from Veterans Benefits Administration (VBA), the VA Health Eligibility Center (HEC), VA Network Authorization Office (NAO) for non-VA Care payments, and non-VA medical providers, Department of Defense (DOD), Internal Revenue Service (IRS), Office of Personnel Management (OPM), Social Security Administration (SSA), Federal Emergency Management Agency (FEMA), Federal Bureau of Investigation (FBI).

Criminal background information is obtained from Electronic Questionnaires for Investigations Processing (E-QIP) and National Crime Information Center (NCIC) and used to confirm employment and/or volunteer eligibility and to assist the VA Police Service while conducting internal investigations.

Additional sources include:

- VA, Compensation, Pension, Education and Rehabilitation Records
- VA, Veterans and Beneficiaries Identification Records Location Subsystem
- VA Veterans and Armed Forces Personnel United States Government Life Insurance Records
- VA Veterans, Beneficiaries and Attorneys United States Government Insurance Award Records
- VA, Veterans and Beneficiaries Identification and Records Location (BIRLS)
- Compensation, Pension, Education and Rehabilitation (covers BDN and Corporate databases)
- Loan Guaranty Home, Condominium and Manufactured Home Loan Applicant Records

- VA Veterans Mortgage Life Insurance
- Identity and Access Management (IAM) Single Sign-On Internal (SSOi) and User Provisioning: Memorial Benefits Management System (MBMS) Salesforce and Amazon Web Services (AWS) uses two VA IAM services to validate user login information: SSOi and User Provisioning.
- Veterans Benefits Management System (VBMS) eFolder via iHub: Provides access to a widget allowing National Cemetery Scheduling Office (NCSO) case managers the ability to view documents in eFolder to assist in eligibility verification of Veterans and Next-of-Kin.
- The data viewed is viewed for eligibility determinations and not transmitted or stored in MBMS Salesforce or AWS.
- VA Master Persons Index Enterprise (MPIe): Provides the ability to search the authoritative data source for Veterans, MPI, to ensure that they are not creating duplicate contact records in applications built on the Salesforce platform.
- Direct conversation with individual Veterans or NOK who call the NCSO representatives

### 1.3 How is the information collected?

*This question is directed at the means of collection from the sources listed in question 1.2. Information may be collected directly from an individual, received via electronic transmission from another Area, or created by the Area itself. Specifically, is information collected through technologies or other technologies used in the storage or transmission of information in identifiable form?*

*If the information is collected on a form and is subject to the Paperwork Reduction Act, give the form's OMB control number and the agency form number.*

*This question is related to privacy controls DI-1, Data Quality, and IP-1, Consent.*

Means of Collection Table

Site Type: VBA/VHA/NCA or Program Office	Means of Collection
VHA	Information collected directly from patients, employees and/or other members of the public is collected using paper forms (such as the VA Form 10-10EZ enrollment form for VA health care), or interviews and assessments with the individual. Much of the information provided by veterans or other members of the public, such as address and phone number, next of kin and emergency contact information, and similar information are assumed to be accurate because it is provided directly by the individual. Additionally, information entered into an individual's medical record by a doctor or other medical staff is also assumed to be accurate.
VBA	There are many VA forms used by Veterans to apply for and/or make adjustments to pending benefits. All VBA benefit forms are located at <a href="http://www.va.gov/vaforms/">http://www.va.gov/vaforms/</a> . The URL of the associated privacy statement is: <a href="http://www.va.gov/privacy/">http://www.va.gov/privacy/</a> . VBA forms can be downloaded from this site, filled in and printed to be delivered in paper form. All collected information is used to determine

Site Type: VBA/VHA/NCA or Program Office	Means of Collection
	<p>eligibility for benefits, process ratings and to provide payments via the Department of Treasury.</p> <p>The VBA toll free number for veterans is 1-800-827-1000. Clients are referred to and transferred to the Regional Office of Jurisdiction, where they can provide a service representative with required information. All collected information is used to determine eligibility for benefits, process ratings and to provide payments via the Department of Treasury. VBA employees may also contact a Veteran directly to obtain clarifying information for a claim for benefits.</p>
NCA	<p>MEM does receive information electronically from other systems, such as Veterans Benefits Management System (VBMS) eFolder via iHub, Identity and Access Management (IAM) Single Sign-On Internal (SSOi) and User Provisioning, VA Master Persons Index Enterprise (MPIe), and direct conversation with individual Veterans or Next of Kin. Information is received, reviewed, and collected through inbound and outbound telephone engagement, in-person contact, postal mail, and fax, to the National Cemetery Scheduling Office (NCSO), Applicant Assistance Unit (AAU), national cemeteries, and other NCA offices.</p> <p>Data is manually entered into all NCA systems except for the Enterprise Eligibility Office Automation System (EOAS). EOAS receives applications and documents via direct upload from VA.gov. Forms and supporting documentation required to verify memorial benefits eligibility, such as the DD-214, are scanned/uploaded into the document repositories such as FEITH, EOAS, and eFolder and stored in the Memorial Data Warehouse.</p> <p>AMAS processes approximately 360,000 claims for standard government headstones or markers (VA Form 40-1330) and Monument and Presidential Memorial Certificate Request (VA Form 40-0247) applications annually. Data from the forms are manually entered into the system. Forms and supporting documentation required to verify memorial benefits eligibility, such as the DD214, are scanned/uploaded.</p>

Information related to an employee's employment application may be gathered from the applicant for employment, which is provided to an application processing website, [USA Jobs](#).

Information from outside resources comes to the Area St. Petersburg using several methods, secure web portals, VPN connection, e-mail, and facsimile. Chief among these sources, are the DoD, SSA, and IRS. The DoD provides military records, including medical records compiled when the patient was a member of the US Military. Income information is verified using information from the Social Security Administration (SSA) and the Internal Revenue Service (IRS).

These data collections may be done using secure web portals, VPN connection, e-mail, facsimile. Electronic transmission methods are in accordance with VA policy. Paper records are shared with VSOs. VSOs use the local network to access Veteran Information on a case-by-case basis.

The Memorial Benefits Management System (MBMS) is under development to replace the BOSS-E and AMAS system suite. MBMS has replaced BOSS-E as the primary scheduling tool at the NCSO and will replace all NCA systems to include BOSS, AMAS, EOAS, Web-Presidential Memorial Certificates (Web-PMC), and Memorial Enterprise Letters (MEL) by 2025.

**1.4 What is the purpose of the information being collected, used, disseminated, created, or maintained?**

*Include a statement of why the particular PII/PHI is collected, maintained, used, or disseminated in the Area is necessary to the program or agency mission. Merely stating the general purpose of the Area without explaining why this particular type of information should be collected and stored is not an adequate response to this question.*

*If the Area collects, uses, disseminates, or maintains publicly available or commercial data, include a discussion of why commercial data is relevant and necessary to the Area's purpose.*

*This question is related to privacy control AP-2, Purpose Specification.*

The purposes of the information from Veterans and other members of the public collected, maintained, and processed by Area St. Petersburg are as varied as the types of information collected.

Much of the information collected is maintained, used, and disseminated to ensure that Veterans and other eligible individuals obtain the medical and mental health treatment they require. Additional information, such as bank account information and insurance information are used to process claims and requests for benefits. Other purposes include determination of legal authority for providers and other clinical staff to practice medicine and/or subject matter expertise, release of information request responses, and research/analysis of data.

*Purpose of Information Collection Table*

Site Type: VBA/VHA/NCA or Program Office	Purpose of Information Collection
VHA	<ul style="list-style-type: none"> <li>• To determine eligibility for health care and continuity of care</li> <li>• Emergency contact information in cases of emergency situations such as medical emergencies</li> <li>• Provide medical care</li> <li>• Communication with Veterans/patients and their families/emergency contacts</li> <li>• Determine legal authority for providers and health care workers to practice medicine and/or subject matter expertise</li> <li>• Responding to release of information request</li> <li>• Third party health care plan billing, e.g. private insurance</li> <li>• Statistical analysis of patient treatment</li> <li>• Contact for employment eligibility/verification</li> </ul>

Site Type: VBA/VHA/NCA or Program Office	Purpose of Information Collection
VBA	<ul style="list-style-type: none"> <li>• Compensation and Pension</li> <li>• Education</li> <li>• Vocational Rehabilitation and Employment</li> <li>• Loan Guaranty</li> <li>• Insurance</li> <li>• The primary services of the benefit systems entail the receipt, processing, tracking and disposition of Veterans' application for benefits and requests for assistance, and the general administration of legislated benefit programs. Information is collected to provide all entitled benefits in the most complete and effective manner</li> </ul>
NCA	<ul style="list-style-type: none"> <li>• MEM collects and maintains information to verify the identity and eligibility of the Veteran or decedent for burial and monument services</li> <li>• Information collected is used for gravesite locating</li> </ul>

**1.5 How will the information collected and used by the facilities be checked for accuracy? How often will it be checked?**

*Discuss whether and how often information stored in a facility within the Area is checked for accuracy. Is information within the facility checked against any other source of information (within or outside your organization) before the information is used to make decisions about an individual? For example, is there a computer matching agreement in place with another government agency? For a facility within the Area that receives data from internal data sources or VA IT systems, describe the checks to ensure that data corruption has not occurred during transmission.*

*If the Area checks for accuracy by accessing a commercial aggregator of information, describe this process and the levels of accuracy required by the contract.*

*This question is related to privacy controls DI-1, Data Quality, and DI-2, Data Integrity and Integrity Board.*

Information that is collected and used directly from enterprise systems have additional details regarding checks for accuracy in their own enterprise level PIAs.

