Tog ama haro ayaa si sharci ah loo mari karaa haddii ay jirto marin dadweyne, ama haddii dhulka dadweynaha ama waddada guud ee midigta looga maro ay ku xirmaan dusha biyaha, ama haddii aad fasax u haysato inaad ka gudubto dhul gaar loo leeyahay si aad u gaadho dusha biyaha.

Waa maxay isticmaalka madadaalada?

Isticmaalka madadaalada waxaa ka mid ah doon, dabaasha, kalluumaysiga, ugaadhsiga, dabin, iyo hawlo la mid ah. Waxaa ka mid ah ku lugeynta biyaha dhexdeeda nashaadaadyada noocaas ah iyadoon loo eegin cidda leh dhulka ka hooseeya biyaha. cidda leh dhulka ka hooseeya biyaha.

Biyo kasta oo ku dul sabayn kara doon yar ayaa awood u leh isticmaalka madadaalada, laakiin biyaha kale ayaa waliba u qalmi kara hadba duruufaha jira.

Wadada Xaq loo leyahay

Qaar ka mid ah waddooyinka xaq-u-lahaanshaha ma leh unug dowladdu leedahay. Mararkaas mulkiilaha dhulka ayaa fasax ka siiyay safarka gaadiidka iyo cagaha. Had iyo jeer way fiican tahay inaad weydiisato ogolaansho haddii shaki kaaga jiro lahaanshaha aagga godka wadada. Xafiisyada degmada ama degmadu sidoo kale waxay awood u yeelan karaan inay ka caawiyaan go'aaminta xaaladda lahaanshaha god biyoodka.

Wadooyinka jidadku ku fududaan waxay u muuqdaan kuwo quruurux ah, halka waddooyinka uu gobolku leeyahay u muuqdaan kuwo laami la saaray. Dusha sare ee wadada waa tilmaame muuqaal ah oo lahaanshaha laakiin maahan xaalad gebi ahaanba ah.
- Wadooyinka Tuulooyinka guud ahaan waa fudeyd oo ma leh magaaladdu, laakiin waddooyinka magaaloooyinka qaarkood waxaa leh magaalada. Sida ay tahay waddooyinka degmada, dusha sare ee waddadu waxay noqon kartaa tilmaame muuqaal ah lahaanshaha.
- Lahaanshaha ama xaaladda dhulku wuxuu ku kala duwanaan karaa waddo kasta oo jid kasta ah, wayna ku kala duwanaan kartaa waddada ilaa wadada.

Muuqaal ahaan, wadada toosan ee-jidka ayaa loo hagaajiyay loona dayactiray, waxaadna caadiyan dareemi doontaa isbadal ku yimaada guriga — oo ay kujiraan waxyaabaha sida godadka, khadadka xayndaabka, iwm. way ku kala duwanaan kartaa lahaanshaha ama dhulka fudud, ee hal meel illaa meel kale.
