MARCH NEWSLETTER

This year, Paris High's Crimestoppers thought of a way to get school-wide community involvement and educate people about different crime situations. Our idea? Why a duck-hunt of course! By enlisting the help of our fellow Crimestoppers officer committee to hide ducks across the campus and set reward pricing for the rarer ducklings, it gave us a chance to meet individuals whom we wouldn't have thought to meet before.

"SEE SOMETHING SAY SOMETHING."

During the month that we did the duck hunt, we found that it was the highest our tip-out had ever been! We thought about the idea of "duck hunting" based on the crime scenario with ducks! Interacting with the ducks located in different places, served as the duck problem as the victim, the finder, and the potential offender, the duck, was created. It promoted our campus motto "see something, say something" which was a direct influence of this.

IDEAS OF CS

With the start of the new year, I was able to witness lots of different ideas that could have been incorporated into our program. Learning about mental health, how to manage it, and how to prevent fatal mental issues, gave a lot of clarity to what others could be going through.

WHAT IS CS?

One of the big questions asked at our school is "What even is Crimestoppers?", "Do y'all just snitch?", "Why isn't Crimestoppers, an organization that should be praised by our community, not widely known?" We've realized that not everyone at our school is presently aware of the Crimestoppers program, but by doing community outreach, our program has become conscious of us. Despite, low-lying circumstances, we are slowly building back up our program after our primary Crimestoppers program, Lamar County Crimestoppers, was previously disbanded. Now with our newly started Crimestoppers program, Northeast Texas Crimestoppers, we have been able to jumpstart a very long road ahead of us and we are all the more prepared for it!
