Q3. In November of 2022, there will be a general election for Governor, U.S. Senate, and other offices. While it is some ways off, how likely would you say you are to vote in that election: Will you definitely vote, probably vote, are the chances 50-50, will you probably not vote, or will you definitely not vote?

Q3. In November of 2022, there will be a general election for Governor, U.S. Senate, and other offices. While it is some ways off, how likely would you say you are to vote in that election: Will you definitely vote, probably vote, are the chances 50-50, will you probably not vote, or will you definitely not vote?

Q12A. Agree/Disagree with the following: If a vaccine against COVID-19 is approved by the US Food and Drug Administration (FDA) for school-age children, it should be required for all students in California schools, with allowable medical exemptions such as those for students who are allergic to components of the vaccine.

Q12A. Agree/Disagree with the following: If a vaccine against COVID-19 is approved by the US Food and Drug Administration (FDA) for school-age children, it should be required for all students in California schools, with allowable medical exemptions such as those for students who are allergic to components of the vaccine.

Q17. As you may know, prior to the COVID-19 pandemic, the federal government required students to be tested on state tests in English and Mathematics each year from 3rd to 8th grade and once in high school. However, testing was suspended in 2020 and limited in 2021. Which of the following is closest to your opinion about testing in 2022 and beyond?

1. _Students should be tested on at least the same schedule as before the pandemic.
- OR
2. _Students should be tested less often, such as once in elementary school and once in high school.
- OR
3. _Students should not be required to take state tests.

Q17. As you may know, prior to the COVID-19 pandemic, the federal government required students to be tested on state tests in English and Mathematics each year from 3rd to 8th grade and once in high school. However, testing was suspended in 2020 and limited in 2021. Which of the following is closest to your opinion about testing in 2022 and beyond?

1. Students should be tested on at least the same schedule as before the pandemic.
- OR
2. Students should be tested less often, such as once in elementary school and once in high school.
- OR
3. Students should not be required to take state tests.

Q27G. Agree/Disagree with the following statement about parent and community involvement in the decision-making of local public schools and districts:
 During the pandemic, school boards have been important because they ensured that decisions about education were made close to those who were affected by them.

Q28. As you may know, the University of California recently decided not to use standardized tests, like the SAT and ACT, to determine which students to admit. Having read this, please indicate whether you strongly agree, somewhat agree, somewhat disagree or strongly disagree with the following statement:

Removing standardized tests from admissions decisions at California's public universities has made the process more fair for students.

Q30. President Biden and Congress are considering several proposals to forgive federal student loan debts for individual borrowers.
 What amount of student loan debt do you think the federal government should forgive for individual borrowers?

Q30. President Biden and Congress are considering several proposals to forgive federal student loan debts for individual borrowers.
 What amount of student loan debt do you think the federal government should forgive for individual borrowers?

Q31. As you may know, there is currently an ongoing debate about whether universities should be allowed to use race as a factor in college admissions. Having read this, which of the following statements is closest to your own view?

1. Universities should be allowed to use race to make admissions decisions to ensure a diverse student body and because of discrimination against certain racial groups.

OR

2. Instead of race, universities should use a family's socio-economic and financial status to get a diverse student body.

OR

3. Universities should only use academic and extracurricular qualifications in assessing student admissions and not use race, ethnicity or socio-economic status.

Q32. As you may know, enrollment in California's community colleges has declined during the COVID-19 pandemic. Research has shown that community colleges provide an important path toward better jobs for students and can help the economy. Having read this, do you strongly support, somewhat support, somewhat oppose, or strongly oppose the state providing more funding for housing or living expenses so more students can enroll in community college programs?

Q33. As you may know, enrollment in California's community colleges has declined during the pandemic, particularly for low-income students and students of color. Research has shown that community colleges provide an important path toward better jobs for students and can help the economy. Having read this, do you strongly support, somewhat support, somewhat oppose, or strongly oppose the state providing more funding for housing or living expenses so more students can enroll in community college programs?
