

Dr. Pamela Nelson, Ph. D, MSN
President/CEO
Bracane Company

As chair of the MBEIC, I have had the privilege of leading the MBEIC committee. Leveraging prior experience as second vice chair to drive initiatives that have benefited our MBE community. I have led the MBEIC leadership to organize events focused on supporting our members, advocating for minority-owned businesses, and mentoring newly certified MBEs.

A key aspect of my leadership has been fostering partnerships among our members. By bringing companies together, facilitating introductions that lead to collaboration and mutual growth. The partnerships not only strengthen our network but also create opportunities for shared success within our community.

As chair, I will continue to represent all DFW MSDC certified MBEs and provide unwavering support without seeking self-promotion or personal benefits. My commitment is to advocate for our collective interests, ensuring that every voice is heard, and every member has access to the resources they need to thrive. My active representation of MBEs at local events, in Austin and Washington, DC has ensured our voices are heard in important conversations. This commitment to engaging with stakeholders has enriched our local MBE community.

As a passionate advocate for minority-owned businesses, I am dedicated to propelling our mission forward, ensuring every member has access to the tools and support they need to thrive and grow their business. My proven track record of leadership, deep understanding of our challenges, and unwavering commitment to our goals make me the ideal candidate to serve as MBEIC chair.