Much of the information provided by veterans or other members of the public, such as address and phone number, next of kin and emergency contact information, and similar information are assumed to be accurate because it is provided directly by the individual. Additionally, information entered an individual's medical record by a doctor or other medical staff is also assumed to be accurate and is not verified.

Information is checked through the VBA to verify eligibility for VA benefits. Information about military service history is verified against official DoD military records and income information is verified using information from the Social Security Administration (SSA) and the Internal Revenue Service (IRS).

Employee, contractor, student, and volunteer information is obtained by automated tools as well as obtained directly by the individuals. The Federal Bureau of Investigation and Office of Personnel Management are contacted to obtain background reviews. Provider credentialing information is obtained from a variety of education resources.

Standard operating procedures (SOPs) are in place at NCA offices and cemeteries to perform quality control on data related to each case. As cases progress through the queues from NCSO case managers to the cemetery office staff, additional data integrity checks are conducted. Final data integrity checks are performed by cemetery operations staff who perform the interment after services.

**1.6 What specific legal authorities, arrangements, and agreements defined the collection of information?**

*List the full legal authority for operating the Area, specifically the authority to collect the information listed in question 1.1. Provide the authorities in a manner understandable to any potential reader, i.e., do not simply provide a legal citation; use statute names or regulations in addition to citations. Legal authorities include Federal laws, regulations, statutes, and Executive Orders.*

*This question is related to privacy control AP-1, Authority to Collect*

*Legal Authority Table*

Site Type: VBA/VHA/NCA or Program Office	Legal Authority
NCA	<ul style="list-style-type: none"> <li>• National Cemetery, Title 38, United States Code (U.S.C.) Chapter 38 § 101, 38 CFR Subpart B, 38 CFR 3.1700-CFR 3.1713. **1.7 PRIVACY IMPACT ASSESSMENT: Characterization of the information**

*Consider the specific data elements collected and discuss the potential privacy risks and what steps, if any are currently being taken to mitigate those identified risks.*

*Consider the following Fair Information Practice Principles (FIPPs) when assessing the risk to individual privacy:*

*Principle of Purpose Specification: Explain how the collection ties with the purpose of the underlying mission of the organization and its enabling authority.*

*Principle of Minimization: Is the information directly relevant and necessary to accomplish the specific purposes of the program?*

*Principle of Individual Participation: Does the program, to the extent possible and practical, collect information directly from the individual?*

*Principle of Data Quality and Integrity: Are there policies and procedures for VA to ensure that personally identifiable information is accurate, complete, and current?*

*This question is related to privacy control AR-1, Governance and Privacy Program, and AR-2, Privacy Impact and Risk Assessment.*

Follow the format below when entering your risk assessment:

**Privacy Risk:** VA Area St. Petersburg collects Personally Identifiable Information (PII) and a variety of other Sensitive Personal Information (SPI), such as Protected Health Information (PHI). Due to the highly sensitive nature of this data, there is a risk that, if the data were accessed by an unauthorized individual or otherwise breached, serious personal, professional, or financial harm may result for the individuals affected.

**Mitigation:** VA Area St. Petersburg employs a variety of security measures designed to ensure that

the information is not inappropriately disclosed or released. These measures include access control, awareness and training, audit and accountability, certification, accreditation, and security assessments, configuration management, contingency planning, identification and authentication, incident response, maintenance, media protection, physical and environmental protection, planning, personnel security, risk assessment, systems and services acquisition, system and communications protection, and system and information integrity. The Area employs all security controls in the respective high impact security control baseline unless specific exceptions have been allowed based on the tailoring guidance provided in the National Institute of Standards and Technology (NIST) Special Publication 800-37 and specific VA directives.

All employees with access to Veteran's health information are required to complete the Privacy and HIPAA Focused training as well as the VA Privacy and Information Security Awareness & Rules of Behavior training annually. The VA enforces two-factor authentication by enforcing smartcard logon requirements. PIV cards are issued to employees, contractors, and partners in accordance with HSPD-12. The Personal Identity Verification (PIV) Program is an effort directed and managed by the Homeland Security Presidential Directive 12 (HSPD-12) Program Management Office (PMO). IT Operations and Services (ITOPS) Solution Delivery (SD) is responsible for the technical operations support of the PIV Card Management System. Information is not shared with other agencies without a Memorandum of Understanding (MOU) or other legal authority.

## Section 2. Uses of the Information

The following questions are intended to clearly delineate the use of information and the accuracy of the data being used.

### 2.1 Describe how the information within the Area will be used in support of the program's business purpose.

*Identify and list each use (both internal and external to VA) of the information collected or maintained.*

*This question is related to privacy control AP-2, Purpose Specification.*

- **Name:** Used to identify the patient during appointments and in other forms of communication.
- **Social Security Number (SSN):** Used as a patient identifier and as a resource for verifying income Information with the Social Security Administration.
- **Date of Birth:** Used to identify age and confirm patient identity.
- **Mother's Maiden Name:** Used to confirm patient identity.
- **Mailing Address:** Used for communication, billing purposes and calculate travel pay.
- **Phone Numbers:** Used for communication, confirmation of appointments, and conduct Telehealth appointments.
- **Fax Number:** used to send forms of communication and records to business contacts, Insurance companies and health care providers.
- **Email Address:** used for communication and MyHealthVet secure communications.
- **Emergency Contact Information:** Used in cases of emergent situations such as medical emergencies.
- **Financial Account Information:** Used to calculate co-payments and VA health care benefit

eligibility.

- **Health Insurance Beneficiary Account Numbers:** Used to communicate and bill third part Health care plans.
- **Certificate/License numbers:** Used to track and verify legal authority to practice medicine and Licensure for health care workers in an area of expertise.
- **Driver License and Vehicle License Plate Number:** Used for assignment of employee parking and assignment of parking during events.
- **Internet Protocol (IP) Address Numbers:** Used for configuration and network connections. Network Communication allows information to be transferred from one Information Technology System to another.
- **Current Medications:** Used within the medical records for health care purposes/treatment, prescribing medications and allergy interactions.
- **Previous Medical Records:** Used for continuity of health care.
- **Race/Ethnicity:** Used for patient demographic information and for indicators of ethnicity-related diseases.
- **Tax Identification Number:** Used for employment, eligibility verification.
- **Medical Record Number:** Used to identify a patient within the medical record system without using their social security number as their identifier.
- **Name and address of Next of Kin:** Used in cases of emergent situations such as medical emergencies. Used when patient expires and in cases of patient incapacity.
- **Guardian Information:** Used when patient is unable to make decisions for themselves.
- **electronic Protected Health Information (ePHI):** Used for history of health care treatment, during treatment and plan of treatment when necessary.
- **Military History/Service Connection:** Used to evaluate medical conditions that could be related to location of military time served. It is also used to determine VA benefit and health care eligibility.
- **Service-connected Disabilities:** Used to determine VA health care eligibility and treatment plans/programs.
- **Employment Information:** Used to determine VA employment eligibility and for veteran contact, financial verification.
- **Veteran Dependent Information:** Used to determine benefit support and as an emergency contact person.
- **Disclosure Requestor Information:** Used to track and account for patient medical records released to requestors.
- **Death Certificate Information:** Used to determine date, location and cause of death.
- **Criminal Background Information:** Used to determine employment eligibility and during VA Police investigations.
- **Transcript and Education Information:** Used for demographic background information for patients and as a determining factor for VA employment in areas of expertise. Basic educational background, e.g., High School Diploma, college degree credentials.
- **Gender:** Used as patient demographic, identity and indicator for type of medical care/provider and medical tests required for individual.
- **Unlawful Activities:** Used to describe wilful possession of an illegal drug, dangerous object, or stolen item.
- **Diagnosis:** Used to describe or reveals the past, present, or future physical health.
- **Demographics:** Used as statistical data relating to population and particular groups.
- **Zip Code:** Used for communication, billing purposes, and to calculate travel pay.
- **Marital Status:** Used to verify spousal and beneficiary eligibility.
- **Relationship to Veteran:** Used to determine relationship to Veteran.

- **Date of Death:** Used to verify spouse and beneficiary relations to Veteran at time of death.
- **Service Information:** Used to verify eligibility.
- **Benefit Information:** Used to verify burial benefits.
- **Funeral Information:** Used to coordinate burial services.
- **Funeral Home Information:** Used to contact funeral home or other service coordinator information.
- **Burial Information:** Used to verify place of burial, burial service, and headstone data.
- **Applicant's Name and Address:** Used to make burial arrangements.
- **Veteran Information:** Used to verify identity and eligibility of health care and benefits.
- **Medical PII/PHI Statistics:** Used to formulate health care operations and for purposes of medical treatments.
- **Dental Records:** Used for health care purposes and treatments and identification purposes.
- **Health Insurance Information:** Used for billing purposes and benefits purposes.

The data may be used for approved research purposes. The data may be used also for such purposes as assisting in the scheduling of tours of duties and job assignments of employees; the scheduling of patient treatment services, including nursing care, clinic appointments, surgery, diagnostic and therapeutic procedures; the repair and maintenance of equipment and for follow-up activities to determine that the actions were accomplished and to evaluate the results; the registration of vehicles and the assignment and utilization of parking spaces; to plan, schedule, and maintain rosters of patients, employees and others attending or participating in sports, recreational or other events (e.g., National Wheelchair Games, concerts, picnics); for audits, reviews and investigations conducted by staff of the health care facility, the Network Directors Office, VA Central Office, and the VA Office of Inspector General (OIG); for quality assurance audits, reviews, investigations and inspections; for law enforcement investigations; and for personnel management, evaluation and employee ratings, and performance evaluations.

