WHEREAS, the City of San Diego's public rights-of-way are designed to accommodate a multimodal transportation system and are heavily utilized by residents and visitors; and

WHEREAS, several businesses have made electric bicycles, motorized bicycles, and motorized scooters (shared mobility devices) readily available for public use in the City through technology-based platforms; and

WHEREAS, due to their rapidly expanding availability, there has been a significant increase in the use of shared mobility devices operating on City rights-of-way and other City-owned property; and

WHEREAS, while the City desires to provide mobility options consistent with the City's Climate Action Plan and provide transportation alternatives to reduce vehicle use in the City, the proliferation of shared mobility devices creates public safety concerns due to improper usage, staging, and parking of devices, and excessive speeds in high pedestrian traffic areas; and

WHEREAS, the City has identified three pedestrian paths, Martin Luther King Jr. Promenade, the North and South Embarcadero pedestrian walk, and the pedestrian area on West Date Street known as the Piazza della Famiglia, where operation of shared mobility devices creates a significant safety hazard to pedestrians; and

WHEREAS, to protect the health and safety of pedestrians using those paths, the City desires to require shared mobility device rental companies to use geofencing technology to cause their devices to take the following actions: (i) notify the rider that the shared mobility device has entered a geofenced area; (ii) reduce the speed of the shared mobility device to three miles per hour; and (iii) prevent the device from locking; and

WHEREAS, the City has identified several other paths used by pedestrians, bicyclists, and riders of other devices, and desires to address congestion on these paths by requiring shared mobility device rental companies to use geofencing technology in a similar fashion to reduce speed to eight miles per hour; and

WHEREAS, California Vehicle Code section 21225 permits the City to regulate the registration of motorized scooters, and the parking and operation of motorized scooters on pedestrian and bicycle facilities and City streets and highways, if such regulations are not in conflict with the California Vehicle Code; and

WHEREAS, California Vehicle Code section 21207.5 allows the City to prohibit the operation of electric bicycles on bicycle paths or trails, equestrian trails, or hiking and recreational trails; and

WHEREAS, the City desires to create a shared mobility device permit program that will address safety by reducing sidewalk impediments, by educating users about proper riding and parking rules, and by creating a legal and enforceable framework for regulating shared mobility devices in the City's rights-of-way and on City-owned property; and

WHEREAS, the City further desires to charge fees to recover the cost of administering these permits and to charge a fee for the use of City-owned property by each shared mobility device put into operation by these companies; and

WHEREAS, the proposed regulations of shared mobility device rental companies may be enforced by provisions in Chapter 1 of the San Diego Municipal Code; NOW, THEREFORE,
