Section 1      Introduction

## Introduction

The FY 2016 Statewide Cost Allocation Plan (SWCAP) provides the allocation of the costs incurred by the central administrative and support activities (central services) of the State of Texas to the state agencies which they supported during the fiscal year ended August 31, 2014 (FY 2014); and the fixed costs which may be utilized in recovering central services costs from federal grants and awards during the fiscal year ending August 31, 2016 (FY 2016). The SWCAP is based on actual expenditures for the fiscal year ending August 31, 2014 (FY 2014) and allocation data incurred by the central services during FY 2014. The FY 2016 SWCAP has been prepared by MGT of America, Inc. under a contract with the Texas Office of the Governor.

### Federal Requirements

The identification and recovery of the cost of the State's central services from federally funded programs requires the annual development of a SWCAP in accordance with federal cost principles and procedures as presented in 2 CFR Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Federal cost principles were formerly presented in U.S. Office of Management and Budget OMB Circular A-87. The SWCAP must be submitted to and approved by the Division of Cost Allocation of the U.S. Department of Health and Human Services.

All costs included in the SWCAP have been identified and allocated in accordance with the following basic principles, as stated in 2CFR Part 200:

- Costs are necessary and reasonable for proper and efficient performance and administration of Federal awards.
- Costs are allocable to Federal awards under the provisions of the Circular. Costs have been allocated to a particular cost objective only if the goods or services involved are chargeable or assignable to such cost objective in accordance with relative benefits received.
- Costs are authorized or not prohibited under State or local laws or regulations.
- Costs conform to any limitations or exclusions set forth in 2 CFR Part 200, Federal laws, terms and conditions of the Federal award, or other governing regulations as to types or amounts of cost items.
- Costs are accorded consistent treatment. A cost has not been assigned to a Federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been allocated to the Federal award as an indirect cost.
- Except as otherwise provided for in 2 CFR Part 200, costs have been determined in accordance with generally accepted accounting principles.
- Costs have not been included as a cost or used to meet cost sharing or matching requirements of any other Federal award in either the current or a prior period, except as specifically provided by Federal law or regulation.

- Costs are net of all applicable credits.
- Costs are adequately documented.

**SWCAP Format**

The SWCAP is comprised of the following sections:

- ❖ **Certificate of Cost Allocation Plan.** A certification by an authorized state official that the SWCAP has been prepared in accordance with applicable policies and procedures of 2 CFR Part 200.
- ❖ **State Organization Chart.** A current State of Texas organization chart.
- ❖ **FY 2016 Fixed Costs.** A schedule providing a summary of the FY 2016 fixed costs for each state agency. Schedules are also provided documenting the calculation of the fixed cost for each state agency for each central service.
- ❖ **Carry Forward Adjustments.** A schedule for each allocated central service department, summarizing the adjustments calculated to reconcile actual FY 2014 costs to the approved fixed costs for FY 2014 (based on Actual FY 2012).
- ❖ **Detailed Cost Allocation Plan.** Summary and detailed schedules documenting the allocation of central service costs.

Section 2      Certificate of Indirect Cost

## CERTIFICATE OF INDIRECT COSTS

This is to certify that I have reviewed the indirect cost rate proposal prepared by MGT of America, Inc. submitted herewith and to the best of my knowledge and belief:

1. All costs included in this proposal to establish billing or indirect cost rates for the year ending August 31, 2016 are allowable in accordance with the requirements of 2 CFR Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and the Federal award(s) to which they apply. Unallowable costs have been adjusted for in allocating costs as indicated in the cost allocation plan.
2. All costs included in this proposal are properly allocable to federal awards on the basis of a beneficial or causal relationship between the expenses incurred and the agreements to which they are allocated in accordance with applicable requirements.

Further, the same costs that have been treated as indirect costs have not been claimed as direct costs. Similar types of costs have been accounted for consistently.

I declare that the foregoing is true and correct.

