

Schools have many activities to participate in but my overall favorite is crimestoppers. It may seem like a buzzkill to most, but I assure you it's not. I would like to further explain with three reasons on why crime stoppers is something to enjoy, there's no age limit, you can help out your community, and most importantly keep your fellow students safe.

Let's start off with no age limit. Many students believe if their school doesn't have a middle school crimestoppers they aren't eligible to join when however this is not true. You can still get involved by contacting the highschool crimestoppers if you would like to help with activities. There are also many other ways to be involved with crime stoppers without having to reach out for example, Chisum isd has a website just for tips; it doesn't save any record as to who sent it. What a good way to help your students and not have to worry if they find out.

Going back to how you can help out your community. Adult crimestoppers sets up food donations, helping people who need it most, and fun activities for your family. The adult crimestoppers in Paris do many things including, the police golf tournament, police vs firefighters baseball tournament, as well as the rodeo. It may not seem like alot, but it does however bring us together. It allows the town to see we aren't just looking to get people in trouble but rather to help.

Finally we must talk about keeping our fellow students safe. If you remember I mentioned a tip line, this tip line does have rewards to encourage you to use it. It may not get used all the time but when it does it helps the adults figure what truly happened to keep the kids on the right track. It's extremely important to catch it at a young age so you can channel then fix the issue. If it can be resolved during this process they'll fix they're actions and try to make it right.