## **2.2 What types of tools are used to analyze data and what type of data may be produced?**

*Many facilities within an Area sift through large amounts of information in response to a user inquiry or programmed functions. Facilities may help identify areas that were previously not obvious and need additional research by agents, analysts, or other employees. Some facilities perform complex analytical tasks resulting in, among other types of data, matching, relational analysis, scoring, reporting, or pattern analysis. Describe any type of analysis facilities within the Area conduct and the data that is created from the analysis.*

*If the facility creates or makes available new or previously unutilized information about an individual, explain what will be done with the newly derived information. Will it be placed in the individual's existing record? Will a new record be created? Will any action be taken against or for the individual identified because of the newly derived data? If a new record is created, will the newly created information be accessible to Government employees who make determinations about the individual? If so, explain fully under which circumstances and by whom that information will be used.*

*This question is related to privacy controls DI-1, Data Quality, DI-2, Data Integrity and Integrity Board, and SE-1, Inventory of Personally Identifiable Information*

The VA Area St. Petersburg uses statistics and analysis to create general reports that provide the VA a better understanding of patient care, benefits, etc. These reports are:

1. Reports created to analyze statistical analysis on case mixes.
2. Analyze the number of places and geographical locations where patients are seen to assess the volume of clinical need.
3. Analyze appointment time-frame data to track and trend averages of time.
4. Reports created to analyze the claims processing status.

These reports may track:

- The number of patients enrolled, provider capacity, staffing ratio, new primary care patient wait time, etc. for Veterans established with a Patient Care Aligned Team (PACT)
- Beneficiary travel summary/benefits
- Workload and cost resources for various services, i.e., mental health, primary care, home dialysis, fee services, etc.
- Daily bed management activity
- Coding averages for outpatient/inpatient encounters
- Satisfaction of Healthcare Experience of Patients (SHEP) data as it pertains to customer satisfaction regarding outpatient/inpatient services
- Unique patient trends
- Clinic wait times

Letters to veterans concerning the progress of their claim are generated periodically, as well as rating decisions and requests for additional information to substantiate the claim. These letters are generated electronically and printed on paper and mailed to the veteran.

**2.3 PRIVACY IMPACT ASSESSMENT: Use of the information. How is access to the PII/PHI determined? Are criteria, procedures, controls, and responsibilities regarding access documented? Does access require manager approval? Is access to the PII/PHI being monitored, tracked, or recorded? Who is responsible for assuring safeguards for the PII/PHI?**

*Describe any types of controls that may be in place to ensure that information is handled in accordance with the uses described above. Example: Describe if training for users of the project covers how to appropriately use information. Describe the disciplinary programs or Area controls (i.e., denial of access) that are in place if an individual is inappropriately using the information.*

*Consider the following FIPPs below to assist in providing a response:*

Principle of Transparency: *Is the PIA and SORN, if applicable, clear about the uses of the information?*

Principle of Use Limitation: *Is the use of information contained in the facilities relevant to the mission of the project?*

*This question is related to privacy control AR-4, Privacy Monitoring and Auditing, AR-5, Privacy Awareness and Training, and SE-2, Privacy Incident response.*

The controls in place to assure that the information is handled in accordance with the uses described above include mandatory online information security and Privacy and HIPAA training; face-to-face

training for all incoming new employees conducted by the Information System Security Officer and Privacy Officer; regular audits of individuals accessing sensitive information; and formal administrative rounds during which personal examine all areas within the facility to ensure information is being appropriately used and controlled.

### **Section 3. Retention of Information**

The following questions are intended to outline how long information will be retained after the initial collection.

#### **3.1 What information is retained by the facilities within the Area?**

*Identify and list all information collected from question 1.1 that is retained by the facilities within the Area.*

*This question is related to privacy controls DM-1, Minimization of Personally Identifiable Information, and DM-2, Data Retention and Disposal*

The Area St. Petersburg, itself, does not retain information.

- **Name**
- **Previous Medical Records**
- **Social Security Number (SSN)**
- **Race/Ethnicity**
- **Date of Birth**
- **Name and address of Next of Kin**
- **Mother's Maiden Name**
- **Guardian Information**
- **Mailing Address**
- **electronic Protected Health Information (ePHI)**
- **Military History/Service Connection**
- **Phone Numbers**
- **Fax Number**
- **Service-connected Disabilities**
- **Employment Information**
- **Email Address**
- **Veteran Dependent Information**
- **Emergency Contact Information**
- **Disclosure Requestor Information**
- **Financial Account Information**
- **Death Certificate Information**
- **Health Insurance Beneficiary Account Numbers**
- **Certificate/License numbers**
- **Internet Protocol (IP) Address Numbers**
- **Current Medications**
- **Driver License and Vehicle License Plate Number**
- **Tax Identification Number**
- **Medical Record Number**

- **Criminal Background Information**
- **Transcript and Education Information**
- **Gender**
- **Unlawful Activities**
- **Diagnosis**
- **Demographics**
- **Zip Code**
- **Marital Status**
- **Relationship to Veteran**
- **Date of Death**
- **Service Information**
- **Benefit Information**
- **Funeral Information**
- **Funeral Home Information**
- **Burial Information**
- **Applicant's Name and Address**
- **Veteran Information**
- **Medical PII/PHI Statistics**
- **Dental Records**
- **Health Insurance Information**

### 3.2 How long is information retained by the facilities?

*In some cases, VA may choose to retain files in active status and archive them after a certain period of time. State active file retention periods, as well as archived records, in number of years, for the information and record types. For example, financial data held within your Area may have a different retention period than medical records or education records held within your Area, please be sure to list each of these retention periods.*

*The VA records officer should be consulted early in the development process to ensure that appropriate retention and destruction schedules are implemented.*

*This question is related to privacy control DM-2, Data Retention and Disposal.*

*Length of Retention Table*

<b>Site Type: VBA/VHA/NCA or Program Office</b>	<b>Length of Retention</b>
VHA	<ul style="list-style-type: none"> <li>• Financial Records: Different forms of financial records are retained 1-7 years based on specific retention schedules. Please refer to VA Record Control Schedule (RCS)10-1, Part Two, Chapter Four- Finance Management</li> <li>• Patient medical records are retained for a total of 75 years after the last episode of care. (Department of Veterans Affairs Record Control Schedule (RCS)10-1, Part Three, Chapter Six- Healthcare Records, Item 6000.1a. and 6000.1d.</li> <li>• Official Human Resources Personnel File: Folder will be transferred to the National Personnel Records Center (NPRC)</li> </ul>

Site Type: VBA/VHA/NCA or Program Office	Length of Retention
	<p>within 30 days from the date an employee leaves the VA. NPRC will destroy 65 years after separation from Federal service. (Department of Veterans Affairs Record Control Schedule (RCS)10-1, Part Two, Chapter Three- Civilian Personnel, Item No. 3000.1</p> <ul style="list-style-type: none"> <li>Office of Information &amp; Technology (OI&amp;T) Records: These records are created, maintained and disposed of in accordance with Department of Veterans Affairs, Office of Information &amp; Technology RCS 005-1</li> </ul>
VBA	<ul style="list-style-type: none"> <li>Compensation, pension, and vocational rehabilitation claims folders are retained at the servicing regional office until they are inactive for three years, after which they are transferred to the Records Management Center (RMC) for the life of the Veteran.</li> <li>Official legal documents (e.g., birth certificates, marriage licenses) are returned to the claimant after copies are made for the claimant's file. At the death of the Veteran, these records are sent to the Federal Records Center (FRC) and maintained by the National Archives and Records Administration (NARA) in accordance with NARA policy.</li> <li>Once a file is electronically imaged and accepted by VBA, its paper contents (with the exception of documents that are the official property of the Department of Defense, and official legal documents), are destroyed in accordance with Records Control Schedule VB-1 Part 1 Section XIII, as authorized by NARA.</li> <li>Documents that are the property of the Department of Defense are either stored at the RMC or transferred to NARA and maintained in accordance with NARA policy.</li> <li>Vocational Rehabilitation counseling records are maintained until the exhaustion of a Veteran's maximum entitlement or upon the exceeding of a Veteran's delimiting date of eligibility (generally, ten or twelve years from discharge or release from active duty), whichever occurs first, and then destroyed.</li> <li>Automated storage media containing temporary working information are retained until a claim is decided, and then destroyed. All other automated storage media are retained and disposed of in accordance with disposition authorization approved by NARA.</li> <li>Education electronic folders are retained at the servicing Regional Processing Office. Education folders may be destroyed in accordance with the times set forth in the Veterans Benefits Administration Records Management, Records Control Schedule VB-1, Part 1, Section VII, as authorized by NARA.</li> <li>Employee productivity records are maintained for two years after which they are destroyed by shredding.</li> </ul>

Site Type: VBA/VHA/NCA or Program Office	Length of Retention
NCA	<ul style="list-style-type: none"> <li>• Veterans (Deceased) Headstone or Marker Records-VA SORN 48VA40B: Retained indefinitely</li> <li>• <a href="#">NCA Records Control Schedule, NC1-15-85-9</a></li> <li>• NCA RCS (Available upon request)</li> </ul>

**3.3 Has the retention schedule been approved by the VA records office and the National Archives and Records Administration (NARA)? If so, please indicate the name of the records retention schedule.**

*An approved records schedule must be obtained for any IT system that allows the retrieval of a record via a personal identifier. The VA records officer will assist in providing a proposed schedule. The schedule must be formally offered to NARA for official approval. Once NARA approves the proposed schedule, the VA records officer will notify the Area owner.*

