² Regulation (EU) 2021/695 of the European Parliament and of the Council of 28 April 2021 establishing Horizon Europe – the Framework Programme for Research and Innovation, laying down its rules for participation and dissemination, and repealing Regulations (EU) No 1290/2013 and (EU) No 1291/2013.

³ European Commission Implementing Decision C(2023) 2178 of 31 March 2023 concerning the amendment of the work programme for 2023-2024 and the financing decision for the implementation of the programme Widening participation and strengthening the European Research Area.

1. Background

The Commission's Communication on a "A new ERA for Research and Innovation" adopted on 30 September 2020⁴ reaffirmed gender equality as one of the priority areas to address for deepening the European Research Area (ERA) and strengthening the European research and innovation (R&I) potential. As this new ERA framework underlines, gender equality is also closely related to the development of an enhanced labour market for researchers, of improved research career assessment procedures, and of a transformative agenda for higher education institutions, which will ensure that talents in all their diversity can thrive in gender-equal, inclusive, fair, ethical and safe career environments.

The package adopted by the Council of the EU on 26 November 2021 further reinforces this priority setting: the Council Recommendation on a Pact for Research and Innovation in Europe⁵ sets gender equality and inclusiveness as a principle and value of the ERA, and the ERA Policy Agenda for 2022-2024, annexed to the Council Conclusions on the future governance of the ERA⁶, includes a dedicated action (Action 5) to promote gender equality and foster inclusiveness, taking note of the Ljubljana declaration on gender equality in R&I⁷. This entails supporting all aspects of gender equality through inclusive Gender Equality Plans (GEPs) and policies, with the "inclusive" dimension relating more specifically to the opening of gender equality policies to intersections with other social social categorisations and personal identities – and potential grounds for discrimination – such as racial or ethnic origin, disability, or sexual orientation and gender identity (cf. LGBTIQ⁸).

As several studies and the analysis carried out by Horizon 2020 funded project CASPER on existing national award and certification schemes for gender equality in research performing organisations, including universities, has shown⁹, awards and certification schemes implemented in different countries, in the EU and beyond, can be useful tools for advancing gender equality in academic, research and innovation organisations, with some awarding schemes effectively being used as drivers for competition in attracting students and researchers and/or as a prerequisite for having access to funding.

In this context an annual Prize has been established in 2022, the **EU Award for Gender Equality Champions**, to recognise the outstanding achievements of academic and research organisations through the implementation of GEPs.

A GEP is a set of commitments and actions that aim to promote gender equality in an organisation through institutional and cultural change. A GEP lifecycle, which typically

last around 3 to 5 years, contains the following phases, as highlighted in the [Horizon Europe Guidance on Gender Equality Plans](#)¹⁰:

- An audit phase (elements of this phase should include the collection of sex-disaggregated and/or gender-disaggregated data and a review of practices to identify gender inequalities and their causes. The audit stage should also include review of relevant national and regional laws, regulations, or funding requirements);
- A planning phase (during this phase, an organisation will set the objectives and targets for the GEP alongside a roadmap of actions and measures. This phase also includes allocating resources and responsibilities for the delivery of the GEP and agreeing timelines for implementation);
- An implementation phase (in which the roadmap of activities is implemented, including, for example, setting up working groups to develop and implement new policies and procedures. This phase should include awareness raising and training efforts to achieve buy-in and build capacity and support for the GEP across the organisation, as well as give visibility internally and externally to the GEP);
- A monitoring and evaluation phase (in which the delivery of the plan and progress against its aims and objectives are regularly assessed. Ongoing review of findings and progress will also provide space for learning and feedback to enable adjustments and improvements to interventions).

In the specific context of the Horizon Europe GEP eligibility criterion, to be compliant, the applicant's GEP must meet the four following mandatory process-related requirements (please see section 6. Eligibility)¹¹:

- publication: a formal document published on the institution's website and signed by the top management;
- dedicated resources: commitment of resources and expertise in gender equality to implement the plan;
- data collection and monitoring: sex/gender disaggregated data on personnel (and students, for the establishments concerned) and annual reporting based on indicators;
- training: awareness raising/training on gender equality and unconscious gender biases for staff and decision-makers.