Section 6            Statewide Cost Allocation Plan

## Statewide Cost Allocation Plan

### Overview

The Office of the Governor for the State of Texas is responsible for the development and submission of the Statewide Cost Allocation Plan (SWCAP) required under the provisions of 2 CFR Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. The provisions of 2 CFR Part 200 define the principles and standards for determining costs for Federal awards carried out through grants, cost reimbursement contracts, and other agreements with State and local governments and federally recognized Indian tribal governments.

The SWCAP for the State of Texas is submitted for review and approval to the Central States Division of Cost Allocation within the U.S. Department of Health and Human Services. The SWCAP is the mechanism by which the State identifies, summarizes, and allocates indirect costs. (Section I). The SWCAP also includes financial and billing rate information for billed central services directly charged to agencies or programs (Section II).

### Process

A double-step down allocation methodology is used to allocate the allowable costs of the central service divisions. This methodology recognizes the cross support provided between central service departments. For example, Governor's Budget and Planning Division supports other central service departments with budget monitoring, maintenance and policy development. Other central services departments, however, also support the Governor's Budget and Planning Division with information technology service, accounting, facilities maintenance, etc.

The double-step down methodology requires an initial sequencing of allocating departments. In the first step of the double-step methodology, allowable costs from central service departments are allocated in the sequence selected to all departments, divisions and funds; including to other central service departments. The second step in the double-step down methodology is made to fully account for the cross support provided between central service departments. Central service departments are closed after the second step in the double-step down allocation methodology.

## Sections

### Table of Contents

The first pages of the Cost Allocation Plan are the Table of Contents. The column on the left side of the pages lists the central service, or allocating, divisions. Each central service department is broken down into functions. Functions are the specific services provided by a particular division or organizational unit within the department. The middle column lists the allocation base for each corresponding function. The column on the right side of the pages is the applicable page number.

### Summary Schedule

The next pages of the Cost Allocation Plan are the Summary Schedule. The Summary Schedule identifies the total dollar amount allocated from each central service department to every receiving agency. Allocated central service departments are listed down the left column and receiving agencies are listed across the top of each page.

### Detail Schedules

The remaining pages of the Cost Allocation Plan are the detail schedules for every central service department. The detail schedules for each central service department are structured in the following format.

Narrative. Lists the department name, provides a brief description of the activities performed, identifies the functional activities and the corresponding allocation base.

Departmental Costs (A). The actual expenditures for that department by cost pool or functional activity.

There are three different codes that may be denoted on the Departmental Cost schedule. Those three codes are S, P and D and identify how costs are spread or distributed within a specific department. The S (or S1) stands for salaries. The P stands for percentage. The D stands for disallowed.

Incoming Costs (B). The support costs coming into the department from other allocating divisions.

Incoming costs are spread on the ratio of function salaries to departmental salaries. In the few instances where a department has no salaries, incoming costs are spread on the ratio of functional expenditures to departmental expenditures. Certain incoming costs, however, may be denoted with an \*. The \* identifies incoming costs that are directly identified to departmental functions and spread to functional cost pools on a percentage basis.

Total Allocated (C). The total amount allocated for that department. This amount is found at the end of the Incoming Costs schedule.

Function Allocations. The distribution, or allocation, of the Total Allocated costs by function.

Allocation Summary. The summary of allocated costs by function.

**STATE OF TEXAS  
BUILDING DEPRECIATION  
NATURE AND EXTENT OF SERVICES**

The allocation of depreciation on state owned buildings is not all-inclusive. Buildings occupied by central service agencies and/or one or more participating agencies are included in this schedule. Depreciation has been computed on a straight-line method using a 40-year life (2.5%) for original building acquisition or construction plus capital improvements.

The capitalized building values are reported in the Texas State Property Accounting System (SPA). In addition to the capitalized values reported in the SPA system, deferred maintenance expenditures incurred from September 1, 1997 through August 31, 2003 (FY1998 – FY2003) for projects of \$500,000 or more have been added, with depreciation computed on a straight line method using a 15 or 20 year life, depending on the nature of the project.
