

# 2024 HUGO VOTING STATISTICS

**GLASGOW 2024**  
**A WORLDCON FOR OUR FUTURES**

## 2024 Hugo, Lodestar and Astounding Awards: full statistics

1720 **nominating ballots** were received (1715 electronic, 5 paper).

The last place on the ballot in the following categories was decided by a **single vote**: Best Related Work, Best Dramatic Presentation Long Form, Best Fanzine, Best Fan Artist.

The last place on the ballot in the following categories was decided by a margin of **two votes**: Best Short Story, Best Professional Artist, Best Semiprozine.

3813 **final ballots** were received (3808 electronic, 5 paper). As we announced on 23 July 2024, we had to disqualify 377 of these which were not cast by natural persons. We did count the remaining 3436 (3431 electronic, 5 paper).

The winner of Best Semiprozine was decided by a margin of **6 votes**, and the winners of Best Professional Artist and Best Fancast by margins of **7**. These were the **closest** results among winners.

At lower placings, there were **ties** for **3<sup>rd</sup> place** in the *Astounding Award*, and for **5<sup>th</sup> place** in the Best Graphic Story or Comic category, and 4<sup>th</sup> place in the Best Graphic Story or Comic category was decided by a margin of **one vote**.

The most decisive contest was for Best Game or Interactive Experience, where the winner got 47.0% of nominating votes and 42.7% of final ballot first preferences, winning on the fourth count of a possible six.

In five categories, the finalist with the **second** highest number of first preferences won after transfers. In two categories, the finalist with the **third** highest number of first preferences won after transfers.

In ten out of twenty categories, the winner had also **topped the poll** at nominations stage. In four categories, the winner placed **second** at the nominations stage; in three the winner had placed **third** at nominations, in two the winner was **fourth** and in one case the winner was the second last to qualify.

## Detailed Nomination and Voting Statistics

### Final ballot

The winner and lower places are determined by the single transferable vote. In the tables, the leader in each round of counting is shown in **bold** and the eliminated finalists in **red**.

In each category, a **runoff vote** is also conducted between the winner and No Award to determine if the winner has majority acceptance. Also, if the number of first preference votes for finalists other than No Award in any category is **less than 25%** of the total number of votes, no award is made in that category. **Neither** of these was triggered in 2022.

### How Nominations are Tallied

Nominations for the Hugo Awards (and the Lodestar Award and *Astounding* Award) are tallied using a system known as E Pluribus Hugo (EPH). It has been in place since 2017 and is intended to reduce the impact of bloc voting in the nomination process. Under EPH, nomination votes are tallied as follows:

- First, the **total** number of nominations from all ballots is tallied for each nominee. At each stage when a nominee is eliminated, this number will be the deciding factor.
- Next, a single point is assigned to each individual voter's nomination ballot. That point is **divided equally** among all nominees on that ballot. (In later rounds of calculation, it is divided equally between remaining nominees.)
- Next, all EPH **points** from all nomination ballots are **totalled** for each nominee in that category.
- Next, the two nominees with the **lowest EPH point totals** are compared.
  - If there is a tie of more than two nominees with the lowest or second lowest point total, all of them are compared.
- Whichever of the nominees being compared has the **fewer or fewest** number of **nominations** (rather than EPH points) is eliminated and removed from all subsequent calculations.
  - If two or more nominees are tied for the fewest number of nominations, the nominee with the lowest point total at that round is eliminated.
  - If two or more nominees are tied for both fewest number of nominations and lowest point total, then all such nominees tied at that round shall be eliminated, unless that would leave fewer than six in play, in which case they all get onto the final ballot.
- Back to step 1 with the remaining nominees after the elimination.

### Interpreting Nomination Tables

The column headed N lists the total number of **nominations** received by the nominee.

The columns to the right of that have the EPH **points** for each nominee, starting from the tenth last count (as specified in the WSFS Constitution). The two numbers in **red** in each of those columns show the points of the two (or more) nominees with the lowest EPH point totals, which are being compared to see which one should be eliminated.

The last column on the right is the final count, with the last eliminated nominee below the thicker line (if there were no withdrawals or disqualifications) and the remaining six above being the finalists who go on to appear on the ballot.

In cases where one or more of the top six nominees was not eligible for the category, or withdrew from consideration, they are struck through on the table and their places on the final ballot were taken by the last nominees to be eliminated, in reverse order, and the line is placed below the last nominee to reach the final ballot.

NB that the Hugo administrators do not make eligibility decisions regarding nominees unless they have enough votes to qualify for the final ballot, so it is possible that some nominees below the line would also not have been eligible.
