

Fire Management Board

FMB Memorandum No. 17-002

Date: 30 June 2017

TO: FMB Executive Board Members

FROM: Larry Sutton, Chair, Fire Management Board

SUBJECT: Completion of Wildland Fire Predictive Services Program Review – Assessment Phase

This memorandum distributes the *Wildland Fire Predictive Services Program Review Report* that addresses the assessment phase of the FMB Wildland Fire Predictive Services Program Review that was tasked on September 1, 2016 (FMB Tasking Memorandum 2016-001).

This assessment evaluated the effectiveness of the current Wildland Fire Predictive Services Program to meet the changing business requirements of wildland fire management. The FMB received and accepted the attached report documenting the assessment on June 21, 2017. Please distribute the report as appropriate within your agencies.

The assessment phase identified several issues that warrant further attention to improve the service and function of the program. The FMB is preparing a new tasking to address prioritization, evaluation, and resolution of these issues.

I want to express my appreciation to the members of the Task Team for their commitment to this program review and its goal of improving the Wildland Fire Predictive Services Program.