*This question is related to privacy control DM-2, Data Retention and Disposal.*

*Retention Schedule Table*

Site Type: VBA/VHA/NCA or Program Office	Retention Schedule
VHA	<a href="#">Records Control Schedule 10-1</a>  <a href="#">Records Control Schedule 005-1</a>
VBA	<a href="#">Veterans Benefits-1</a>
NCA	<a href="#">Veterans (Deceased) Headstone or Marker Records-VA, SOR 48VA40B</a>  <a href="#">NCA Records Control Schedule, NC1-15-85-9</a>  NCA RCS (Available upon request)

**3.4 What are the procedures for the elimination of PII/PHI?**

*Explain how records are destroyed or eliminated at the end of the retention period. Please give the details of the process. For example, are paper records shredded on site, or by a shredding company and accompanied by a certificate of destruction, etc.?*

*This question is related to privacy control DM-2, Data Retention and Disposal*

Information within the Area St. Petersburg is destroyed by the disposition guidance of RCS 10-1, VB-1, etc. Paper documents are destroyed to an unreadable state in accordance with the Department

of Veterans' Affairs VA Directive 6371, (April 8, 2014)

Electronic data and files of any type, including Protected Health Information (PHI), Sensitive Personal Information (SPI), Human Resources records, and more are destroyed in accordance with [Department of Veterans' Affairs Directive 6500 VA Cybersecurity Program \(January 23, 2019\)](#). When required, this data is deleted from their file location and then permanently deleted from the deleted items or Recycle bin. Magnetic media is wiped and sent out for destruction per VA Directive 6500. Digital media is shredded or sent out for destruction per VA Directive 6500.

Paper records are shredded on-site by a shredding company, witnessed by the Records Management Officer, and are accompanied by a certificate of destruction. Non-paper records maintained on magnetic media are destroyed by erasing the magnetic media using an approved software to digitally overwrite the media. The media is then shredded on-site by the contracted shredding company, witnessed by the Records Management Officer per VBA Directive 6300.

Paper records are shredded on site to a degree that definitively ensures that they are not readable or reconstructed to any degree per VA Directive 6371 or by a contracted shredding company, tracked with VA Form 7468, destruction log or certificate of destruction.

**3.5 Does the Area include any facility or program that, where feasible, uses techniques to minimize the risk to privacy by using PII for research, testing, or training?**

*Organizations often use PII for testing new applications or information systems prior to deployment. Organizations also use PII for research purposes and for training. These uses of PII increase the risks associated with the unauthorized disclosure or misuse of the information. Please explain what controls have been implemented to protect PII used for testing, training and research. Have policies and procedures been developed to minimize the use of PII for testing, training, and research?*

*This question is related to privacy control DM-3, Minimization of PII Used in Testing, Training and Research*

NCA: PII collected by MEM is not used for research, testing or training.

**3.6 PRIVACY IMPACT ASSESSMENT: Retention of information**

*Discuss the risks associated with the length of time data is retained and what steps, if any, are currently being taken to mitigate those identified risks.*

*While we understand that establishing retention periods for records is a formal process, there are policy considerations behind how long a project keeps information. The longer a project retains information, the longer it needs to secure the information and assure its accuracy and integrity. The proposed schedule should match the requirements of the Privacy Act to keep the minimum amount of PII for the minimum amount of time, while meeting the Federal Records Act. The schedule should align with the stated purpose and mission of the Area.*

*Consider the following FIPPs below to assist in providing a response:*

*Principle of Minimization: Does the project retain only the information necessary for its purpose? Is the PII retained only for as long as necessary and relevant to fulfill the specified purposes?*

Principle of Data Quality and Integrity: *Has the PIA described policies and procedures for how PII that is no longer relevant and necessary is purged?*

*This question is related to privacy controls DM-1, Minimization of Personally Identifiable Information, and DM-2, Data Retention and Disposal.*

Follow the format below:

**Privacy Risk:** There is a risk that the information maintained by Area St. Petersburg could be retained for longer than is necessary to fulfill the VA mission. Records held longer than required are at greater risk of being unintentionally released, breached, or exploited for reasons other than what is described in the privacy documentation associated with the information.

**Mitigation:** To mitigate the risk posed by information retention, Area St. Petersburg adheres to the VA RCS schedules for each category or data it maintains. When the retention data is reached for a record, the medical center will carefully dispose of the data by the determined method as described in question 3.4. The Area St. Petersburg ensures that all personnel involved with the collection, use and retention of data are trained in the correct process for collecting, using and retaining this data. A Records Management Officer (RMO), Privacy Officer (PO) and an Information System Security Officer (ISSO) are assigned to the Area to ensure their respective programs are understood and followed by all to protect sensitive information from the time it is captured by the VA until it is finally disposed of. Each of these in-depth programs have controls that overlap and are assessed annually to ensure requirements are being met and assist staff with questions concerning the proper handling of information.

File plans are created by each individual office/facility, according to NCA RCS and GRS. File plans are updated and inventoried annually or as needed for business.

## **Section 4. Internal Sharing/Receiving/Transmitting and Disclosure**

The following questions are intended to define the scope of information sharing/receiving/transmitting within VA.

**4.1 With which internal organizations are facilities within the Area sharing/receiving/transmitting information with? What information is shared/received/transmitted, and for what purpose? How is the information transmitted?**

**Note: Question #3.5 (second table) in the Area Privacy Threshold Analysis should be used to answer this question.**

*Identify and list the names of any program offices, contractor-supported IT systems, and any other organization or IT Area within VA with which information is shared.*

*State the purpose for the internal sharing. If you have specific authority to share the information, provide a citation to the authority.*

*For each interface with a system outside each facility, state what specific data elements (PII/PHI) are shared with the specific program office, contractor-supported IT system, and any other organization or IT system within VA.*

*Describe how the information is transmitted. For example, is the information transmitted electronically, by paper, or by some other means? Is the information shared in bulk, on a case-by-case basis, or does the sharing partner have direct access to the information?*

*This question is related to privacy controls AP-2, Purpose Specification, AR-3, Privacy Requirements for Contractors and Service Providers, AR-8, Accounting of Disclosures, TR-1, Privacy Notice, and UL-1, Internal Use.*

Data Shared internally by facilities within the Area including VA Enterprise Systems Organizations

<b>List the Program Office or IT System information is shared/received with</b>	<b>List the purpose of the information being shared /received with the specified program office or IT System</b>	<b>List the specific data element types such as PII/PHI that are shared/received with the Program Office or IT System</b>	<b>Describe the method of transmittal</b>	<b>Applicable Sites within Area (VBA, VHA, NCA, Program Office)</b>
VA Vet Center	Info. is shared to allow verification of veteran continuity of care and eligibility	Read only access to health info. for plan of treatments	Electronically reviewed through Computerized Patient Record System (CPRS)	Bay Pines VA Healthcare System
Health Eligibility Center (HEC)	Eligibility	Name, SSN, DOB, gender, demographics, electronic Protected Health Info. (ePHI)	Transmitted electronically	Bay Pines VA Healthcare System
Veterans Health Administration (VHA)	Determine eligibility for veteran compensation	Name, SSN, DOB, address, zip code, phone number, email address, emergency contact info., financial account info., health insurance beneficiary account numbers, demographics, electronic Protected Health Info. (ePHI), medical record number, current medications	Electronic transmission is in accordance with VA policy. Paper records are shared with the VHA to conduct medical examinations to determine veteran's eligibility for compensation. The VHA accesses Veteran Info. in VBMS and VIS to verify eligibility.	Bay Pines VA Healthcare System, SPRO VBA
Burial Operations Support System - Enterprise (BOSS- E)	To support legacy users	memorial info.; birth date, email, Name, gender, address, date of death, marital status, military honors, relationship to veteran, SSN,	Secure Database Connection – Oracle Forms based application backed by an Oracle 12c database	NCA - National cemeteries and other NCA offices, as needed for processing

List the Program Office or IT System information is shared/received with	List the purpose of the information being shared /received with the specified program office or IT System	List the specific data element types such as PII/PHI that are shared/received with the Program Office or IT System	Describe the method of transmittal	Applicable Sites within Area (VBA, VHA, NCA, Program Office)
		phone, county, military service release from active duty (RAD) date, veteran's period of service, veteran's war period		
Identity and Access Management (IAM)	User access control	PII - Identity Access Info. for User access control: Name, address, SSN (data encrypted)	REST Web Service API (HTTP)	NCA - National cemeteries and other NCA offices, as needed for processing
VA Master Persons Index Enterprise (MPIe)	To have the ability to search the authoritative data source for Veterans, MPI, to ensure that they are not creating duplicate contact records in applications built on the Salesforce platform	First Name, Middle Name, Last Name, Social Security Number (SSN), Date of Birth (DOB), gender, Phone Number, Place of Birth (POB) City, Place of Birth (POB) State, Mother's Maiden Name	REST Web Service API (HTTP)	NCA - National cemeteries and other NCA offices, as needed for processing
VA National Cemetery Administration (NCA)	Memorial Benefits Management System (MBMS); BOSS (Burial Operations Support System); AMAS (Automated Monument Application System); MADSS (Management and Decision Support System); EOAS (Eligibility Office Automation System); PMCS (Presidential	Benefits, decedent, claimant, requestor, beneficiary info., Names, addresses, social security numbers. Name, SSN, DOB, Address, Race/ Ethnicity, personal representative/ funeral home	Info. may be transmitted upon request in a written or verbal format based on the individual request; Electronically shared via network connections	NCA - National cemeteries and other NCA offices, as needed for processing

List the Program Office or IT System information is shared/received with	List the purpose of the information being shared /received with the specified program office or IT System	List the specific data element types such as PII/PHI that are shared/received with the Program Office or IT System	Describe the method of transmittal	Applicable Sites within Area (VBA, VHA, NCA, Program Office)
	Memorial Certificate System) Veterans Benefit Management System (VBMS); Master Person Index (MPI)			

**4.2 PRIVACY IMPACT ASSESSMENT: Internal sharing and disclosure**

*Discuss the privacy risks associated with the sharing of information within the Department and what steps, if any, are currently being taken to mitigate those identified risks.*

*This question is related to privacy control UL-1, Internal Use.*

Follow the format below:

**Privacy Risk:** The internal sharing of data is necessary individuals to receive benefits at the Area St. Petersburg. However, there is a risk that the data could be shared with an inappropriate VA organization or institution which could result in a breach of privacy and disclosure of PII/PHI to unintended parties or recipients.

