# HASA Offers an Eco-Friendly Product Delivery Model

HASA's Sani-Clor® signature yellow containers and fill program are streamlined & eco-efficient

## HASA's convenient 4x1 transport system makes it EASY!

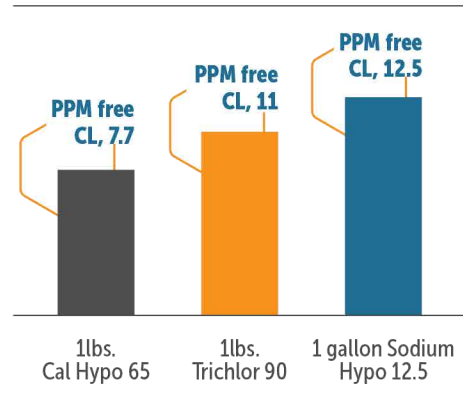

- Reusable, returnable gallon deposit cases offer safe, simple product transport
- Best cost-per-use pool sanitizer
- Enables Pool Pros to use and exchange plastic liquid chlorine bottles for fresh, full bottles
- Our 4x1 yellow containers—designed for stacking and heavy-duty handling—provide secondary containment
- HASA's patented "No Glug Jug®" reduces splashing when pouring & simplifies handling
- HASA's filtering methods are 3-6x more effective than grocery store bought bleach
- Delivery model helps fight America's growing plastic packaging waste crisis
- Best method for **Safe, Clean and Clear crystal blue pool water** year round!

## The Gold Standard Delivery Model for the Pool Industry's Preferred Liquid Sanitizer

Liquid Sani-Clor® provides the greatest amount of free chlorine compared to trichlor or cal hypo.

Per 10,000 Gallons

HASA's Reduce. Reuse. Recycle program keeps more than **25,000,000 plastic bottles out of our oceans and landfills each and every year.**

Pool Pros know... **HASA is the liquid chlorine trusted for over 50 years to deliver a crystal clear, sparkling blue pool.**