Content-wise, it is recommended that the Horizon Europe applicant's GEP addresses the following thematic areas, using concrete measures and targets:

- work-life balance and organisational culture;
- gender balance in leadership and decision-making;
- gender equality in recruitment and career progression;

- integration of the gender dimension into research and teaching content;
- measures against gender-based violence, including sexual harassment.

2. Objectives — Themes and priorities — Activities— Expected results

Objectives

The “**EU Award for (Academic) Gender Equality Champions**” is a Prize scheme meant as a booster and complement to the requirement for higher education and research organisations applying to Horizon Europe to have in place a Gender Equality Plan (GEP) as an eligibility criterion¹², and a tool for advancing inclusive gender equality plans and policies in the framework of the new ERA policy agenda, as well as an enabler for the transformation agenda for universities set in the new ERA, in synergy with the European Education Area (EEA) and the European Higher Education Area (EHEA, Bologna process), and in line with the new Communication on a European Strategy for Universities adopted on 18 January 2022.

The Prize will be awarded to four academic or research organisations, and contestants can apply to one among the following three prize categories:

- **Sustainable Gender Equality Champions:** Organisations that can demonstrate a significant and sustained record of activity and a high level of achievement through the implementation of their GEP;
- **Newcomer Gender Equality Champions:** Organisations that have recently started implementing a GEP and can demonstrate the most progress in its implementation and achieved results;
- **Inclusive Gender Equality Champions:** Organisations that have developed the most innovative inclusive GEP addressing intersections with other social categories such as ethnicity, social origin, sexual orientation and gender identity (LGBTIQ) or disability.

Expected outcomes

- Enable the creation of a European community of academic and research champions in institutional transformation towards inclusive gender equality.
- Strengthening of the inclusiveness and connectivity objectives under the new European Research Area.

Expected results

The prizes will boost public awareness of the importance of addressing gender equality in academic and research organisations through institutional change, incentivise a high degree of commitment to the implementation of inclusive GEPs, and create a community of champions inspiring other academic and research organisations into becoming gender equality champions themselves.

8. Evaluation and award procedure

Applications will be subject to a formal evaluation by a **jury**.

The pre-selection panel and jury usually have a different composition, but jury members may participate in the pre-selection panel.

The pre-selection panel/jury will evaluate each application against the award criteria.

For applications with the same score, in each of the three prize categories, the pre-selection panel/jury will determine a **priority order** according to the following approach: The score for the criterion N° 1 will be given a weight of 2. If two or more applications still tie in any category, the prize in this category will be equally divided and awarded to all applications with the same score.

On the basis of the evaluation by the jury (and after the mandatory checks: *ethics review, security scrutiny, legal entity validation, non-exclusion, double funding and plagiarism, etc*), the awarding authority will decide on the award of the prize.

All applications will be informed about the evaluation result (**evaluation result letter**). Successful applications will be awarded the prize; the unsuccessful ones will be rejected.

If you believe that the evaluation procedure was flawed, you can submit a **complaint** (following the deadlines and procedures set out in the evaluation result letter). Please note that notifications are deemed to have been accessed (and received) 10 days after sending and that deadlines will be counted from then (*see also [Funding & Tenders Portal Terms and Conditions](#)*).

11. How to submit an application

All applications must be submitted directly online via the Funding & Tenders Portal Electronic Submission System. Paper applications are NOT accepted.

You can access the Portal [here](#), or by clicking 'Apply now' on the official prize webpage.

Submission is a **2-step** process:

a) create a user account and register your organisation

To use the Submission System (the only way to apply), all participants need to [create an EULogin user account](#).