**Mitigation:** Safeguards implemented to ensure data is not sent to the wrong VA organization are employee security and privacy training and awareness and required reporting of suspicious activity. Use of secure passwords, access for need-to-know basis, Personal Identification Verification (PIV) Cards, Personal Identification Numbers (PIN), encryption is implemented and includes Advanced Encryption Standard (AES), and access authorization are all measures that are utilized within the facilities. Access to sensitive information and the systems where the information is stored is controlled by the VA using a “least privilege/need to know” policy. Access must be requested and only the access required by VA persons or processes acting on behalf of VA persons is to be requested or granted.

**Section 5. External Sharing/Receiving and Disclosure**

The following questions are intended to define the content, scope, and authority for information sharing external to VA, which includes Federal, State, and local governments, and the private sector.

**5.1 With which external organizations (outside VA) is information shared/received? What information is shared/received, and for what purpose? How is the information transmitted and what measures are taken to ensure it is secure?**

**Is the sharing of information outside the agency compatible with the original collection? If so,**

**is it covered by an appropriate routine use in a SORN? If not, please describe under what legal mechanism the facility is allowed to share the information in identifiable form or personally identifiable information outside of VA.**

**Note: Question #3.6 in the Area Privacy Threshold Analysis should be used to answer this question.**

*Identify and list the names of any Federal, State, or local government agency or private sector organization with which information is shared.*

*For each interface with a Area outside VA, state what specific data elements (PII/PHI) are shared with each specific partner.*

*What legal mechanisms, authoritative agreements, documentation, or policies are in place detailing the extent of the sharing and the duties of each party? For example, is the sharing of data compatible with your SORN? Then list the SORN and the applicable routine use from the SORN. Is there a Memorandum of Understanding (MOU), Computer Matching Agreement (CMA), or law that mandates the sharing of this information?*

*Describe how the information is transmitted to entities external to VA and what security measures have been taken to protect it during transmission.*

*This question is related to privacy control UL-2, Information Sharing with Third Parties*

Data Shared with External Organizations.

<b>List External Program Office or IT System information is shared/received with</b>	<b>List the purpose of information being shared / received / transmitted with the specified program office or IT System</b>	<b>List the specific data element types such as PII/PHI that are shared/received with the Program or IT System</b>	<b>List the legal authority, binding agreement, SORN routine use, etc. that permit external sharing (can be more than one)</b>	<b>List the method of transmission and the measures in place to secure data</b>	<b>Applicable Sites within Area (VBA, VHA, NCA, Program Office)</b>
Social Security Administration (SSA)	Eligibility for Federal benefits	Name, SSN, address	National ISA/MOU, Title 38, USC Section 5701	S2S, IPSEC tunnel, Secure FTP	SPRO VBA
Social Security Disability (SSD)	Info. shared allows VA and SSA to send and receive data to identify disability, payments, other info.	Name, SSN, address, financial account info.	Title 38, USC, Section 5701, SORN 79VA10P2	Secure web portal	Bay Pines VA Healthcare System, SPRO VBA

<b>List External Program Office or IT System information is shared/received with</b>	<b>List the purpose of information being shared / received / transmitted with the specified program office or IT System</b>	<b>List the specific data element types such as PII/PHI that are shared/received with the Program or IT System</b>	<b>List the legal authority, binding agreement, SORN routine use, etc. that permit external sharing (can be more than one)</b>	<b>List the method of transmission and the measures in place to secure data</b>	<b>Applicable Sites within Area (VBA, VHA, NCA, Program Office)</b>
Internal Revenue Service (IRS)	Income verification	Name, SSN, DOB, address, phone number, financial account info.	ISA/MOU and Computer Matching Agreement	SSL	Bay Pines VA Healthcare System, SPRO VBA
Department of Defense (DoD)	Determine military service dates, eligibility	Name, SSN, DOB, address, zip code, phone number, veteran info., service info.	ISA/MOU for DoD, Privacy Act 1974, 5 USC, 552a, HIPAA, NIST 800-47	Bi-directional Health Info. Exchange	Bay Pines VA Healthcare System, SPRO VBA
Office of Personnel Management (OPM)	Assistance in employment and personal identity	Name, SSN, address, financial account info.	ISA/MOU; Title 38, USC, Section 5701, Section 511.202 of Title 5, Code of Federal Regulations	Electronic, paper, verbal	Bay Pines VA Healthcare System, SPRO VBA, Bay Pines NCA, Sarasota NCA
County Medical Examiner	Survivor death benefits	Cause of death, date of death, provider information	Title 38, USC, Section 5701, Standing Letter	Secure web portal	Bay Pines VA Healthcare System
National Practitioner Data Bank	Report of adverse events	Name of provider, date of birth, events surrounding adverse events, claim amount	Health Care Quality Improvement Act of 1986 (Public Law (Pub. L.) 99-660), Routine use of SORN 77VA10Q	Data Portal	Bay Pines VA Healthcare System

<b>List External Program Office or IT System information is shared/received with</b>	<b>List the purpose of information being shared / received / transmitted with the specified program office or IT System</b>	<b>List the specific data element types such as PII/PHI that are shared/received with the Program or IT System</b>	<b>List the legal authority, binding agreement, SORN routine use, etc. that permit external sharing (can be more than one)</b>	<b>List the method of transmission and the measures in place to secure data</b>	<b>Applicable Sites within Area (VBA, VHA, NCA, Program Office)</b>
State of Florida Licensing Board	Report of adverse events	Name, DOB, events surrounding adverse events	07VA138, 28VA119, 114VA16, Title 38 USC 501, and 38 USC 1710, 1729	FAX, Data Portal	Bay Pines VA Healthcare System
Contract Coding	Medical care cost recovery/ payment	diagnosis, service-connected disabilities, electronic Protected Health Info. (ePHI), health insurance info., demographics	Title 38, USC, Section 5701, National BAA	Virtual network	Bay Pines VA Healthcare System
State Veterans Home	Treatment and care of Veterans through the State Home Program	service-connected disabilities, health insurance info., demographics, emergency contact info., financial account info.	Title 38 CFR Part 51; 38 USC 1741 and 1745. Under 38 USC 1745	Secure web portal	Bay Pines VA Healthcare System
Florida Department of Health	Tracking of infectious diseases for epidemiology	health insurance info. (for infectious diseases), name and address of next of kin	Title 38, USC, Section 5701, Standing Letter	Secure web portal	Bay Pines VA Healthcare System
Florida Department of Children and Families	Investigations, reports of public health and safety	Name, SSN, address, zip code, phone number, guardian info., veteran dependent info.	Title 38, USC, Section 5701, Standing Letter	Secure fax, verbal, paper	Bay Pines VA Healthcare System, SPRO VBA

<b>List External Program Office or IT System information is shared/received with</b>	<b>List the purpose of information being shared / received / transmitted with the specified program office or IT System</b>	<b>List the specific data element types such as PII/PHI that are shared/received with the Program or IT System</b>	<b>List the legal authority, binding agreement, SORN routine use, etc. that permit external sharing (can be more than one)</b>	<b>List the method of transmission and the measures in place to secure data</b>	<b>Applicable Sites within Area (VBA, VHA, NCA, Program Office)</b>
Off-Site Storage	Record Storage	electronic Protected Health Info. (ePHI), demographics, health insurance info., employment info.	Title 38, USC, Section 5701	Document, paper	Bay Pines VA Healthcare System, SPRO VBA, Bay Pines NCA, Sarasota NCA
Department of Motor Vehicles	Facilitate public safety	demographics, driver license and vehicle license plate number	Title 38, USC, Section 5701	Secure fax, verbal, paper	Bay Pines VA Healthcare System, SPRO VBA
County and Local Police Agencies	Facilitate public safety	demographics (for patients and employees)	Title 38, USC, Section 5701, Standing	Secure fax, verbal, paper	Bay Pines VA Healthcare System, SPRO VBA, Bay Pines NCA, Sarasota NCA
Florida Department of Public Safety	Law Enforcement activities	Name, DOB, address, unlawful activities	103VA07B 20VA138, Standing Letter	Telephone, Fax	Bay Pines VA Healthcare System, SPRO VBA, Bay Pines NCA, Sarasota NCA

