◆English Version

No.	Dept. in charge	Field centers *	Theme	Student capacity	Prerequisite conditions				Length	Training period		Program Overview	Other information	Action to be taken in case of COVID-19 outbreak
					School	Major	Academic year	Others		Start date	End date			
1	Research and Development Directorate, Management and Integration Department, Kakuda Administration Division	Kakuda	Consideration of Kakuda Space Center's original public relations and outreach activity measures for the Tohoku area	3~4	unspecified	unspecified	2nd academic year of university or higher	unspecified	7 days	July- November (planned)	<ul style="list-style-type: none"> •Kakuda Space Center is JAXA's largest field center in the Tohoku area. •Kakuda Space Center operates exhibition rooms, hold various events and educational activities for elementary school students. •Kakuda Space Center is also focusing on regional promotion activities. On the other hand, the Kakuda Space Center is relatively not well-known, and there is a potential to increase Kakuda Space Center's prominence. •Based on above assumptions, the intern team will be tasked with developing a new approach(*) that has never done before, plan and implement activities that will increase the visibility of Kakuda Space Center. *A new approach; The new approach will include creation of online contents and actual event proposals that will communicate attractive aspects of Kakuda Space Center. The approach will also include analysis and further considerations regarding the public relations effects of the events and other relevant items. 	Interns may experience practical training such as event participation on weekends during the internship period.	Suspension of internship program (中止)