Once you have an EULogin account, you can [register your organisation](#) in the Participant Register. When your registration is finalised, you will receive a 9-digit participant identification code (PIC).

b) submit the application

Access the Electronic Submission System via the Topic page in the [Search Funding & Tenders](#) section.

Submit your application in 3 parts, as follows:

- Part A includes administrative information about the applicant organisation . Fill it in directly online
- Part B (description of the action) covers the technical content of the application. Download the mandatory word template from the Submission System, fill it in and upload it as a PDF file
- Annex (see section 5). Upload it as a single PDF file.

The application must keep to the **page limits** (*see section 5*); excess pages will be disregarded.

Documents must be uploaded to the **right category** in the Submission System otherwise the application might be considered incomplete and thus inadmissible.

The application must be submitted **before the call deadline** (*see section 4*). After this deadline, the system is closed and applications can no longer be submitted.

Once the application is submitted, you will receive a **confirmation e-mail** (with date and time of your application). If you do not receive this confirmation e-mail, it means your application has NOT been submitted. If you believe this is due to a fault in the Submission System, you should immediately file a complaint via the [IT Helpdesk webform](#), explaining the circumstances and attaching a copy of the application (and, if possible, screenshots to show what happened).

Details on processes and procedures are described in the [Online Manual](#). The Online Manual also contains the links to FAQs and detailed instructions regarding the Portal Electronic Exchange System.

13. Important

IMPORTANT

- **Don't wait until the end** — Complete your application sufficiently in advance of the deadline to avoid any last minute **technical problems**. Problems due to last minute submissions (*e.g. congestion, etc.*) will be entirely at your risk. Call deadlines can NOT be extended.
- **Consult** the Portal Topic page regularly. We will use it to publish updates and additional information on the call (call updates).
- **Funding & Tenders Portal Electronic Exchange System** — By submitting the application, all applicants **accept** to use the electronic exchange system in accordance with the [Portal Terms & Conditions](#).
- **Registration** — Before submitting the application, all applicants must be registered in the [Participant Register](#). The participant identification code (PIC) (one per applicant) is mandatory for the Application Form.
- **No double funding** — There is a strict prohibition of double funding from the EU budget. Applications that have already received an EU prize cannot receive a second prize for the same activities.
- **Resubmission** — Applications may be changed and re-submitted until the deadline for submission. For first past the post prizes with cut-off dates, applications can be changed and re-submitted until the cut-off date; the re-submission may however let you use your position as first in place.
- **Rejection** — By submitting the application, all applicants accept the call conditions set out in these Rules of Contest (and the documents they refer to). Applications that do not comply with all the call conditions will be **rejected**. This applies also to applicants: All applicants need to fulfil the criteria; if any one of them doesn't, they must be replaced or the entire application will be rejected.
- **Cancellation** — The awarding authority may cancel the contest or decide not to award the prize — without any obligation to compensate participants (*e.g. no applications, jury cannot determine winner, winner is not eligible or must be excluded, objectives have already been achieved, etc.*). In this case, you will be informed via a call update.
- **Language** — You can submit your application in any official EU language. However, for reasons of efficiency, we strongly advise you to use English. If you need the call documentation in another official EU language, please submit a request within 10 days after call publication (for the contact information, *see section 12*).
- **Transparency** — In accordance with Article 38 of the [EU Financial Regulation](#), information about EU prizes awarded and the winners (name, address and amount awarded) is published each year on the [Europa website](#).

The publication can exceptionally be waived (on reasoned and duly substantiated request), if there is a risk that the disclosure could jeopardise your rights and freedoms under the EU Charter of Fundamental Rights or harm your commercial interests.

- **Data protection** — Any processing of personal data in the context of this prize will be done in accordance with Regulation [2018/1725](#). It will be processed solely for the purpose of evaluating your application (and subsequent management of your prize and, if needed, programme monitoring, evaluation and communication). Details are explained in the [Funding & Tenders Portal Privacy Statement](#).

By submitting the application, all applicants accept that the awarding authority will publish information on the finalists and winners.