List External Program Office or IT System information is shared/received with	List the purpose of information being shared / received / transmitted with the specified program office or IT System	List the specific data element types such as PII/PHI that are shared/received with the Program or IT System	List the legal authority, binding agreement, SORN routine use, etc. that permit external sharing (can be more than one)	List the method of transmission and the measures in place to secure data	Applicable Sites within Area (VBA, VHA, NCA, Program Office)
Veteran Service Organizations <ul style="list-style-type: none"> <li>• Florida Department of Veterans Affairs</li> <li>• American Veterans</li> <li>• Disabled American Veterans</li> <li>• Paralyzed Veterans of America</li> <li>• Veterans of Foreign Wars</li> <li>• Vietnam Veterans of America</li> <li>• Wounded Warrior Project</li> </ul>	Assist Veterans with filing benefit claims	Read only access to COVERS, SHARE, VACOLS, Virtual VA, VBMS, MAP-D	SORN 58VA21/22/28 (July 19, 2012)	Electronic transmission methods through Citrix Access Gateway (CAG) if remote or Electronic access to the local office Lan if co-located.	SPRO VBA
Accredited Claims Representatives and Private Attorneys	Assist Veterans with filing benefit claims	Read only access to Covers, Share, VACOLS, Virtual VA, VBMS, MAP-D	SORN 58VA21/22/28 (July 19, 2012)	Electronic access to the local office	SPRO VBA
BOSS and Veterans Benefits Management Service (VBMS) - State and Tribal cemeteries	Benefits, decedent, claimant, requestor, and beneficiary info.	Names, addresses, service info., marriage /dependent status, and social security numbers	MOU - in draft	Electronic access within the system	NCA - State and Tribal cemeteries located within the area

List External Program Office or IT System information is shared/received with	List the purpose of information being shared / received / transmitted with the specified program office or IT System	List the specific data element types such as PII/PHI that are shared/received with the Program or IT System	List the legal authority, binding agreement, SORN routine use, etc. that permit external sharing (can be more than one)	List the method of transmission and the measures in place to secure data	Applicable Sites within Area (VBA, VHA, NCA, Program Office)
Salesforce Memorial Benefits Management System (MBMS)	The MBMS application will need to push/pull data from existing NCA data sources via Rest APIs exposed by MBMS. Functionality build includes Case Management, Eligibility, Scheduling	Names, addresses, service info., marriage /dependent status, and social security numbers	48VA40B - Veterans (Deceased) Headstone or Marker Record s-VA, per Title 38, United States Code: Sections 501(a), 501(b), and Chapter 24, Sections 2400-2404. ISA/MOU between Salesforce and MBMS system	Service Based	NCA - State and Tribal cemeteries located within the area
VAEC AWS	AWS hosted in VAEC is the government cloud that will serve as the infrastructure that hosts the BIP platform as a service and subsequent hosted minor application, MBMS	Names, addresses, service info., marriage /dependent status, and social security numbers	MBMS is a minor application under the BIP Platform ATO – all VAEC AWS agreements are between BIP and VAEC	Hosted Environment	NCA - State and Tribal cemeteries located within the area

The information with each application is categorized in accordance with FIPS 199 and NIST SP 800-60. As part of the categorization any PII is identified.

The VA has policies which direct and guide the activities and processes performed by the VA. The policies are periodically reviewed to ensure completeness and applicability.

The NIST SP 800-53 controls are selected based on the categorization. The controls provide protection for Veteran PII while developed or stored by an application or IT system, physically transported, between facilities, least privilege, stored offsite, or transmitted between IT centers.

Internal protection is managed by access controls such as user authentication (user IDs, passwords and Personal Identification Verification (PIV)), awareness and training, auditing, and internal network controls. Remote protection is provided by remote access control, authenticator management, audit, and encrypted transmission.

## **5.2 PRIVACY IMPACT ASSESSMENT: External sharing and disclosure**

*Discuss the privacy risks associated with the sharing of information outside the Department and what steps, if any, are currently being taken to mitigate those identified risks.*

*Discuss whether access controls have been implemented and whether audit logs are regularly reviewed to ensure appropriate sharing outside of the Department. For example, is there a Memorandum of Understanding (MOU), contract, or agreement in place with outside agencies or foreign governments.*

*Discuss how the sharing of information outside of the Department is compatible with the stated purpose and use of the original collection.*

*This question is related to privacy control AR-2, Privacy Impact and Risk Assessment, AR-3, Privacy Requirements for Contractors and Service Providers, and AR-4, Privacy Monitoring and Auditing*

Follow the format below:

**Privacy Risk:** The sharing of data is necessary for individuals to receive benefits at the Area St. Petersburg. However, there is a risk that the data could be shared with an inappropriate and/or unauthorized external organization or institution.

**Mitigation:** Safeguards implemented to ensure data is not shared inappropriately with organizations are employee security and privacy training and awareness and required reporting of suspicious activity. Use of secure passwords, access for need-to-know purposes, Personal Identification Verification (PIV) Cards, Personal Identification Numbers (PIN), encryption and access authorization are all measures that are utilized within the administrations. Standing letters for information exchange, business associate agreements and memorandums of understanding between agencies and VA are monitored closely by the Privacy Officer (PO), ISSO to ensure protection of information.

All personnel accessing Veteran's information must first have a successfully adjudicated background screening or Special Agreement Check (SAC). This background check is conducted by the Office of Personnel Management A background investigation is required commensurate with the individual's duties.

## Section 6. Notice

The following questions are directed at providing notice to the individual of the scope of information collected, the right to consent to uses of the information, and the right to decline to provide information.

**6.1 Was notice provided to the individual before collection of the information? If yes, please provide a copy of the notice in [Appendix A](#). (A notice may include a posted privacy policy, a Privacy Act notice on forms, or a system of records notice published in the Federal Register.) If notice was not provided, why not?**

*This question is directed at the notice provided before collection of the information. This refers to whether the person is aware that his or her information is going to be collected. A notice may include a posted privacy policy, a Privacy Act statement on forms, or a SORN published in the Federal Register. If notice was provided in the Federal Register, provide the citation.*

*If notice was not provided, explain why. If it was provided, attach a copy of the current notice.*

*Describe how the notice provided for the collection of information is adequate to inform those affected by the facilities within the Area that their information has been collected and is being used appropriately. Provide information on any notice provided on forms or on Web sites associated with the collection.*

*This question is related to privacy control TR-1, Privacy Notice, and TR-2, Area of Records Notices and Privacy Act Statements, and TR-3, Dissemination of Privacy Program Information.*

The Area St. Petersburg provides notice of information collection in several additional ways. The initial method of notification is in person during individual interviews or in writing via the Privacy Act statement on forms and applications completed by the individual. Additionally, the Department of Veterans Affairs also provides notice by publishing the following [VA System of Record Notices](#) (VA SORN) in the Federal Register and online.

### *Applicable SORs*

Site Type: VBA/VHA/NCA or Program Office	Applicable SORs
VHA	<ul style="list-style-type: none"> <li>• Non-VA Fee Basis Records-VA, SOR 23VA10NB3</li> <li>• Patient Medical Records-VA, SOR 24VA10A7</li> <li>• Veteran, Patient, Employee, and Volunteer Research and Development Project Records- VA, SOR 34VA10</li> <li>• Health Care Provider Credentialing and Privileging Records-VA, SOR 77VA10E2E</li> <li>• Veterans Health Information Systems and Technology Architecture (VistA) Records-VA, SOR 79VA10</li> <li>• Income Verification Records-VA, SOR 89VA10NB</li> <li>• Automated Safety Incident Surveillance and Tracking System-VA, SOR 99VA131</li> <li>• The Revenue Program Billings and Collection Records-VA, SOR 114VA10</li> </ul>

Site Type: VBA/VHA/NCA or Program Office	Applicable SORs
	<ul style="list-style-type: none"> <li>• National Patient Databases-VA, SOR 121VA10A7</li> <li>• Enrollment and Eligibility Records- VA 147-VA10NF1VHA Corporate Data Warehouse- VA 172VA10A&amp;</li> <li>• Health Information Exchange - VA 168VA005</li> </ul>
VBA	<ul style="list-style-type: none"> <li>• Compensation, Pension, Education, and Vocational Rehabilitation and Employment Records-VA, SOR 58VA21/22/28</li> </ul>
NCA	<ul style="list-style-type: none"> <li>• Veterans and Dependents National Cemetery Gravesite Reservation Records -VA SOR 41VA41</li> <li>• Veterans and Dependents National Cemetery Interment Records-VA SOR 42VA41</li> <li>• Veterans (Deceased) Headstone or Marker Records-VA, SOR 48VA40B</li> <li>• VA National Cemetery Pre-Need Eligibility Determination Records -VA SOR 175VA41A</li> </ul>
Special Purpose Systems	<ul style="list-style-type: none"> <li>• Applicants for Employment Under Title 38 – VA SOR 02VA135</li> <li>• Employee Medical File System Records – VA SOR 08VA05</li> <li>• Patient Advocate Tracking System Replacement (PATS-R) – VA SOR 100VA10H</li> <li>• Police and Security Records – VA SOR 103VA07B</li> <li>• Enrollment and Eligibility Records – VA SOR 147VA10</li> <li>• Customer Relationship Management System (CRMS) – VA SOR 155VA10</li> <li>• VHA Corporate Data Warehouse – VA SOR 172VA10</li> <li>• Non-VA Care (Fee) Records – VA SOR 23VA10NB3</li> <li>• Patient Medical Records – VA SOR 24VA10A7</li> <li>• Veterans and Beneficiaries Purchased Care Community Health Care Claims, Correspondence, Eligibility, Inquiry and Payment Files – VA SOR 54VA10NB3</li> <li>• Health Care Provider Credentialing and Privileging Records – VA SOR 77VA10A4</li> <li>• Veterans Health Information Systems and Technology Architecture (VistA) Records – VA SOR 79VA10</li> <li>• Automated Safety Incident Surveillance and Tracking System – VA SOR 99VA13</li> <li>• HealthShare Referral Manager (HSRM) – VA SOR 180VA10D</li> <li>• Community Care (CC) Provider Profile Management System (PPMS) – VA SOR 186VA10D</li> <li>• Veteran, Patient, Employee, and Volunteer Research and Development Project Records – VA SOR 34VA10</li> <li>• National Patient Databases – VA SOR 121VA10A7</li> </ul>

This Privacy Impact Assessment (PIA) also serves as notice of the Area St. Petersburg. As required by the eGovernment Act of 2002, Pub. L. 107–347 §208(b)(1)(B)(iii), the Department of Veterans Affairs “after completion of the [PIA] under clause (ii), make the privacy impact assessment publicly available through the website of the agency, publication in the Federal Register, or other means.”

The VHA Notice of Privacy Practice (NOPP) is a document which explains the collection and use of protected health information to individuals interacting with VA. The NOPP is mailed every three years or when there is a major change to all enrolled Veterans.

The following Written notice is on all VA forms: **PRIVACY ACT INFORMATION:** No allowance of compensation or pension may be granted unless this form is completed fully as required by law (38 U.S.C. 5101). The responses you submit are considered confidential (38 U.S.C. 5701). VA may disclose the information that you provide, including Social Security numbers, outside VA if the disclosure is authorized under the Privacy Act, including the routine uses identified in the VA system of records, 58VA21/22 Compensation, Pension, Education, and Rehabilitation Records - VA. The requested information is considered relevant and necessary to determine maximum benefits under the law. Information submitted is subject to verification through computer matching.

Employees and contractors are required to review, sign, and abide by the National Rules of Behavior on an annual basis.

All NCA forms include Privacy Act statement.

**6.2 Do individuals have the opportunity and right to decline to provide information? If so, is a penalty or denial of service attached?**

*This question is directed at whether the person from or about whom information is collected can decline to provide the information and if so, whether a penalty or denial of service is attached.*

*This question is related to privacy control IP-1, Consent, IP-2, Individual Access, and IP-3, Redress*

The Area St. Petersburg only requests information necessary to administer benefits to veterans and other potential beneficiaries. While an individual may choose not to provide information, this may prevent them from obtaining the benefits necessary to them.

Employees and VA contractors are also required to provide the requested information to maintain employment or their contract with Area St. Petersburg.

Responding to collection is voluntary however, if information is not provided, then benefits may be denied.

**6.3 Do individuals have the right to consent to uses of the information? If so, how does the individual exercise the right?**

*This question is directed at whether an individual may provide consent for specific uses or the consent is given to cover all uses (current or potential) of his or her information. If specific consent is required, how would the individual consent to each use?*

*This question is related to privacy control IP-1, Consent*

Site Type: VBA VHA, NCA or Program Office	Information Consent Rights
VHA	<p>Yes. Individuals must submit in writing to their facility PO. The request must state what information and/or to whom the information is restricted and must include their signature and date of the request. The request is then forwarded to facility Privacy Officer for review and processing. Individuals may also request to Opt-Out of the facility directory during an inpatient admission. If the individual chooses to opt-out, no information on the individual is given out.</p> <p>Individuals can request further limitations on other disclosures. A veteran, legal guardian or court appointed Power of Attorney can submit a request to the facility Privacy Officer to obtain information.</p>
VBA	<p>Once information is provided to VBA, the records are used, as necessary, to ensure the administration of statutory benefits to all eligible Veterans, Service members, reservists, and their spouses, surviving spouses and dependents. As such, individuals are not provided with the direct opportunity to consent to uses of information. However, if an individual wishes to remove consent for a particular use of their information, they should contact the nearest VA regional office, a list of which can be found on the <u>VBA</u> website.</p>
NCA	<p>Responding to collection is voluntary; therefore, consent of use is not applicable.</p>

**6.4 PRIVACY IMPACT ASSESSMENT: Notice**

*Describe the potential risks associated with potentially insufficient notice and what steps, if any, are currently being taken to mitigate those identified risks.*

*Consider the following FIPPs below to assist in providing a response:*

Principle of Transparency: *Has sufficient notice been provided to the individual?*

Principle of Use Limitation: *Is the information used only for the purpose for which notice was provided either directly to the individual or through a public notice? What procedures are in place to ensure that information is used only for the purpose articulated in the notice?*

*This question is related to privacy control TR-1, Privacy Notice, AR-2, Privacy Impact and Risk Assessment, and UL-1, Internal Use*

Follow the format below:

**Privacy Risk:** There is a risk that veterans and other members of the public will not know that the Area St. Petersburg exists or that it collects, maintains, and/or disseminates PII, PHI or PII/PHI about them.

**Mitigation:** This risk is mitigated by the common practice of providing the Notice of Privacy Practice (NOPP) when Veterans are enrolled for health care. s. Employees and contractors are required to review, sign and abide by the National Rules of Behavior on a yearly basis as required by VA Handbook 6500 as well as complete annual mandatory Information Security and Privacy Awareness training. Additional mitigation is provided by making the System of Record Notices (SOR) and Privacy Impact Assessment (PIA) available for review online, as discussed in question 6.1 and the Overview section of this PIA.

## **Section 7. Access, Redress, and Correction**

The following questions are directed at an individual's ability to ensure the accuracy of the information collected about him or her.

### **7.1 What are the procedures that allow individuals to gain access to their information?**

*Cite any procedures or regulations your program has in place that allow access to information. These procedures, at a minimum, should include the agency's FOIA/Privacy Act practices, but may also include additional access provisions. For example, if your program has a customer satisfaction unit, that information, along with phone and email contact information, should be listed in this section in addition to the agency's procedures. See 5 CFR 294 and the [VA FOIA Web page](#) to obtain information about FOIA points of contact and information about agency FOIA processes.*

*If the facilities within the Area are exempt from the access provisions of the Privacy Act, please explain the basis for the exemption or cite the source where this explanation may be found, for example, a Final Rule published in the Code of Federal Regulations (CFR).*

*If the facilities within the Area are not a Privacy Act Area, please explain what procedures and regulations are in place that covers an individual gaining access to his or her information.*

*This question is related to privacy control IP-2, Individual Access, and AR-8, Accounting of Disclosures.*

An individual wanting notification or access, including contesting the record, should mail or deliver a request to the office identified in the SOR. If an individual does not know the "office concerned," the request may be addressed to the PO of any VA field station VHA facility where the person is receiving care or the Department of Veterans Affairs Central Office, 810 Vermont Avenue, NW, Washington, DC 20420. The receiving office must promptly forward the mail request received to the office of jurisdiction clearly identifying it as "Privacy Act Request" and notify the requester of the referral.

When requesting access to one's own records, patients are asked to complete [VA Form 10-5345a: Individuals' Request for a Copy of their Own Health Information](#), which can be obtained from the medical center or online at <https://www.va.gov/find-forms/about-form-10-5345a>.

Additionally, veterans and their dependents can gain access to their Electronic Health Record (EHR) by enrolling in the my [HealthVet program](#), VA's online personal health record. More information about my HealthVet is available at <https://www.myhealth.va.gov/index.html>.

As directed in VA SOR Compensation, Pension, Education, and Vocational Rehabilitation and Employment Records-VA, SOR 58VA21/22/28(July 19, 2012), individuals seeking information regarding access to and contesting of VA records may write, call, or visit the nearest VA regional office. A list of regional VA offices may be found on the [VBA Website](#).

## **7.2 What are the procedures for correcting inaccurate or erroneous information?**

*Describe the procedures and provide contact information for the appropriate person to whom such issues should be addressed. If the correction procedures are the same as those given in question 7.1, state as much.*

*This question is related to privacy control IP-3, Redress, and IP-4, Complaint Management.*

Individuals are required to provide a written request to amend or correct their records to the appropriate Privacy Officer or System Manager as outlined in the Privacy Act SOR. Every Privacy Act SOR contains information on Contesting Record Procedure which informs the individual who to contact for redress. Further information regarding access and correction procedures can be found in the notices listed in [Appendix A](#).

The VHA Notice of Privacy Practices also informs individuals how to file an amendment request with VHA.

## **7.3 How are individuals notified of the procedures for correcting their information?**

*How are individuals made aware of the procedures for correcting his or her information? This may be through notice at collection or other similar means. This question is meant to address the risk that even if procedures exist to correct information, if an individual is not made fully aware of the existence of those procedures, then the benefits of the procedures are significantly weakened.*

*This question is related to privacy control IP-3, Redress, and IP-4, Complaint Management.*

Veterans are informed of the amendment process by many resources to include the VHA Notice of Privacy Practice (NOPP) which states:

### **Right to Request Amendment of Health Information.**

You have the right to request an amendment (correction) to your health information in our records if you believe it is incomplete, inaccurate, untimely, or unrelated to your care. You must submit your request in writing, specify the information that you want corrected, and provide a reason to support your request for amendment. All amendment requests should be submitted to the facility Privacy Officer at the VHA health care facility that maintains your information.

If your request for amendment is denied, you will be notified of this decision in writing and provided appeal rights. In response, you may do any of the following:

- File an appeal

- File a “Statement of Disagreement”
- Ask that your initial request for amendment accompany all future disclosures of the disputed health information

Individuals seeking information regarding access to and contesting of VA benefits records may write, call or visit the nearest VA regional office.

Additional notice is provided through the SORS listed in 6.1 of this PIA and through the Release of Information Office where care is received.

#### **7.4 If no formal redress is provided, what alternatives are available to the individual?**

*Redress is the process by which an individual gains access to his or her records and seeks corrections or amendments to those records. Redress may be provided through the Privacy Act and Freedom of Information Act (FOIA).*

*This question is related to privacy control IP-3, Redress, and IP-4, Complaint Management.*

*Example: Some projects allow users to directly access and correct/update their information online. This helps ensure data accuracy.*

Formal redress via the amendment process is available to all individuals, as stated in questions 7.1- 7.3.

In addition to the formal procedures discussed in question 7.2 to request changes to one’s health record, a veteran or other VAMC patient who is enrolled in MyHealthvet can use the system to make direct edits to their health records.

#### **7.5 PRIVACY IMPACT ASSESSMENT: Access, redress, and correction**

*Discuss what risks there currently are related to the Department’s access, redress, and correction policies and procedures for this Area and what, if any, steps have been taken to mitigate those risks. For example, if a project does not allow individual access, the risk of inaccurate data needs to be discussed in light of the purpose of the project. For example, providing access to ongoing law enforcement activities could negatively impact the program’s effectiveness because the individuals involved might change their behavior.*

*Consider the following FIPPs below to assist in providing a response:*

*Principle of Individual Participation: Is the individual provided with the ability to find out whether a project maintains a record relating to him?*

*Principle of Individual Participation: If access and/or correction is denied, then is the individual provided notice as to why the denial was made and how to challenge such a denial?*

*Principle of Individual Participation: Is there a mechanism by which an individual is able to prevent information about him obtained for one purpose from being used for other purposes without his knowledge?*

*This question is related to privacy control IP-3, Redress.*

Follow the format below:

**Privacy Risk:** There is a risk that members of the public will not know the relevant procedures for gaining access to, correcting, or contesting their information.

**Mitigation:** Area St. Petersburg mitigates the risk of incorrect information in an individual's records by authenticating information when possible, using the resources discussed in question 1.5. Additionally, staff verifies information in medical records and corrects information identified as incorrect during each patient's medical appointments.

As discussed in question 7.3, the NOPP, which every enrolled Veteran receives every three years or when there is a major change. The NOPP discusses the process for requesting an amendment to one's records.

The Area St. Petersburg Release of Information (ROI) office is available to assist Veterans with obtaining access to their health records and other records containing personal information. The Veterans' Health Administration (VHA) established MyHealthVet program to provide Veterans remote access to their medical records. The Veteran must enroll and have access to the premium account to obtain access to all the available features. In addition, VHA Directive 1605.01 Privacy and Release of Information establishes procedures for Veterans to have their records amended where appropriate.

## Section 8. Technical Access and Security

The following questions are intended to describe technical safeguards and security measures.

### **8.1 What procedures are in place to determine which users may access the Area, and are they documented?**

*Describe the process by which an individual receives access to the Area.*

*Identify users from other agencies who may have access to the Area and under what roles these individuals have access to the Area. Who establishes the criteria for what PII can be shared?*

*Describe the different roles in general terms that have been created to provide access to the Area. For example, certain users may have "read-only" access while others may be permitted to make certain amendments or changes to the information.*

*This question is related to privacy control AR-7, Privacy-Enhanced Area Design and Development.*

Individuals receive access to the Area St. Petersburg by gainful employment in the VA or upon being awarded a contract that requires access to the Area systems. Upon employment, the Office of Information & Technology (OI&T) creates computer and network access accounts as determined by employment positions assigned. Users are not assigned to software packages or network connections that are not part of their assigned duties or within their assigned work area. VA Area St. Petersburg requires access to the GSS be requested using the local access request system. VA staff must request access for anyone requiring new or modified access to the GSS. Staff are not allowed to request additional or new access for themselves.

Access is requested utilizing Electronic Permission Access Area (ePAS). Users submit access requests based on need to know and job duties. Supervisor, ISSO and OI&T approval must be obtained prior to access granted. These requests are submitted for VA employees, contractors and all

outside agency requests and are processed through the appropriate approval processes. Once access is granted, individuals can log into the system(s) through dual authentication, i.e., a PIV card with a complex password combination. Once inside the system, individuals are authorized to access information on a need-to-know basis.

Strict physical security control measures are enforced to ensure that disclosure to these individuals is also based on this same principle. Generally, VA file areas are locked after normal duty hours and the facilities are protected from outside access by the Federal Protective Service or other security personnel. Access to computer rooms at VA Area St. Petersburg is generally limited by appropriate locking devices and restricted to authorized VA IT employees. Access to information stored on automated storage media at other VA locations is controlled by individually unique passwords/codes. Access by Office of Inspector General (OIG) staff conducting an audit, investigation, or inspection at the health care area, or an OIG office location remote from the health care area, is controlled in the same manner.

Access to the Area St. Petersburg working and storage areas is restricted to VA employees who must complete both the HIPAA and Information Security training. Specified access is granted based on the employee's functional category. Role based training is required for individuals with significant information security responsibilities to include but not limited to Information System Security Officer (ISSO), local Area Manager, System Administrators, Network Administrators, Database Managers, Users of VA Information Systems or VA Sensitive Information.

Human Resources notify Divisions/Services, IT and ISSO of new hires and their start date(s) through HRsmart and email. The Divisions/Services that the person is going into fills out the local approved access request form, Automated Systems Access Request form, with name, SSN and/or claim number, job title, Division/Service and telephone number, along with marking the boxes on the form for application access that the user will need on the computer system. This form starts at the Divisions/Services level, is signed by the Divisions/Services Chief, then goes to the ISSO for review/approval signatures and then to OIT for implementation. Documentation is then retained.

- Individuals are subject to a background investigation before given access to Veteran's information.
- All personnel with access to Veteran's information are required to complete the VA Privacy and Information Security Awareness training and Rules of Behavior annually AND Privacy and HIPAA Focused Training.

Full time VARO employees, as their job requires it, have access to change Veteran Service Representative (VSR) and (RVSR) Rating Veteran Service Representatives have access to amend/change the information in the system, under the guidelines of least privilege, that is, users are granted the minimum accesses necessity to perform their duties. Work Study's' are limited to Inquiry only commands. Veteran Service Organizations (Co-located VSOs) and County or Out based VSOs (CVSOs) also have access to VA systems. These accesses are predefined and limited for these users. Individuals are subject to a background investigation before given access to Veteran's information. Private Attorneys, Claim Agents and Veteran Service Organizations Representatives must be accredited through the Office of General Counsel.

**8.2 Will VA contractors have access to the Area and the PII? If yes, what involvement will contractors have with the design and maintenance of the Area? Has a contractor confidentiality agreement or a Non-Disclosure Agreement (NDA) been developed for contractors who work on the Area?**

*If so, how frequently are contracts reviewed and by whom? Describe the necessity of the access provided to contractors to the Area and whether clearance is required. If Privacy Roles and Responsibilities have been established to restrict certain users to different access levels, please describe the roles and associated access levels. Explain the need for VA contractors to have access to the PII.*

*This question is related to privacy control AR-3, Privacy Requirements for Contractors and Service Providers.*

Contractors will have access to the Area after completing the VA Privacy and Information Security Awareness training and Rules of Behavior annually, and after the initiation of a background investigation. Contractors are only allowed access for the duration of the contract this is reviewed by the privacy officer and the designated Contracting Officer Representative (COR). Per the National Contractor Access Program (NCAP) guidelines, contractors can have access to the Area only after completing mandatory information security and privacy training, Privacy and HIPAA Focused Training as well as having completed a Special Agency Check, finger printing and having the appropriate background investigation scheduled with Office of Personnel Management. Certification that this training has been completed by all contractors must be provided to the employee who is responsible for the contract in question. In addition, all contracts by which contractors might access sensitive patient information must include a Business Associate Agreement which clarifies the mandatory nature of the training and the potential penalties for violating patient privacy. Contractors with VA Area St. Petersburg access must have an approved computer access request on file. The area manager, or designee, in conjunction with the ISSO and the applicable COR reviews accounts for compliance with account management requirements. User accounts are reviewed periodically in accordance with National schedules.

### **8.3 Describe what privacy training is provided to users either generally or specifically relevant to the program or Area?**

*VA offers privacy and security training. Each program or Area may offer training specific to the program or Area that touches on information handling procedures and sensitivity of information. Please describe how individuals who have access to PII are trained to handle it appropriately.*

*This question is related to privacy control AR-5, Privacy Awareness and Training.*

All Area St. Petersburg personnel, volunteers, and contractors are required to complete initial and annual VA Privacy and Information Security Awareness and Rules of Behavior (ROB) training, during New Employee Orientation (NEO) or via TMS. In addition, all employees who interact with patient sensitive medical information must complete the Privacy and HIPAA focused mandated privacy training. Finally, all new employees receive face-to-face training by the Area Privacy Officer and Information Security Officer during new employee orientation. The Privacy and Information Security Officers also perform subject specific trainings on an as needed basis.

Each site identifies personnel with significant information system security roles and responsibilities. (i.e., management, system managers, system administrators, contracting staff, HR staff), documents those roles and responsibilities, and provides appropriate additional information system security training. Security training records will be monitored and maintained.

The Talent Management System offers the following applicable privacy courses:

VA 10176: Privacy and Information Security Awareness and Rules of Behavior

**8.4 Has Authorization and Accreditation (A&A) been completed for the Area?**

8.4a If Yes, provide:

1. The Systems Security Plan Status: **Approved**
2. The Systems Security Plan Status Date: **18-Jul-2022**
3. The Authorization Status: **Authorization to Operate (ATO)**
4. The Authorization Date: **27-Jan-2022**
5. The Authorization Termination Date: **26-Jan-2025**
6. The Risk Review Completion Date: **10-Jan-2022**
7. The FIPS 199 classification of the system (LOW/MODERATE/HIGH): **Moderate**

Please note that all Areas containing PII/PHI are categorized at a minimum level of “moderate” under Federal Information Processing Standards Publication 199.

8.4b If No or In Process, provide your **Initial Operating Capability (IOC) date**.

**Section 9. References**
